SEVENTY-EIGHTH

Annual Report

of the Town of
Old Orchard Beach, Maine

For the Year Ending

December 31, 1960

Town Manager's Report

To the Honorable Board of Selectmen
and the Citizens of Old Orchard Beach:

When I became Manager of Old Orchard Beach in May, the construction of the sewer system was well under way. This project has been completed except the resurfacing of East Grand Avenue which will be done in the early spring. This improvement has put the Town ahead of all others on the Maine coast as the first to completely protect the beach against pollutin.

This year five other projects were started all of which will be of lasting benefit to the Town. The drafting of a new charter by the Committee on Town Government has been completed and submitted to the Legislature. A code of ordinances is being prepared for presentation to the Town Meeting. A bill for licensing certain businesses and purposes is before the Legislature and will later be adopted by the Town if acceptable and a comprehensive planning survey with State and Federal aid has started and a preliminary report has been made to the Planning Board and the committee on Economic and Recreational Development. Joint meetings with representatives of the Sewall Company who are making the survey will be held monthly through 1961 and the completed survey will be presented to the 1962 Town Meeting. Further, a preliminary survey for the construction of a sewer system for the Halfway section is under way. The entire cost will be borne by the Federal Government with the understanding that when and if the survey is ever followed, the Town will repay the Federal Government at the time of construction. Such progressive steps indicate the will of the people to put Old Orchard Beach ahead of other Maine communities as a resort Town. We have received considerable adverse publicity and undoubtedly have lost some of our summer guests as the result of the operations of some of the seasonal merchants and every effort is being made to remedy such conditions as the threat to the economy of Old Orchard Beach is of grave concern to us.

Tax payments have been slow throughout the fall and winter which has made it impossible to meet our obligations on time. Such a condition injures the credit

of the Town and its reputation throughout the State as does the number of tax liens for previous years as shown elsewhere in this report. The early date on which tax liens had to be recorded has proved a hardship to some tax payers. The date of tax commitments and consequently the date for the placing of liens should be later this coming tax year.

If the progressive thinking and action of 1960 is carried on through 1961, Old Orchard Beach cannot only boast of having the finest and cleanest beach in the world but can also boast of being one of the best towns in the State of Maine in which to live.

I wish to take this opportunity to thank the people of the Town for their patience and consideration shown me as a new Manager of the Town of Old Orchard Beach.

Sincerely,

Percival H. Wardwell
Town Manager

Town Officers

SELECTMEN AND ASSESSORS

Charles D. Peckham, Jr., Chairman

Arthur Loranger

Edward H. Smith

Report of Town Clerk

VITAL STATISTICS FOR YEAR ENDING DECEMBER 31, 1960

DEATHS

- Potvin, Eugenie, Old Orchard Beach, Me. Jan. 1, 1960.
Age 85. Coronary occlusion.
- Sheaffer, Magdalene, Portland, Me. Jan. 12, 1960. Age
41. Bronchopneumonia.
- Boston, Ray, Old Orchard Beach, Me. Jan. 29, 1960. Age
66. Coronary insufficiency.
- Mitchell, Arthur E., Saco, Me. Jan. 7, 1960. Age 81.
Cardiac decompensation.
- Gagnon, Clorinda, Augusta, Me. Jan. 14, 1960. Age 84.
Pneumonia.
- Armstrong, James Clyde, Saco, Me. Jan. 19, 1960. Age
53. Coronary occlusion.
- Dunning, Lorretta R., Augusta, Me. Jan. 30, 1960. Age
75. Coronary thrombosis.
- Barrett, Minnie Amelia, Saco, Me. Jan. 31, 1960. Age 65.
Toxemia.
- Milliken, Ross R., Old Orchard Beach, Me. Feb. 26, 1960.
Age 84. Bronchopneumonia.
- Proco, Donald, Portland, Me. Feb. 10, 1960. Age 66.
Arteriosclerotic heart disease.
- Shaw, George Lewis, Old Orchard Beach, Me. Feb. 13,
1960. Age 84. Cerebral thrombosis.
- Thompson, Jennie M., Old Orchard Beach, Me. Feb. 28,
1960. Age 84. Arteriosclerosis.
- Henderson, Robert W., Biddeford, Me. Feb. 2, 1960. Age
47. Pulmonary edema.
- Boothby, Ralph E., Saco, Me. Feb. 15, 1960. Age 72.
Cardio vascular renal disease.
- Coalfleet, Owen, Old Orchard Beach, Me. March 6, 1960.
Age 86. Cerebral Thrombosis.
- Melaugh, Mary F., Old Orchard Beach, Me. March 8,
1960. Age 87. Bronchopneumonia.
- Foster, Caroline E., Old Orchard Beach, Me. March 5,
1960. Age 90. Left ventricular decompensation.
- Farmer, George A., Old Orchard Beach, Me. March 22,
1960. Age 68. Acute pulmonary edema.
- Stover, Kim, Portland, Me. March 9, 1960. Age 11 mos.
Brain tumor.

Sayer, Louis, Old Orchard Beach, Me. April 7, 1960. Age 73. Cardiac myocardial infarction.

Simoneau, Phelanise, Old Orchard Beach, Me. April 7, 1960. Age 76. Cerebral hemorrhage.

Gilman, Charlotte O., Biddeford, Me. March 10, 1960. Age 83. Cerebral hemorrhage.

Laird, Catherine M., Biddeford, Me. March 19, 1960. Age 83. Coronary occlusion.

Gilman, Ralph E., Biddeford, Me. March 15, 1960. Age 73. Acute coronary occlusion.

Renton, John N., Biddeford, Me. March 16, 1960. Age 69. Coronary thrombosis.

Cantara, Marie Delia, Biddeford, Me. March 20, 1960. Age 81. Acute congestive heart failure.

Pease, Sarah L., Augusta, Me. March 2, 1960. Age 79. Coronary thrombosis.

Mernick, Arline A., April 12, 1960. Old Orchard Beach, Me. Age 78. Coronary occlusion.

Bowen, Charles J., Old Orchard Beach, Me. April 17, 1960. Age 69. Carcinoma of stomach.

Remillard Edgar, Portland, Me. April 21, 1960. Age 57. Carcinoma of larynx.

Blais, Marie L., Biddeford, Me. April 23, 1960. Age 70. Acute coronary thrombosis.

Morse, Robert H., Old Orchard Beach, Me. May 13, 1960. Age 39. Carbon monoxide poisoning.

Gogins, Harriet M., Old Orchard Beach, Me. May 18, 1960. Age 88. Myocardial insufficiency.

Bowie, Bessie A., Old Orchard Beach, Me. May 16, 1960. Age 82. Cancer of colon.

Moldenke, Clara W., Old Orchard Beach, Me. May 27, 1960. Age 68. Myocardial infarction.

Shaffer Addie E., Old Orchard Beach, Me. June 1, 1960. Age 80. Cardiac decompensation.

Vinal, Katherine M., Portland, Me. May 1, 1960. Age 70. Lymphosarcoma of stomach.

Cyr, Lucille Marie, Old Orchard Beach, Me. June 13, 1960. Age 42. Asphyxiation.

Higgins, Arline, Biddeford, Maine. May 19, 1960. Age 79. Asphyxiation.

Hunter, Grace M., Saco, Me. May 18, 1960. Acute cardiac decompensation.

Martin, Tilly D., Portland, Me. June 12, 1960. Age 72. Gastric hemorrhage.

Shaw, Annie C., Biddeford, Me. June 15, 1960. Age 81. Cerebral coma.

Aries, Luigi, Biddeford, Me. June 27, 1960. Age 82. Severe dehydration.

Dean, Georgia E., Scarborough, Me. May 5, 1960. Age 88. Cerebral thrombosis.

May, Michael, Old Orchard Beach, Me. July 16, 1960. Age 7. Asphyxia.

Murphy, Eleanor P., Old Orchard Beach, Me. July 16, 1960. Age 62. Acute myocardial failure.

MacHarrie, Hallie H., Old Orchard Beach, Me. July 24, 1960. Age 82. Leukemia.

Sawyer, Winchester, Old Orchard Beach, Me. July 23, 1960. Age 88. Hypostatic pneumonia.

Scafe, Roy T., Old Orchard Beach, Me. July 28, 1960. Age 60. Myocardial infarction.

ThurLOW, Lydia J., Old Orchard Beach, Me. July 28, 1960. Age 87. Massive pulmonary embolization.

MacFarland, Chispa R., Old Orchard Beach, Me. Aug. 1, 1960. Age 78. Termini bronchopneumonia.

Campbell, Kate M., Old Orchard Beach, Me. Aug. 2, 1960. Age 90. Carcinoma of the servix.

Rowe, Dana W., Old Orchard Beach, Me. Aug. 2, 1960. Age 82. Myocardial infarction.

Plummer, Alice M., Old Orchard Beach, Me. Aug. 4, 1960. Age 88. Arteriosclerotic heart disease.

Googins, Nellie M., Old Orchard Beach, Me. Aug. 8, 1960. Age 92. Cardiac decompensation.

Ladakakos, Bessie, Biddeford, Me. July 3, 1960. Age 74. Auricular fibrillation.

Merrigan, Winifred, Old Orchard Beach, Me. Aug. 11, 1960. Age 64. Myocardial infarction.

Sheehan, Mary B., Old Orchard Beach, Me. Aug. 15, 1960. Age 70. Metastatic carcinoma.

Johnson, John Howard, Old Orchard Beach, Me. Aug. 15, 1960. Age 86. Cardiac decompensation.

Gadbois, Richard A., Old Orchard Beach, Me. Aug. 22, 1960. Age 50. Hepatic coma.

Bowen, Mary D., Old Orchard Beach, Me. Sept. 8, 1960. Age 70. Internal hemorrhage.

Walbridge, Baby girl, Biddeford, Me. Aug. 16, 1960. Age-Infant. Respiratory failure.

Ostrander, Robert E., Old Orchard Beach, Me. Sept. 13, 1960. Age 76. Myocardial infarction.

Bromley, Samuel, Old Orchard Beach, Me. Sept. 16, 1960.
Age 95. Cardiac decompensation.

Sutherland, Blanche A., Old Orchard Beach, Me. Sept. 21, 1960. Age 49. Coronary occlusion.

Plummer, Burnham A., Old Orchard Beach, Me. Sept. 27, 1960. Age 74. Cerebral hemorrhage.

Deering, Nellie S., Old Orchard Beach, Me. Oct. 7, 1960.
Age 82. Chronic myocarditis.

Small, Lillian M, Old Orchard Beach, Me. Sept. 30, 1960.
Age 83. Chronic myocarditis.

Hodgdon, Lillian A., Biddeford, Me. Sept. 21, 1960. Age 84. Chronic myocarditis.

Speck, Sarah J, Biddeford, Me. Sept. 16, 1960. Age 82. Senility.

Nevico, Julian Jr., Old Orchard Beach, Me. Oct. 24, 1960.
Age 9. Laceration of spinal cord.

Garneau, Joseph, Old Orchard Beach, Me. Oct. 27, 1960.
Age 83. Acute coronary artery occlusion.

Boston, Viola M., Old Orchard Beach, Me. Oct. 27, 1960.
Age 78. Cerebral thrombosis.

Sullivan, Mary L., Old Orchard Beach, Me. Nov. 7, 1960.
Age 69. Pneumonia.

Hector, Cathryn N., Portland, Me. Oct. 18, 1960. Age 1. Bilateral bronchopneumonia.

Biggerstaff, Gloria M., Portland, Me. Oct. 21, 1960.. Age 1. Acute phylonephritis.

Whitman, Jessie A., Old Orchard Beach, Me. Nov. 11, 1960. Age 81. Cardiac decompensation.

Palmer, Etta, Biddeford, Me. Oct. 21, 1960. Age 86. Peritonitis.

Staples, Zulma A., Biddeford, Me. Oct. 31, 1960. Age 82. Arteriosclerotic Heart Disease.

Labelle, Donald, Biddeford, Me. Oct. 25, 1960. Age 12. Surgical Shock foreign protein allergy.

Rix, John B., Old Orchard Beach, Me. Oct. 21, 1960. Age 87. Shock.

Linnell, Susan T., Old Orchard Beach, Me. Nov. 19, 1960.
Age 83. Cardiac decompensation.

Strong, Madelyn S., Portland, Me. Nov. 17, 1960. Age 60. Cardio respiratory collapse.

Wright, Augustus S., Amesbury, Mass. Sept. 4, 1960.
Age 75. Fractured left hip.

Hohn, Martha, Old Orchard Beach, Me. Dec. 2, 1960.
Age 76. Pulmonary embolism.

Guimond, Adelard, Old Orchard Beach, Me. Dec. 27, 1960. Age 61. Coronary occlusion.

Fitton, Ethel, Biddeford, Me. Dec. 18, 1960. Age 53. Cirrhosis of liver.

Births—81

Respectfully submitted,

Esther S. Crowley

Town Clerk.

1960 Advertising and Publicity

The real results of the successful campaign of 1960 are found in the general reports of “good” or “best ever” business throughout Old Orchard Beach despite the serious and adverse publicity of the previous year. The advertising and publicity campaign planned and executed by the Harry M. Frost Company was a major factor in making 1960 a good year for business. Newspaper readers from New York City northward and from Toronto eastward were hit with sizable, dynamic art work, layouts and selling copy whenever they looked at the leading resort mediums in major markets for vacation information. Supplementing this paid advertising was a veritable barrage of photographs and feature stories sent out by the Harry M. Frost Company. These received widespread use amounting to free publicity which, if purchased at regular advertising rates, would have cost \$4 589.90. This figure represents only a partial accounting as much publicity undoubtedly escaped our attention despite diligent checking.

The number of inquiries received by the Chamber of Commerce — 3529 with 2398 keyed and 1131 unkeyed, only partially shows the effect of the paid advertising. Detailed figures on inquiries and publicity value are on an attached sheet. Undoubtedly thousands who had previously been to Old Orchard Beach or had friends who told them about this “Playground of Vacationland” were reminded by the Chamber advertising and publicity and wrote direct to places of accommodation.

Elimination of the coupon used in 1959 advertising when the Harry M. Frost Company did not place the

Town's advertising resulted in somewhat fewer inquiries than if a coupon had been used. Based on your past experience with coupon advertising and unreadable answers your decision to eliminate coupons was a wise one. In 1960 those who wrote in used postcards or letters so that their names, addresses and vacation preferences could be deciphered more easily. This also allowed us to use more space with easier to read copy — to SELL Old Orchard Beach.

The press, radio and television party held by the Chamber of Commerce in mid-May resulted in numerous newspaper stories and free radio and television time for Old Orchard Beach. The dollar value of this was great but impossible to calculate and has not been included in this report. The good will the party engendered among the travel editors helped to establish in 1960 the record of more than twice as much publicity for the Beach than ever before.

	Cost of Keyed Inq.		Cost per Val. of Free	
	Adver.	Received	Inquiry	Publicity
Publications				
Ottawa Citizen	\$ 32.20	30	\$ 1.07	\$ 150.65
Albany Times Union	281.20	176	1.59	38.00
Boston Advertiser	607.60	258	2.35	402.50
Springfield Republican	155.40	61	2.54	148.75
Montreal Gazette	133.20	51	2.61	310.80
N. Y. Journal American	502.20	188	2.67	45.90
Montreal La Presse	1,100.00	395	2.78	107.25
Montreal LaPatrie	600.00	206	2.91	
Providence Journal	249.60	79	3.15

Boston Herald	285.00	70	4.07	318.75
Montreal Star	1,104.00	269	4.10	597.00
Worcester Telegram	183.04	43	4.25	6.60
Boston Globe	856.40	168	5.09	1,303.00
Montreal Le Petit Journal	588.00	95	6.18	311.50
Toronto Star	140.00	10	14.00	575.00
	<hr/>	<hr/>	<hr/>	<hr/>
	\$7,899.00	2398		\$4,589.90

In addition to the foregoing a 1/8-page advertisement was run in the nicely printed magazine "Down East" in their June and July issues. Special copy to encourage business over the big three holidays — Memorial Day, Fourth of July and Labor Day — was run in the Haverhill Gazette, Lawrence Eagle Tribune, Lowell Sun and Manchester (N.H.) Newsleader. These entailed an expenditure of \$344.00 more. The cost of art work,

cuts and mats was \$205.36 making a grand total of \$8,448.36. To purchase the same advertising space in 1961 an additional 5% or approximately \$500.00 will be required due to a general increase in advertising rates.

Report of Health Officer

I succeeded the late George A. Farmer as Health Officer on March 26, 1960 and have since received and investigated the following complaints.

Complaints concerning cesspools and septic tanks	5
Sewers backing up	7
Flooded cellars	2
Maintaining private dump	3
Mixing wet and dry waste	2
Keeping hens and/or roosters within town limits	2
Dead animals	1
Swarm of bees	1
Stagnant pond	1
Complaints concerning rats	2
Requested a house be fumigated	1
Condemned a house and ordered it torn down account unfit for human habitation	1
Complaints concerning ramshackled houses	2
House found in unsanitary condition	1
Had swamp filled in	1
Food poisoning	2
Possible TB carrier working in restaurant	2
Unsanitary cabins	2
Unsanitary soda fountains	1

I also received and investigated complaints on various other nuisances, in addition to those listed above. 30

Complaints received concerning Child neglect, these were referred to the State Dept. of Child Welfare for investigation. 2

The State Dept. of Health and Welfare reported to me the following cases:

Polio; contacted by a resident of Old Orchard Beach while visiting in another city 1

Possible venereal disease carrier working in Old Orchard Beach 1

Passports stamped by State Dept. of Health and Welfare, for overseas travel 5

Answered letters sent to Local Health Officer on various matters 5

Issued permits for various reasons 2

Made following trips to surrounding towns on matters concerning health and welfare:

Biddeford	1
Saco	3
Portland	5

Made following inspections:

Restaurants	23
Motels	7
Rooming houses	11
Hotels	5
Drug Stores	5

Had to make several re-inspections to see if recommendations made on first inspections had been carried out. I worked in close conjunction with the State Health Inspector on inspections.

Reported to The State Dept. of Health and Welfare the following communicable disease:

Mumps	25
Measles	45
German Measles	4
Chicken Pox	36
Scarlet Fever	1
Scarletina	1
Whooping Cough	1
Lobar Pneumonia	1

I wish to take this opportunity to express my gratitude to the Town Manager, Board of Selectmen, Dept. heads, the Doctors, Lawyers Nurses, Clergymen and all the citizens whom I have worked with for the fine cooperation they have given me on matters concerning the health and welfare of the citizens of the Town of Old Orchard Beach.

Millard H. Palmer
Local Health Officer.

Report of Fire Department

Louis Wharff
Chief of Fire Dept.

Memorial Park

Report of Park Commissioners

It is with great pleasure that the Park Commissioners express their appreciation to the citizens of the Town of Old Orchard Beach, Maine, for their confidence and cooperation this year. The State Auditors report will explain in detail, the receipts and expenditures that were needed in the operation of your Parking Lot and other activities that are under our supervision.

This year the Park Commissioners again had supervision of the Atlantic Ave. and Central Park Ave. recreation centers, the Parking Lot on First Street, the upkeep of the islands at the Halfway Section, and the Miliken Street free Parking Area.

In cooperation with the Women's Civic Group, your Commissioners supervised activities for beautification of all parking and recreational areas. We would like to express our sincere appreciation to this group for their whole-hearted support.

Respectfully submitted,

Louis Balkan, Chairman
Charles Hogan
Norman Ilsley

Report of Superintendent of Schools

To the School Committee and
Citizens of Old Orchard Beach :

A public school is a symbol of democracy. Without public education, our democracy would not long endure. School houses must be situated on suitable sites, be well equipped, properly staffed, and well cared for. However, what takes place within the school building is far more important than the building itself.

CURRICULUM

The curriculum of the Old Orchard Beach school system is not static, but has been continually changing to meet the challenge of its function to the times. This has meant periodic and continued review of the subjects taught. Careful attention has been given to the reorganization of curriculum offerings and the grouping of all learning experiences within several major areas of study.

Schools should be so responsive to the needs of society and the young citizens growing up within, that in this rapidly changing world, the school curriculum will never reach the point where further change is unlikely.

During the past year accepted subjects and areas have received changed emphasis. Groups of teachers under the leadership of the administration are giving the curriculum a complete overhauling in the attempt to provide a well balanced program of learning for all.

Evaluation is constantly taking place. It is a process of checking the extent to which goals of the system are realized. Final results are compared against the aims and purposes. It is an appraisal of the progress toward the objectives. This process requires a great deal of planning by the staff members and the administration combined.

TEACHING PERSONNEL

A corps of good teachers is the essential element that makes a good school. The Town of Old Orchard Beach is fortunate in this respect. Your Superintendent has always recognized that the success of a school system is dependent upon the teaching personnel, and has

made every effort to secure the services of competent and well trained teachers to fill our needs. New candidates are carefully screened and selected for their specific abilities.

During the past year several teachers were enrolled in courses for professional improvement. Many others have participated in workshops held at the school. These intensive courses have covered particular phases of instruction, demonstration, and participation which have proved instructive and worthwhile. They are well balanced programs relative to school requirements.

ELEMENTARY FRENCH

Elementary French had its beginning in our schools this year. The program is required of all pupils beginning at the sixth grade level. Time allotments extend 15 to 20 minutes, and classes meet twice a week.

More and more school systems are starting foreign language programs in their elementary schools. Many outstanding educators have endorsed the program and state that the earlier linguistic experience facilitates learning of another language at a later period.

ADULT EVENING SCHOOL

The adult evening school again operated on a semester basis of fourteen weeks.

Courses offered and the instructors certified by the State Department of Education are as follows:

Teacher	Subject	Enrollment
Miss Dorothy Garland	Shorthand	6
Miss Dorothy Garland	Shorthand (refresher)	5
Mr. Arthur LaChance	Typing I	18
Mr. Arthur LaChance	Bookkeeping	12
Mr. Bernard Neveaux	Driver Training	20
Mr. Jerome LePelletier	Great Novels	8
Mrs. Alice Dale	Sewing	7
Mr. Joseph Arentz	Art	19

All courses were open to adults or young people of high school age who were not enrolled in a secondary school.

SCHOOL BUILDING PROGRAM

A modern high school building is a great contributing factor for better education for our youth. Old Or-

chard Beach is beginning to feel permanent growth and will continue to see its school population increase. Looking forward to the next few years and considering the increased pupil enrollment, we must focus attention to the need for additional space at the high school. At present, 285 students are now using facilities intended for 215 pupils. Based on present enrollment in the elementary grades, the high school population will expand to 411 within the next six years, not including allowance for new families moving into town.

Greatest of the needs according to a recent survey are at least four additional classrooms, larger industrial arts and home economics rooms, more science laboratory facilities, a larger cafeteria, a library, and an adequate gymnasium with ample locker room facilities.

Some form of building is going to be necessary in the very near future if the Town is going to maintain even a minimum — standard high school and operate it on a practical basis.

Architects are being consulted, and plans with recommendations for the addition and renovations to meet our needs have been submitted for study. I will not attempt to draw conclusions as this problem is being thoroughly studied by a group of competent Old Orchard Beach citizens, appointed by the selectmen of the town.

The committee is composed of Mr. Benjamin Downs, chairman, Mrs. Mary Smith, Mr. Leslie Wyman, Mr. Louis DeAngelis, Mrs. Helene Fowler, Mrs. Marie Migner, Mr. John Trull, Mr. John Menard, Mr. Adelbert Jakeman and your Superintendent of Schools.

PARENT-TEACHER CONFERENCES

Parent-teacher conferences have long been characteristic. Unfortunately such conferences in the past have far too often been centered on problems and difficulties the school has faced with a pupil.

Our schools for the past two years, have, in seeking for improved methods of reporting pupil progress, instituted as a regular procedure for all individuals, a reporting conference. These conferences to which one or preferably both parents are invited, provide an opportunity for the teacher to share his judgments as to the child's growth and development and for parents to do the same. Often not only progress in school work is dis-

cussed but the emotional development of the pupil as well.

Though such conferences are time consuming, the values are so obvious that it may be hoped that the procedure will be expanded to more than one conference each year. Through this type of conference it is possible that teachers and parents can share their understandings in a way that will add much to the child's life, both at home and at school.

LIBRARY

For the past two years we have made effort to improve our school libraries. Subject matter learned in isolation has little or no permanent educational value. The school library has the advantage of serving as an integrating factor in the pupil's educational experience. There he is able to pursue his own interests and develop new interests through books and reading. The opportunity to read widely on a given topic helps him to understand that knowledge is not confined to textbooks, and he gains skill in selecting and evaluating information from various sources.

REPAIRS

Numerous repairs have been made on the interior and exterior of the school buildings. Last summer the burners in all schools were serviced, some painting done, one new ceiling repaired and painted, a hot water system installed at the Federal School, and many other problems of maintenance too numerous to mention were corrected and improved.

We have discontinued the use of oil on the wood floors of the Elementary and Federal Schools. After the floors were properly prepared, a good type penetrating floor seal was applied. Now that the floors have been thoroughly sealed, they required only annual sealing in worn areas. Sealed floors have a nicer appearance and may be cleaned more easily.

School property values must be managed and maintained not only to protect the money investment, but also to insure the availability and proper functioning of some indispensable portions of the educational process. School buildings should be kept attractive and never permitted to assume a run-down appearance. Not only is it

bad financial policy, but it also serves to complicate the problem of discipline.

In closing, I wish to take this opportunity to thank all the parents and citizens of the Town of Old Orchard Beach, and especially the members of the School Board, for their cooperation and kind help which they have given me.

Frank D. Lawler
Supt. of Schools

	1205

ENTERING AGE OF PUPILS

Six years of age on or before October 15th of the school year shall be admitted to grade one.

Five years of age on or before October 15th of the school year shall be admitted to Junior Primary.

SCHOOL STORM SIGNALS

The no-school signal will be sounded by the fire alarm signal at 7:30 o'clock A.M.

It is advisable to listen to radio stations WIDE, Biddeford, WCSH and WGAN, Portland, as announcements will be made.

Weather reports are not always reliable and since the School Department desires to tender maximum educational service by having school in session the greatest number of days, storm signals will not be used when there is reasonable doubt.

Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

MEETINGS

The School Committee holds its regular monthly meeting at the Jameson School on the third Wednesday of the month at 7:30 P.M.

School Nursing Report

1960

Because of the pressure being given in our schools today on the study of science we gave up our First Aid Classes in Jan. 1960 to allow that time to be given to the science classes. We continued to make every nursing contact a means for individual first aid instruction and trust that later on we can again carry the First Aid Classes on the school program

We now have a qualified guidance instructor on our school staff and it is helpful indeed in working out the many problems that do arise particularly at the Junior High level.

The winter months of our school program were as usual at that time of year well filled with social service problems, - need for lunches, clothing, medical care and hygiene problems always at a peak during cold weather.

The clinic service for immunization against diphtheria, whooping cough, tetanus and smallpox, plus Salk Polio shots was continued thru the monthly clinics held at the Town Hall each first Tuesday at 9:30 a.m. The Town Nurse, Mrs. Curry, and School Nurse worked closely together on all clinic services to produce the best possible results for the time and money invested.

On Dec. 7th and 8th, 1960 we had a polio clinic held in the schools primarily to give booster shots to our students and we picked up children lacking the polio series. A total of 644 shots were given and our thanks go to Mrs. Gertrude Milliken R.N., Mrs. Helen Curry R.N., Mrs. Helen Fowler Secretary, and our School Doctor, Dr. Donald Skilling for a job well done. A small charge of 25 cents per shot was asked to cover the cost of the clinic and for immunization clinics in general for the future we feel we must ask this too as the appropriation allowed cannot cover the need.

Again during 1960 we had help from the State Dept. of Education with special services, - taxi service for children not able to travel otherwise, - home teachers for house bound children, and sight conservation care.

The State Dept. of Health and Welfare recommended a series of four thorough physical exams during the

school life of the students, - @ Junior Primary age, @ fourth grade, @ eighth grade and Senior High School level. We are doing a more intensive exam at school now, - covering less in total numbers than formerly but a more exact exam per pupil. We would like family cooperation in having each child who can afford it have an exam by his family doctor at stated intervals and a report given to school of the results. This would keep us informed on the children's health picture to their best protection. Our time spent on the remaining school exams recommended by the State Dept. of Health would be a good protection also. We would like parent permission to do a more intensive exam in the future in the primary grades. Examining the bare chest and back would help us to pick up more possible defects in posture and malformations, etc.

The Speech Therapist had a leave of absence during the past year but now has returned to part-time service and we hope to have some visits with her during the coming months for children needing this type of help.

Sweetser Home again gave us service during 1960 but it was limited due to the work load and a series of illnesses of the staff at Sweetser. A new policy of study care was started during the Fall Term of 1960. The children who needed help for a variety of emotional reasons could go to Sweetser for visits and care. Three children have received help since then. Mr. Leighton Cheney who used to visit at our schools will see the children at Sweetser Home from now on. This program has been very valuable to our school service and as we have watched our own school guidance program develop we are very grateful for our past help from Sweetser Home.

Mrs. Doris Homer, Dental Hygienist, again supervised our dental clinic and gave fluorine treatment to our primary grade children.

Our school eye clinic continued to help needy children during 1960 and we must thank both service clubs and eye doctors for their cooperation on this program. Nine children were given eye care help.

Our School Lunch and Milk programs were as always excellent helpers on the children's health needs. Roughly half of our school children stay at school for hot or cold lunch daily. Over 500 children to be fed and cared for requires good cooperation between the lunch staff, the duty teachers and the children. All do their part to

ensure a good program, - good health thru good food.

The local service clubs and other units for community aid brought happiness to the children during the holiday season thru toy projects, dinners and parties for which we were very grateful.

With thanks and appreciation to all who helped during 1960, - individuals and groups on our school nursing program.

Respectfully yours,

Agnes V. Murphy, R.N.

SCHOOL NURSING REPORT SUMMARY 1960

Communicable diseases reported to school:
Chicken Pox 33, Mumps 13, Measles 58, Strep infection 2.

Report of School Physician

Dr. Frank Lawler

Superintendent of Schools,

Saco, Maine.

Dear Dr. Lawler:

During August all the prospective football candidates were examined to ascertain if any pulmonary, cardiac or anatomical deviations were present to prohibit such activity.

The total number of examinations carried out in the school this year was five hundred and forty-five. This was some fewer than in the past because of our attempt to give a more complete physical. Otoscopic examinations were performed on all individuals and blood pressure was taken on all High School students. In both these categories no great abnormalities were found, but due to a prevalence of "colds" there appeared to be an excessive amount of aural secretions, blood pressure elevations in those encountered were believed to be due to the fact that the individual had never been subjected to the procedure and was in a nervous state.

During National Diabetic week, November 13 to 19, there was a gratifying response, at which time the pupils brought urine specimens to school. These I took to my office and analyzed.

A program was also formulated by Mrs. Murphy, the school nurse whereby a total of six hundred and forty-four Salk vaccine inoculations were given with the able assistance of Mrs. Helene Fowler, Mrs. Gertrude Milliken R.N., Mrs. Helen Currie R.N. and Mrs. Agnes Murphy P.H.N. to all of whom I extend my deep appreciation.

Sincerely,

Donald S. Skilling, D.O.
School Physician

SCHOOL LUNCH PROGRAM

Dr. Frank Lawler,
Superintendent of Schools,
9 Cutts Ave.,
Saco, Maine.

Dear Dr. Lawler,

I have audited and examined the Books and Records of the Old Orchard High School Lunch Program for the fiscal year ended June 30, 1960.

My examination was made in accordance with generally accepted auditing standards and included such tests of the accounting records and other auditing procedures as I considered necessary in the circumstances.

In my opinion the accompanying statement reflects the Income and Disbursements for the year.

Respectfully submitted,
Sven J. Hvoslef,
Accountant and Auditor.

Report of Public Health Nurse

To the Town Manager, Board of Selectmen
and Citizens of Old Orchard Beach:

The following is a report of visits made during the
year:

Adult Health	45
Antepartum	1
Cancer	88
Cardiac	28
Communicable	2
Crippled Children	24
Infant	13
Mental Health	3
Morbidity	819
Postpartum	5
Pre-school	16
School	13
Tuberculosis	52
Tuberculosis Contacts	13
Welfare	147

There were a total of ten Well Baby and Immunization Clinics with 375 attending:

Polio 237, Vaccinations 49, DPT 89 (Diphtheria, Tetanus and Whooping cough).

We had two adult polio clinics with only an attendance of 36 and 35. There were so few attending we felt it did not warrant another clinic. The blood-typing clinic was so poorly attended we have given up trying to have a roster for a blood bank for the present.

There were ten trips made to Portland clinics, three to Biddeford hospitals, two to Doctors office, one to Sweetser Home.

I would like to express my sincere thanks to Mrs. Beaudette who has so kindly helped at our clinics, to Mrs. Milliken, Mrs. Mullen and Mr. & Mrs. Rix who worked for the adult clinics and to the Doctors for their co-operation during the year.

Respectfully submitted,

Helen G. Curry, R.N.

Report of Civil Defense Director

To the Board of Selectmen and all Citizens
of the Town of Old Orchard Beach, Maine:

At this time it is my pleasure to submit to the Citizens of Old Orchard Beach, the activities of your Civil defense unit for the past year 1960. I want to express my gratitude at this time for every one of the Deputies in Civil Defense for their part in the functioning of our C.D. unit here. I wish to thank No. 1 Deputy, Louis R. Wharff, our Fire Chief, and his men for the nice job they did with the Alert System of our Civil Defense. All of the following deputies have made regular trips to C.D. meetings at Alfred.

No. 2 Deputy Leslie E. Wyman and the department of Police for their participation in Civil Defense Work.

No. 3 Deputy, Richard Norton and his crew of auxiliary police. Norton and his auxiliary police unit together with the Town Police did a commendable job during the hurricane evacuating people from danger spots on the water front. They also protected our people from falling electric wires, etc.

No. 1 Woman Coordinator, Mrs. Shirley Doe and her girls did a splendid job during the hurricane. This group prepared and fed one hundred twelve (112) of our citizens at the high school on the night of the hurricane. About seventy-five (75) people stayed at the high school all night and were fed coffee and doughnuts the next morning.

No. 2 Deputy, Nurse Helen Curry and crew for their work all the night of the hurricane.

No. 3 Home Nursing, Avis Stevenson, who worked so hard having her crew making bandages taking class instructions on First Aid. Avis Stevenson called on Dr. Hopkins of Old Orchard Beach and Dr. Lesieur of Saco and Biddeford, the Webber Hospital and Beach Pharmacy for all the information she gathered to make up First Aid Chests throughout our Town. There are five such chests in the Town.

I wish at this time to tell the people of Old Orchard Beach that if they can keep a C.D. unit functioning in

their Town, they benefit very much because they are working hand in hand with their Federal Government.

The Budget of \$350.00 for Civil Defense voted by the people is hardly enough as the following will show.

EXPENDITURES

Telephone	\$121.10
Labor	77.80
Medical supplies and equipment	373.56

Orrin E. Clark
Civil Defense Director

Report of the Town Government Study Committee

This committee, authorized at the Town Meeting on March 8, 1960, and subsequently named by the Selectmen, organized on April 18 and met several times thereafter, concluding with a public hearing on November 14.

After a careful study of both the present form of government in Old Orchard Beach and those in practice in comparable communities in the State of Maine, a proposal was made to the Town that is primarily representative by district, retaining a Town Manager but having a Town Council rather than a Board of Selectmen.

A special sub-committee comprising Attorney David K. Marshall, State Representative Jerome G. Plante, and Jerome A. LePelletier drew up a proposed Charter. Special maps, indicating the five suggested districts, also were prepared. The plan was looked upon with general favor at the hearing, and later was accepted by the Selectmen.

The document was then forwarded to Mr. Plante for consideration by the 100th session of the State Legislature. Following the anticipated approval of this body, it is expected the next step will be a referendum this fall. If the vote is favorable at that time, the new form of government can be put into effect for 1962.

The work of this committee was completed well within the Selectmen's allocation of \$500. At all times, the members of the committee were faithful in attendance, cooperative in their deliberations, and mindful of their responsibility to the townspeople they were representing in the project entrusted to them.

Respectfully submitted,

Adelbert M. Jakeman, Chm.

Auditor's Report

JOHN L. ALHEIM

CERTIFIED PUBLIC ACCOUNTANT

MEMBER AMERICAN INSTITUTE OF ACCOUNTANTS

FELLOW DISTRICT OF COLUMBIA INSTITUTE OF

CERTIFIED PUBLIC ACCOUNTANTS

Feb. 7, 1961

Board of Selectmen,
Town of Old Orchard Beach,
Old Orchard Beach, Maine,

Gentlemen:

In accordance with the provisions of Chapter 405, Section 26, of the Public Laws of 1957, and at your request, we have made an examination of the books and records of the Town of Old Orchard Beach for the municipal year ended December 31, 1960.

An examination had previously been made by the State Department of Audit for the six months ended June 30, 1960. As the report on this examination was made available to us for review, we did not attempt to duplicate the work performed by the State excepting where it was necessary to establish certain basic data or to consolidate into the operations for the entire year.

Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. Insofar as could be ascertained within the scope of the examination, the financial transactions of the Town appear to have been properly handled, and with such exceptions as may be noted in the accompanying comments.

In our opinion, the accompanying exhibits and schedules, fairly present the results of the financial operations of the Town for the period designated, in conformity with generally accepted municipal accounting principles applied on a basis consistent with that of the preceding year.

Very truly yours,

John L. Alheim

Certified Public Accountant

COMMENTS

CASH ON HAND AND IN BANKS \$25,106.76

Cash on hand was counted and cash in banks were reconciled to confirmations received from the Canal National Bank for each of the accounts maintained at that institution. Although general funds indicate a balance of \$20,635.24 on deposit December 31, 1960, of that sum \$16,413.80 represents the excess of unexpended departmental balances of accounts being carried forward to the ensuing fiscal year.

Old outstanding checks being carried forward for a number of years past without any action being taken upon them, were written off and \$283.36 added to unappropriated surplus.

A separate statement of cash receipts and disbursements of the Sewer Construction Account appears in Exhibit F, annexed to this report, revealing the moneys received from the sale of bonds, subsidies from State and Federal Government for this project and the disposition of such funds for the year under review.

ACCOUNTS RECEIVABLE \$ 3,326.61

Amounts due from the State and other communities for pauper assistance, as well as a subsidy payment due from the Federal Government for education, make up the foregoing amount, the detail of which is set forth in Schedule 1. All but the amount due from the State of Maine, has been verified by examination of the payments received since January 1st, or by requests for confirmation of the unpaid amounts.

TAXES RECEIVABLE \$128,563.08

Taxes committed to the tax collector for the municipal year were checked and found to be properly accounted for either in cash, discounts, abatements, or remaining outstanding on the collector's records, after a few minor adjustments.

Mail requests for confirmation were made of 61% of uncollected taxes for the year 1960, computed on a dollar basis.

There is presented in Schedule 2, a summary of unpaid taxes for the years 1953 to 1960 inclusive, totalling \$128,563 08. During the course of our examination we also found records indicating unpaid taxes for the years

1950, 1951 and 1952 amounting to \$10,998.61 which for some unascertainable reason is not included in the books of account or the balance sheet. This matter is also covered under the heading of Recommendations.

TAX LIENS

\$26,388.37

After minor adjustments for three of the years, tax liens control accounts were made to conform with the aggregate of unpaid items, the details by years appearing in Schedule 2 of this report. No write-off for uncollectible items were made during the year 1960.

Requests for verification were mailed to 49.6% of liens outstanding for all years, as computed on a dollar basis.

CAPITAL RESERVE FUND

\$ 862.55

In support of this account, we examined Pass Book No. 1832 of the Biddeford and Saco Savings Institution. During the year the sum of \$6,700.00 was withdrawn from the savings account to apply against the purchase of a new fire truck as voted in Article 5 of the special town meeting of May 5, 1960.

The detail of this account, which incidentally had not been set up in the Selectmen's Ledger, appears in Schedule 5.

LIABILITIES

\$103,666.51

The amount of current obligations remaining unpaid at the end of 1960 reveals a sharp rise over that of the preceding year. The increase is over \$64,000.00. While accounts payable displays a modest increase, more noticeable is the fact that the town paid only one half of its county tax for the year. In like manner, due to stringency of funds, tax anticipation loans of \$50,000.00 were not repaid before the close of the tax year for which borrowed as required by statute.

NOTES PAYABLE — DEBT FUND

\$33,025.00

We present in Schedule 3 the detail of notes payable outstanding at the close of the municipal year. While \$2500.00 of this debt had been paid off during the period, new obligations as voted at the special town meeting of May 5, 1960 of \$16,300.00 for a new fire truck and \$5000.00 to alleviate surface water conditions on Milliken Street, were incurred, causing a net increase in this debt of \$18,800.00.

The existence of the entire note liability was confirmed by us by correspondence with the holders. We were unable, however, to locate the cancelled note for \$2,500.00 paid last June although letters in the files indicated that it had been returned.

BONDS PAYABLE — DEBT FUND **\$575,000.00**

To finance the construction of sewerage facilities, two bond issues were floated, aggregating \$420,000.00. Actually \$300,000.00 of this amount dates from December 15, 1959, but was not reflected on the balance sheet of last year of the town. The addition of these two issues, offset by the payment of \$42,500.00 of bonds retired, resulted in a net increase of \$377,500.00 of the bonded indebtedness of the town. The breakdown appears in Schedule 4, attached to this report.

We examined cancelled bonds in support of all payments made during the year excepting \$3,000.00 of School Construction bonds which were paid last June, by means of an escrow agreement set up at the request of the Canal National Bank. The escrow agreement required the town to turn over the sum of \$34,500.00 which the bank in turn would apply in payment of certain notes and bonds maturing in 1960 as outlined therein. One of the amounts was for \$1,000.00 to be applied against a note for \$11,725.00 due to the bank. Our confirmation of notes payable outstanding December 31, 1960 disclosed the fact that this had not been done. Upon further inquiry of the bank, a check for \$1,000.00 was returned to the town as a refund, on February 4, 1961.

APPROPRIATED SURPLUS **\$16,413.80**

This sum represents the excess of unexpended balances over overdrafts of departmental accounts carried forward to the ensuing year. The items comprising this amount appears in Exhibit D - Statement of Departmental Operations.

SURPLUS **\$56,164.70**

This account reveals a decline of \$7,222.67 over the preceding year due mainly to the application of \$22,835.25 to cover overdrafts in various departmental accounts as voted at a special town meeting held December 12, 1960.

The details are presented in Exhibit E and include numerous adjustments which were brought out during

the course of the examination as being applicable to prior periods. Other adjustments, as yet unresolved for reasons hereinafter outlined, are commented upon in the recommendations section of this report.

As voted by the townspeople in a prior period, an amount of \$50,480.10 has been segregated from unappropriated surplus to provide for tax losses. The free portion is thereby reduced to \$5,684.60 at years end.

FREE PUBLIC LIBRARY

Because of the absence of the Librarian during the course of our examination of the Town records and the unavailability of investment records, we did not deem it advisable to attempt an audit of the Library at this time. Instead, we suggest that this examination be deferred to a later date.

RECOMMENDATIONS

In accordance with Chapter 405, of the Public Laws of 1957, we offer the following recommendations for improvement of the financial administration of the Town:

- (1) The substantial increases in unpaid taxes and liens over that of preceding years, which in turn has increased the unpaid obligations of the Town to unwieldy proportions, render it imperative that an intensive collection effort be instituted to reduce both categories to reasonable amounts;
- (2) Concurrently with the foregoing suggestion, the unpaid tax and lien lists should be carefully scrutinized and evaluated and those items found uncollectible for any reason, should be stricken from the roles. This would include the unpaid taxes for the years 1950, 1951 and 1952 mentioned elsewhere in this report. If any portion is collectible, such amount should be added to the assets of the Town;
- (3) Inactive small accounts cluttering the Ledger, that were not closed out during the course of our audit, should be evaluated and steps taken to enable them to be disposed of, such as the School Construction Bank Account;
- (4) The Selectmen's Ledger control accounts of such categories as unpaid taxes, liens, accounts

receivable and accounts payable should be reconciled periodically and brought into agreement with the supporting lists of such accounts. For instance, adjustments were necessary for every year of unpaid taxes to bring the books into agreement with the records indicating the amounts outstanding, and three adjustments were required for the liens accounts;

- (5) The overlay was set forth in three different amounts, in the valuation book, in the ledger and in the interim audit report, none of which were in agreement with the sum we calculated to be the excess for the year 1960;
- (6) The debt fund and the capital reserve fund were not reflected in the ledger accounts when that record was reconstructed for the first half of 1960. To obviate a reoccurrence of this situation, a list of opening entries has been furnished your office staff for the year 1961.

---	-----------

Budget Committee does not recommend.

Old Salt Rd. Ext.	\$ 400.00
-------------------	-----------

Budget Committee does not recommend.

Cookman Ave. Ext. 280 ft. Westerly	\$ 700.00
------------------------------------	-----------

Budget Committee does not recommend.

Beecherii Ave. Ext. 280 ft. Westerly	\$ 980.00
--------------------------------------	-----------

Budget Committee does not recommend.

Article 47. To see if the Town will vote to accept a certain parcel of land from the Ocean Park Association for the purpose of including the existing sidewalk, said parcel having been laid out by the Selectmen and more particularly described in a deed from the Ocean Park Association to the Town of Old Orchard Beach, dated Feb. 2, 1961.

Budget Committee so recommends.

Article 48. To see what sum of money the Town will vote to raise and appropriate to construct the following sidewalks:

Fountain Ave. from existing sidewalk 50 ft. more or less to the rear line of Methodist Church property.

\$150.00 recommended by Budget Committee.

Summit St. Westerly side 250 ft.

\$750.00 recommended by Budget Committee.

Center St. Ext. in front of 4 Center St. 42 ft. long and 5 ft. wide.

\$126.00 recommended by Budget Committee.

Hoffman St. Northwesterly side from Carll to Imperial St.

\$1,065 recommended by Budget Committee.

Article 49. To see what sum of money the Town will vote to raise and appropriate to construct storm drains on the following streets:

Corner Temple Ave. and Fourth St. Southwesterly Corner.

\$300.00 recommended by Budget Committee.

Randall Ave. and Ninth St. Northwesterly Corner.

\$350.00 recommended by Budget Committee.

Article 50. To see what sum of money the town will vote to raise and appropriate for the following sewer line installations:

Wildwood Lane 30 ft more or less \$100.00

Recommended by Budget Committee.

King St. Ext. Existing sewer 35 ft. \$150.00

Recommended by Budget Committee.

Bower Lane 200 ft. \$1,000.00

Recommended by Budget Committee.

School St. Ext. Existing sewer 130 ft. \$450.00

Budget Committee does not recommend.

Summit St. Ext. Existing sewer 200 ft. \$900.00

Budget Committee does not recommend.

Article 51. To see what sum of money the Town will vote to raise and appropriate to construct a new sewer to extend from the present sewer at the corner of Maine Avenue and Ninth Street, easterly on Ninth Street to a point approximately sixty feet beyond Randall Avenue, a total distance of approximately 295 feet, to service at least three winter homes and two summer cottages.

Budget Committee recommends the sum of \$1,095.00.

Article 52. To see what sum of money the Town will vote to raise and appropriate to install a hydrant on the corner of Fourth and Winona Ave.

Budget Committee recommends \$250.00 yearly. The excavation and backfilling to be done by the Town from the General Highway Appropriation.

Article 53. To see if the Town will vote to raise and appropriate \$500.00 for planting flowers and trees in various sections of the Town. Said sum to be expended with the approval of the Park Commissioners.

Budget Committee recommends the sum of \$500.00 to come from Parking Lot Income.

Article 54. To see if the Inhabitants of the Town of Old Orchard Beach will vote to recommend the Park Commissioners to construct, operate and maintain an ice skating rink in Memorial Park, so-called, at the corner of the intersection of First and Heath Sts. in said Old Orchard Beach. All expenses therefor to come from the proceeds of the Municipal Parking Lot.

Recommended by the Budget Committee.

Article 55. To see if the Town will vote to authorize the Park Commission to operate the Public Parking Area for hire during the season of 1961, and to pay over to the Town Treasurer daily all receipts. Disbursements to be made by the Treasurer upon approved vouchers signed by a majority of the Park Commission and approved by the Board of Selectmen as prescribed in the Revised Statutes of 1954.

Recommended by the Budget Committee.

Article 56. To see if the Town will vote to authorize any unexpended balance in the Parking Lot Income Account, so-called, for the year 1961, to be carried over into the same account for the year 1962.

Recommended by the Budget Committee.

Article 57. To see what sum the Town will vote to raise and appropriate to remove the discontinued sewer pump house and fill in the remaining hole at the easterly end of Colby Avenue.

Budget Committee recommends the sum of \$350.00.

Article 58. To see if the Town will vote to raise and appropriate the sum of \$500.00 as the town's share of the cost of cleaning Temple Ave. and the Ocean Park Beach.

Budget Committee recommends the sum of \$500.00.

Article 59. To see if the Town will vote to raise and appropriate the sum of \$500.00 to be applied towards the operating costs of an Adult Evening School.

Not submitted to Budget Committee.

Article 60. To see if the Town will vote to hire a Town Solicitor and what sum the Town will vote to raise and appropriate therefor.

Budget Committee recommends the sum of \$1,500.00.

Article 61. To see if the Town will vote to authorize the Selectmen to employ an Auditor for the year 1961 and that a mid-year inspection of the Town's financial affairs be made by an auditor.

Recommended by the Budget Committee.

Article 62. To see if the Town will fix a date when taxes shall be due and payable, and to fix the date and rate that interest be charged on taxes.

Budget Committee recommends taxes be due July 1st and interest of 6% be charged on and after October 1st.

Article 63. To see if the Town will vote to authorize the Selectmen and Treasurer to procure a temporary loan or loans within the 1961 taxable year in anticipation of taxes for the purpose of paying obligations of the Town, such loan or loans to be paid during said taxable year.

Recommended by the Budget Committee.

Article 64. To see if the Town will vote to authorize the Selectmen and Treasurer to sell and dispose of property acquired by tax process, on such terms as they deem advisable and for the best interest of the Town, and to execute quit-claim deeds for same, or any action relative thereto.

Recommended by the Budget Committee.

Article 65. To see if the Town will raise and appropriate the sum of \$400.00 for the Selectmen to use for the Amvets State Convention Parade to be held in June 1961.

Budget Committee recommends \$400.00 to come from advertising.

Article 66. To see what sum the Town will vote to raise and appropriate for a Fourteen foot boat and motor fully equipped for Life Guard Service to replace present equipment.

Budget Committee recommends the sum of \$645.00.

Article 67. To see if the Town will vote to raise and appropriate the sum of four hundred dollars to be expended together with State and Federal funds in the control of White Pine Blister Rust as provided by the Revised Statutes 1954, Chap. 36. Sec. 68.

Budget Committee recommends the sum of \$400.00.

Article 68. To see if the Town will vote to authorize the Selectmen to appoint a budget committee to act in an advisory capacity to the Board of Selectmen and Town Manager and to meet with said Board and Manager at convenient intervals.

Budget Committee so recommends.

Article 69. To see if the Town will vote to authorize the Selectmen to appoint a five man committee to secure preliminary plans and sketches to build a proposed fire station, Town Hall and Police Station.

No recommendation by Budget Committee.

Article 70. To see if the Town will vote to assess the City of Saco for removal of dry waste and wet waste from the Old Orchard Beach pier.

No recommendation by Budget Committee.

Article 71. To see if the Town will vote to raise and appropriate the sum of \$995.00 to reimburse the Webber Hospital for treatment of an Old Orchard Beach patient, said expense having been incurred in January and February 1959.

No recommendation by Budget Committee.

Article 72. To see if the Town will vote to raise and appropriate the sum of \$1,200.00 to pay outstanding bill incurred in 1959 in connection with the Brown Street Sewer, so-called.

No recommendation by Budget Committee.

Article 73. To see if the Town of Old Orchard Beach will vote to instruct the Park Commissioners to develop outdoor recreation parks or playgrounds for this ensuing year with a progressing plan.

The Selectmen will be in session at the Town Hall on Thursday, March 2nd. from 9:00 A.M. to 12:00 noon and from 2:00 P.M. to 5:00 P.M. Friday, March 3rd. from 9:00 A.M. to 12:00 noon and from 2:00 P.M. to

5.00 P.M. also from 7:00 P.M. to 9:00 P.M. Saturday, March 4th. from 9:00 to 12:00 noon, for the purpose of registering new voters and correcting the voting list.

The polls will be open on the day of said Annual Town Meeting from 9:00 A.M. to 7:00 P.M. March 6, 1961.

Given under our hands this 24th of February, A.D. 1961.

SEVENTY-NINTH
ANNUAL REPORT
of the Town of
Old Orchard Beach, Maine

*For the Year Ending
December 31, 1961*

Town Manager's Report

To the Honorable Council
and Citizens of Old Orchard Beach :

The past year has been an eventful one and, we hope, marks a turning point in the Old Orchard Beach Story. A Licensing Law more comprehensive than anything of its kind in the State was prepared by Town Solicitor LaFountain and is being copied by several towns and watched with interest by many more, the new Charter has been adopted and put into operation, a highly efficient and businesslike Lifeguard Service has been inaugurated providing proper discipline training and procedure which has gained the attention of other beach resorts in southern Maine, and the Comprehensive Planning Survey, conducted by Sewall Company of Old Town, Maine, is nearing the completion of its first phase. All of these things represent progress and should be jealously watched in order that we may not take a backward step.

Looking forward toward the future we can lighten our financial burden by providing a "Relief Work Program" to lighten our welfare expenditures, improve our financial controls and budgetary procedure, establish a Long-Term Financial Plan, develop a ten year Capital Improvement Program, and securing a professional revaluation of the Town. We can regain our rightful place as a leading Beach Resort thru participation in County and local Overall Economic Development programs and the acceptance and execution of the recommendations of the Comprehensive Planning Survey, which include a Zoning Ordinance, Master Street and Highway Plans, Building and Plumbing Regulations, and a sound and practical Urban Renewal Program.

Sincerely,

Percival H. Wardwell

Town Manager

Respectfully submitted,

Esther S. Crowley,

Town Clerk.

1961 Advertising and Publicity

Briefly, Simonds, Payson Co. was very pleased and very much encouraged with the Old Orchard Beach advertising program of 1961.

As you know, we were selected as your agency at a late date and were not too familiar with your problems at the time your advertising was placed.

However, the 1961 schedule drew 7351 inquiries as against only 3529 in 1960. More important, the cost per inquiry was greatly reduced from \$3.29 per inquiry in 1960 to only \$1.25 in 1961.

With the background we now have, we feel assured we can lower the inquiry rate even more in 1962.

We worked with the Town Selectmen and the Chamber of Commerce in helping to organize and promote the Radio, TV and Newspaper Appreciation Weekend, State of Maine Day at Fenway Park and the Canadian Festival, plus other small events.

We have prepared a scrapbook of clippings received from various newspapers.

We thank you for the opportunity to work with you and look forward to a mutually profitable relationship in the future.

SIMONDS, PAYSON CO.

Richard Oransky.

Report of Health Officer

The following report is submitted for the year ending December 31, 1961.

An effort was made early in 1961 to secure the services of the Mobile X-Ray unit of the Maine Tuberculosis Association, for the purpose of X-raying food handlers, kitchen help, and all persons engaged in the preparation and handling of food served to the public in Old Orchard Beach, but due to the heavy demand for this unit, it was impossible to secure dates which would have been desirable for Old Orchard. Efforts will be made again to have this service available early in the 1962 season.

I called several State Agencies in for help on various situations in 1961, including the following: 1 case of child neglect, 2 cases involving restaurant operations, 1 case involving hotel operation, 1 case involving pollution of brooks, and 1 case involving riding stables.

Numerous other complaints were received and investigated.

Cesspools and septic tanks	3
Food poisoning	7
(all food poisoning involved one family only)	
Mixing wet and dry waste	1
Unsanitary cabins	3
Maintaining private dump	1
Creating nuisance	2
Open sewer pipe	1
Failure to have garbage removed	2
Open cesspool running onto other person's property	1

Numerous other minor complaints received and investigated.

Made several trips to Portland and Biddeford for various reasons.

Stamped seven overseas passports as required by State Law.

Also had several complaints made about unsightly conditions of streets in Old Orchard Beach, particularly around downtown area.

Reported to State Department of Health and Welfare following communicable diseases.

Tuberculosis	1
Infectious hepatitis	2
Syphilis	1
Mumps	39
Meningitis, Aseptic	1
Chicken pox	5
Meningitis, Bacterial	1
Streptococcal Naspharyngitis	1
Skin infections	8
(Pediculosis and Ringworm)	
Pneumonia	2
Scarlet Fever	1
Scarletina	1
Impetigo	1

I would like to state that since the new sewer interceptor line has gone into operation the complaints about the sanitary condition of the Beach have been reduced to very minor instances and that the situation we had before no longer poses a problem.

Again I would like to thank all the persons whom I have called upon for help in the last year and for the splendid cooperation they have given me while I was discharging my duties as Local Health Officer of Old Orchard Beach.

M. H. Palmer
Local Health Officer

Report of Public Health Nurse

The following is a report of visits made during the year:

Adult health	28
Antepartum	5
Cancer	131
Cardiac	89
Communicable	30
Crippled Children	33
Infant	13
Mental Health	4
Morbidity	876
Postpartum	1

Pre-school	25
School	39
Tuberculosis	34
Tuberculosis Contacts	19
Welfare	154
Diabetic	16

Total	1497
-------	------

There were 28 trips made to the Portland Clinics.

There were 10 Well Baby and Immunization Clinics held with an attendance of 299 children.

It had been hoped we could get the State mobile X-ray team for chest survey which also includes the diabetic test, for employees and food handlers. As it was not possible for them to come before the season opened it was postponed until this year. The Kiwanis have offered to sponsor the program.

Again I would like to express appreciation to Mrs. Marion Beaudette for her help with the Baby Clinics and to the Doctors for their cooperation.

Respectfully submitted,
Helen G. Curry, R.N.

Report of Fire Department

The following is the report of the activities of the Fire Department for the year 1961.

Smoke Scares	9
Emergency Calls	22
Outside Town Alarms	1
Miscellaneous	2
Civilian's Death	1
Total	150

Respectfully,
Louis Wharff
Fire Chief

Memorial Park

Report of Park Commissioners

It is with great pleasure that the Park Commissioners express their appreciation to the citizens of the Town of Old Orchard Beach, Maine, for their confidence and cooperation this year. The State Auditors report will explain in detail, the receipts and expenditures that were needed in the operation of your Parking Lot and other activities that are under our supervision.

This year the Park Commissioners have added to the lower part of the Park, three tables and benches as a picnic area. The demand has been so great that we are planning to add more tables and benches in the spring.

Again this year the Park Commissioners had supervision of the Atlantic Ave. and Central Park Ave. recreation centers, the Parking Lot on First Street, the upkeep of the islands at the Halfway Section, and the Milliken Street free parking area.

In cooperation with the Women's Civic Group, your Commissioners supervised activities for the beautification of all parking and recreational areas. We would like to express our sincere appreciation to this group for their whole-hearted support.

Respectfully submitted,

Louis Balkan, Chairman
Norman Ilsley
Charles Hogan

Report of Superintendent of Schools

To the School Committee and
Citizens of Old Orchard Beach:

The history of American public education has been a series of steps in the direction of an educational system which fostered democratic ideals. Education for democracy means more than a place in school for every child. The essence of democracy is a sincere respect for every boy and girl for his greatest development. In a democracy, a school must teach the youth to think courageously, constructively, and critically.

The modern school cannot confine itself to the teaching of the three "R's" only, any more than the church can confine itself to Sunday services only. The three "R's" must be taught and with more emphasis than ever; and the school must also be concerned with the physical, the emotional and the aesthetic sides of a pupil's life. All our children are future voters, and the school's responsibility cannot be limited or restricted. While the modern school may not have specific courses designed for character building, spiritual development, ideals, etc., an important part of every course and every teacher's job is that of building character, attitudes, good habits and ideals.

The acquisition of knowledge is a serious, time consuming business. It takes more than a few periods a day five days a week. Learning doesn't stop when school is dismissed. Education is a discipline - a mental discipline which rigorously conditions the mind to enable one to think, to reason and reach sound conclusions. Systematic hard work in the early years of youth will increase a person's confidence in his own mental powers and will provide an adequate preparation for the future.

TESTING PROGRAM

A testing program has been inaugurated which gives the teachers and administration a better insight into the individual differences of the pupils. The program brings about better guidance for our youth.

Results of these tests will assist the teacher by pointing out that some members of the class have per-

formance equivalent to pupils several years older, and some, several years younger than the class average. The results were very helpful to the curriculum revision committee by giving a more realistic idea of the spread of talent for which curriculum materials & methods must be provided at each grade level. In addition, the results will have value to teachers in identifying the pupils whose performance in a certain test is not in line with his intelligence measure and, therefore, the teachers can draw conclusions as to the expectations of the pupils.

SPRING EXHIBIT

Beginning this year the students in the elementary schools put on an exhibit for all parents in all aspects of the school program. The exhibit consisted of displays of work accomplished from September to April. The display of work was held on April 12th, from seven o'clock to nine p.m. in all schools with teachers in attendance.

It was felt by the administration and faculty that these exhibits are of value to the parents and public as one can readily see how the child actually progresses and to review the steps involved from the beginning of the year to the present time of observation. It also gives the parent an inside and specific feeling of the progress of the pupil through the opportunity of asking the teacher questions about what his child is doing and why.

It is hoped that in the future these spring exhibits will include a broader aspect of the total school program.

CORRECTIVE READING

The ultimate aim of Corrective Reading is a well-rounded individualized developmental reading program. It has become clearly evident over a two year study made by the Superintendent and principals that the prevention of reading difficulties should comprise the greater part of the remedial reading program. Special attention is being given to children of the elementary level who have trouble identifying the sound with the printed symbol.

The program is very flexible and allows reserved time at the clinic to work with small groups from the elementary grades as the reading difficulties arise. Reading is a growing process and confusions occur at

different levels. These confusions and difficulties in reading must be cleared up when they occur.

The many small classes held each day include pupils who are below mental age expectancy in reading, and who possess no mental, physical, or emotional handicaps that cannot be provided for or adjusted to within the framework of group instruction. Many instances of reading disability are being cared for by means of this group corrective program. Many teaching procedures are used and are selected in terms of their appropriateness for the difficulty faced, and are adapted to the specific needs of the group or individual taught.

HOMEWORK

In most schools today, work outside classes is called homework. Homework can be performed at home, after school hours, or it can be performed at one of a string of desks in a study hall, supervised by whatever teacher happens to be in charge during that period, regardless of his subject. Ordinarily, the homework consists of so many assigned pages to read in a school text, so many questions to answer, or so many words to write.

Schools that experiment with independent study find it difficult to stimulate even the most able students to do truly creative, independent work. They are accustomed to doing only what the teacher assigns and little more. Teachers' assignments have left little room in some cases for the exercise of initiative. Thus in some of the studies what was supposed to be independent study looked quite similar to the homework that usually occurs.

We desire to implement a plan whereby students will undertake special projects, which they have selected themselves, or which teachers have suggested. The projects will clarify, add to, or enrich subject matter presented in class and further explored by discussion in classes. Teachers will present materials in such a way that students will be encouraged to question the information, rearrange the data, seek further answers, and try to surpass previous accomplishments.

Because there will be more opportunities for individual study during a school week, students will typically spend more hours on this work than they do now on homework. The length of time will depend on the nature

of the project and the ability of the student. How much time will be determined by decision, based on the judgment of teachers and counselor, with consideration of parents' wishes. It will vary with the age of the student and with the stage of the program in the school.

SCHOOL LUNCH PROGRAM

School food service has established itself as an integral part of the educational program in this School Union. Food service is a complicated program and with the increased responsibilities, your Superintendent pointed out to the combined Boards of Education at their annual December meeting, the need for a person with sufficient educational background, good judgment, and administrative ability to supervise the various aspects of the program efficiently. I am pleased to report that the School Boards approved this recommendation for a School Lunch Director.

The School Lunch Director or Supervisor works with others to plan, develop, administer and supervise the School Lunch program on a district wide basis. He plans the menus and supervises the food service in the Union with emphasis on meeting at least one third of the daily nutritional needs of the children and youth. He also maintains necessary accounting information for profit and loss statements, food inventories, payrolls, develops specifications, arranges for efficient distribution of food and supplies to the school lunch units, and supervises proper storage within those units.

We now have a uniform classification of income and expenses which makes it easily possible to compare different school lunch operations. This is a helpful check on management efficiency and financial control.

REVISION OF REPORT CARDS

It was felt among the faculty and Superintendent that an improvement over the report card which was in use during the preceding years, would be the best way to help the parents to understand how their child was progressing in the different school subjects.

Each school in the system was represented by a principal and two teachers to determine what should be done to revise the report card. After a series of meetings with a good deal of interaction, a final decision was made as to just what phases of school life would be cov-

ered in the report card. There are differences, however, between the primary cards and those of Intermediate grades and the Junior High grades, due of course, to subject matter.

When the preliminary drafts had been modified by the committee as a whole, it was submitted to the faculties of the several buildings for reaction. It was then presented to the Superintendent for his approval, and then forwarded to the School Board for final approval.

IMPROVED EYE TESTING PROGRAM

More impressions reach the brain for interpretation through the sense of sight than through all the other senses combined. Therefore, any deviation from normal vision has an important effect on the individual.

It is the intention of the School Committee to obtain the services of an optometrist who will work with the school nurse when eye examinations are made.

At present, all eye examinations are conducted by the nurse, using the Snellen chart which does not determine any precise definition of the degree of disability.

It is planned to screen all the pupils in the entire school system and check for pathology. The ophthalmoscope will be used for the first time in conducting examinations and hereafter on all children entering the school system for the first time.

If, after the test, there is doubt, in regard to any defect or disability requiring treatment, the school nurse will send a notification to the parents, advising the parent that their child needs further tests to be done by the doctor of their choice.

SCHOOL PROPERTY

Numerous repairs have been made on the interior and exterior of the school buildings. The exposed wood trim on the Jameson School was painted, and extensive boiler repairs were made to the boiler. At the High School, due to a cracked steam pipe, it was necessary to replace a large portion of a classroom ceiling and a section of the ceiling and wall in the corridor.

At the Elementary School a large portion of the roof had to be repaired to prevent water damage to classroom ceiling and walls. All schools were thoroughly

cleaned and the floors sealed and waxed. The regular schedule of repairs by the janitors was carried out in the usual manner. However, I should like to call attention to the work done by Mr. Benjamin Downs who voluntarily directed the work of the renovation and enlargement of the cafeteria at the Elementary School. It is now possible for all pupils to have lunch at one sitting. In addition, Mr. Downs refinished all pupil desk tops in the four rooms of the Old Elementary School. In my opinion, this certainly was a service to the town beyond the call of duty.

GUIDANCE SERVICES AT THE HIGH SCHOOL

A full-time guidance program has been established at the Old Orchard Beach High School this year. Mr. Frank Duley was hired for this position.

The primary function of the guidance program is to assist the student in making realistic educational and vocational plans.

The program consists of several services for the student. The most important of these services is counseling. This service is concerned in having the student gain a keener insight into the many aspects of his personality. A deeper understanding of one's abilities, weaknesses, interests, values, and goals will be of definite value in making plans for the future.

Important information concerning data on college requirements, loans, scholarships, job opportunities, job preparation, and related areas are at the students' disposal. The placement service attempts to aid the student in his choice within the world of work.

Guidance services have proved to be an invaluable aid to students throughout the country. It is with this thought in mind that a guidance department has been established at Old Orchard Beach High School.

STAFF CHANGES

Several additional members have been added to the Old Orchard Beach faculty for the year 1961-62.

CONCLUSION

We cannot play the symphony alone. It will take each of us to play our part. So, as we, the parents and citizens of this community, contemplate the future of our schools, as we seek to educate all the children of all the people, as we try to help them become something better than they are, as we try to bring the good life into reality for our young people, it will happen because of our continued united efforts and our realization that we are partners in this great adventure of educating our children.

I sincerely thank the School Committee, faculty and citizens of this Town for their unfailing support and help.

Frank D. Lawler

ENTERING AGE OF PUPILS

Six years of age on or before October 15th of the school year shall be admitted to grade one.

Five years of age on or before October 15th of the school year shall be admitted to Junior Primary.

SCHOOL STORM SIGNALS

The no-school signal will be sounded by the fire alarm signal at 7:30 o'clock A.M.

It is advisable to listen to radio stations WIDE, Biddeford, WCSH and WGAN, Portland, as announcements will be made.

Weather reports are not always reliable and since the School Department desires to tender maximum educational service by having school in session the greatest number of days, storm signals will not be used when there is reasonable doubt.

Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

MEETINGS

The School Committee holds its regular monthly meeting at the Jameson School on the third Wednesday of the month at 7:30 P.M.

Report of School Physician

Dr. Frank Lawler
Supt. of Schools
Saco, Maine.

Dear Dr. Lawler;

Our physical examination program started in August when football candidates reported to the coaching staff for practice. Before rigorous training was started these boys were carefully checked. Both medical and athletic authorities believe this examination can prevent many unnecessary fatalities every season.

I attended all games played at home and was available for both the home and visiting teams when needed.

During the course of the examination in the school system, five hundred and seventy-two pupils were examined. I think we were fortunate in finding a generally high level of health in our students. The following conditions were noted: Cardiac 10, Nasal and Throat 7, Dermatological 14, Glands 3, and Allergies 4.

Much can be learned about the general health of the child from the inspection of the bucal cavity, conjunctiva of the eyes, auditory canal and membranes. These were given special attention.

Although blood pressure is relatively only a symptom, pressures of all high school students were taken and recorded for future references.

It is hoped that in the future these examinations will be wider in scope, so that a more perfect evaluation of the students' development and health can be charted from the time he enters school until graduation.

May I thank the teachers again for their patience and cooperation and Mrs. Agnes Murphy, our School Nurse, for her continued effort and assistance.

Sincerely,

Donald S. Skilling, D.O.
School Physician

School Nursing Report

1961

Our calendar or chronological year naturally breaks into the middle of the school year. We are thru the opening or Fall Term when we do our foundation physical exam work, plus the checking of sight and hearing conditions. The weighing and measuring and comparison of previous figures to check the growth thru a gain of pounds and inches or a finding of a lack of growth and possibly a need of extra nutrition. Our Hot Lunch Program makes a vital contribution to the health needs of our school children. One child gained seventeen pounds and grew two inches after being on the lunch program last year. This was solid nutritional gain after a medical problem was cleared up.

Many needs came to light during the Fall and early Winter terms. Emotional or mental health disturbances can be as severe as hunger, cold or a lack of hygiene or decent housing. All of these things have been problems some of our children have had to face during 1961. Our Health Officer and Police Dept. have helped us with social welfare or public health needs. These matters have and do occur here in Old Orchard Beach and have caused suffering to children principally because of adults who lack ability to care for their responsibilities.

Our Service Clubs and many responsible groups and individuals have done much for our children. The Kiwanis, Lions, our Fire Dept., our churches, and the State Clinics and State Depts. of Health and Education have carried a part of the school health program by providing such wide apart areas for healthful living from holiday parties, health protection of medical needs, taxi service for handicapped children and our own local police officers who have always responded promptly to our call to take a sick child home safely.

Our Town immunization clinics held the first Tuesday of each month have given excellent service to our children. Our local doctors and the School Doctor have cooperated when any call was made on them. Without these friends and neighbors the School Nurse would have had many moments of feeling like the Old Woman

Who Lived in a Shoe! Instead with mutual cooperation of many groups and persons a good busy year of school health care was carried thru 1961.

After many problems and needs were met we reached Spring Term and in May the Junior Primary Teachers and School Nurse registered over eighty of the present Jr. Primary group. The History Sheet started at this time gives the basic information for the individual health record which is carried on by the School Nurse for each child. Our current school enrollment has been over 1100 students so record work for this number totaled a goodly number of hours. All clinic services and individual health problems are recorded. In two instances in recent years the School Health Record (covering a period of several years) was the necessary item for proper Social Security allowance being given.

During the past year the foundation of a separate Guidance Department in our school system was established. The children's school health records are important in a guidance program as a child's health can make or break his school performance. The School Nurse covered a class each week for the guidance teacher at Federal School when he made his weekly visit to the high school for group conference work. Cooperation between departments and persons has been vital in our schools and with the schools and the parents.

The Dental Hygienist gave us some time during the winter term to do fluorine treatments on the primary age group who would be getting their second teeth. During the rest of the year children who needed school dental clinic care were given appointments by the School Nurse with the cooperation of our local dentist, Dr. Mazzacane.

We were not able to give any Speech Therapy care during 1961 as the therapist was not available to us in Old Orchard Beach.

Our School Eye Clinic service was continued during 1961 and several children with a variety of eye conditions were cared for that otherwise would have lacked this help. Local Service Clubs and the eye doctors in the Biddeford and Saco area and the Eye Clinic at the Maine Medical Center all helped with this program.

Parent day conferences: This program has been in use the past two years and has been of excellent value.

The parents have the privacy of a particular appointment and any problem concerning their children can be discussed. The School Nurse has found parent conferences very valuable over the years for both public health and personal family needs. The comfort of talking things over can often be the first step in straightening out a problem whether it's hot lunch to aid a nutritional lack, or a failure picture in the classroom that an appointment with the staff at Sweetser Home may help to clear.

During 1961 the School Nurse attended public health meetings about once each month. One meeting held at Hyde Home in Bath, Maine, was helpful thru the personal contact in getting one of our school children to the camp run by the home where he had not only a fine experience but regular therapy given by trained personnel for a badly injured arm. Another meeting which featured a speaker from our State of Maine Health Dept. concerned fluoridation. This was important as we give this treatment to our children as a part of our School Dental Clinic care, and we need to know any new developments or changes in its use. Our own meeting here in Old Orchard Beach had as a speaker Miss Tyrell, a psychologist from the staff of the Boys' Training School in South Portland. We certainly need to know the program that is carried on at institutions that we call on at times for help on our local problems.

The School Nursing Program during 1961 ranged from the enjoyable day of registering a new group of five year old children, happy, healthy and lively, to a far from enjoyable experience of being a witness in court which a neglect of children case made necessary.

PUBLIC HEALTH MEETINGS ATTENDED - 1961

Old Orchard Beach—Mrs. Tyrell from State School for Boys

Old Orchard Beach—T.B. Conference with State of Maine Supervisor

Biddeford—St. Andre's Home program detailed by Sister Superior

Acton—Health Council - Teenagers' needs conference

Biddeford—Dr. Broggi, psychiatrist - Mental Health program

Bath—Hyde Home and Hospital Rehabilitation Center

Portland—P. H. Nurses - Education for Retarded Children

Pownal—Pineland Hospital Psychiatric Conference

From Sept. 1961 to Xmas week of Dec. 1961 the School Nurse attended classes on Guidance of Mentally Retarded Children held at Pride's School in South Portland each week. These classes were conducted by a Professor from Farmington State Teachers College and sponsored by the University of Maine.

We have school children who have a special difficulty and keeping up with trends in education and with what other groups of people are doing for these exceptional children is important.

During the Teachers Convention session in October, the School Nurse attended a day's conference at Waterville sponsored by Maine's Council for Exceptional Children and November another of the same type of conference sponsored by the Confraternity of Christian Doctrine in Portland. In December another conference held by the public health nurses of York and Cumberland counties. A variety of persons all working towards a common goal — the education and advancement of our exceptional children. It has been proven that training and educating these children is a lot less expensive in the long run than neglecting them or letting them drift thru years of education not suitable to their needs.

Communicable disease reported to school:

Parents visited nurse weekly	2—4
Telephone conferences daily	2—3

Yours respectfully,

Agnes V. Murphy, R.N.
Public Health Nurse

(A Personal Note. My college training in public health nursing didn't cover the answers to many of the problems and surprises found in School Nursing but over eighteen years on the job has been an education in it-

self, and I have learned that there is a surprising goodness in humanity at times and an equally surprising lack at other times so one just continues to do one's best and trust that Providence keeps the balance even.)

With thanks to all who helped our school program during 1961.

Yours respectfully,

Agnes V. Murphy, R.N.

Report of Police Department

Mr. Percival Wardwell:

Herewith is submitted the report of arrest and other activities of the Police Department for the year 1961.

I wish to express my appreciation to you and to the Chairman, Mr. Mullen and the other members of the Board of Selectmen, for the cooperation and understanding which was given to me during the year.

I feel that great progress was made toward giving the people of Old Orchard Beach the protection and stricter Law Enforcement which they expect and deserve. In the coming year the Police Department will apply its effort to keep Old Orchard Beach safe and secure for all.

Respectfully,

John H. Clark
Chief of Police

John E. Marshall, Capt.
Philip J. Levecque, Sgt.

Report of Civil Defense Director

Civil Defense is nothing more than the Town's Reserve Government comprised of volunteers who are prepared to give their time and energy to assist their fellow townsmen in the event of any type of emergency.

In short we (all the townspeople) must be able to do for ourselves, by ourselves, what neither the Town, County, State or Federal governments will or can do for us. We must be prepared to look after ourselves.

Civil Defense is nothing more than a modern day concept of the old New England Committees of Safety, and the trained bands of Militia of 1775 wherein all the townspeople were responsible to and for each other. This has been my aim during the short 9 months in office. I have tried to make the town's Civil Defense organization likened to the town's conscience, to remind you of possible dangers, with the old axiom always being borne in mind — Always alert, never hurt.

We have 15 Public Safety Officers who have purchased their own uniforms and who have received instruction in the use of the Fire Department resuscitator, hoses, nozzles, ladders and Indian pump tanks. They also received training in the Maine State laws, arrest procedures, self-defense jiu-jitsu, and mouth to nose artificial respiration.

These same 15 men alleviated the regular police force by patrolling the beach and controlling the crowd on the beach during the night of July 3rd during the fireworks display, and have augmented the volunteer firemen and the regulars at both dwelling and forest fires, at no cost to the town.

ACTIVITIES LOG

1. Patrolled and warned residents of Hurricane Esther during September.
2. Mass feeding unit prepared and set up hot food for hurricane evacuees in 10 minutes.
3. Erected a Civil Defense Control Center in the town hall in one day.

4. Removed CD telephone costing \$120 per year and had Police Dept. extension installed.
5. Purchased a 1953 Dodge panel truck as a mobile control center.
6. Recalled, restocked, reissued medical chests.
7. Issued public warnings of dangers to children and town mosquito control truck.
8. Had CD 1 ton emergency generator repaired and welded to trailer frame.
9. Officially protested to Water Improvement Commission dumping of sewerage in Scarboro River, as a detriment to Old Orchard's beach.
10. Contacted Hon. Peter Garland MC for possible surplus Naval dirigible hanger for use as a Civic Community Auditorium.
11. Located and determined, designated School Street extension as town's official evacuation route.
12. Established flag signal system for lifeguard stations.
13. Acquired FBI flyers for distribution to school children, pertaining to child molesters.
14. Patrolled streets and cross walks during Halloween, enforced 9 o'clock curfew.
15. Located emergency wells and springs.
16. Recalled all Civil Defense equipment from various agencies of town.
17. Listed all station wagons in town for possible use as emergency ambulances.
18. Reestablished CD Medical unit with Dr. Thomas Anton as head.
19. Loaned CD Control truck to Lifeguard Service for June, July and August.
20. Held weekly training sessions every Wednesday for CD Public Safety Officers.
21. Accepted donation of Clam Chowder for emergency feeding from F. H. Snow Co.
22. Accepted metal splints from Dr. Walter Mazzacane.

Respectfully submitted,

Ernest Brousseau

Report of the Lifeguard

The summer of 1961 will be a memorable one for those citizens who are sincerely interested in the progress and safety of their town.

Safety became a key word in the launching of a test program which strove for maximum protection and aid for those people who enjoy their summers on the finest beach in the world. It is hoped that some day Old Orchard Beach will be considered one of the safest beaches in the world. To attain this new found feeling for safety in the test program, lifeguards were drilled daily in the following areas:

1. Personal Safety
 2. Red Cross Life Saving
 - *3. Personal Conditioning
 4. Red Cross First Aid
 - *5. Use of Surf Rescue Equipment
 6. Prevention as opposed to Rescue
- (* points emphasized)

Before the summer activities began, all prospective lifeguards were given a written and a practical examination by the captain, followed by a physical examination given by a local doctor.

All qualifying lifeguards responded satisfactorily to the new test program. But it should be remembered that progress was slowed due to the lack of sufficient previous training of applicants.

The complete test program will not be mentioned in detail at this time because it was used basically for experimental purposes. The test program, which took a great deal of time, planning and effort by the captain and other town officials has resulted in the formation of a core program to be used in 1962 and succeeding years. This new program will be presented to the selectmen, town officials, and budget committee before the summer of 1962.

STATISTICS

Drownings	0
Swimming Rescue (two people)	1
Boat Rescues (two people)	1
Assists	3
Heat Stroke	1
Heat Exhaustion	2
First Aid Administered for Minor Wounds (bandages, etc.)	app. 205
Lost Children	37

NEW EQUIPMENT

Donated

Line	—
Reg. Signs	7
Lanyards and Whistles	(each) 7
Police Badges	3
Oar Locks	(sets) 2
Uniforms (each guard)	10

Some of the causes for large equipment purchases each year have been as follows: 1.) lack of interest to maintain equipment during season; 2.) lack of proper storage and reconditioning of equipment at the end of each season; 3.) equipment loss due to salt water damage. More than adequate progress has been made on the first two causes, but failure seems inevitable when dealing with the third cause.

TOTAL EXPENDITURES

White Pine Blister Rust Control

Mr. P. H. Wardwell
Town Manager
Central Avenue
Old Orchard Beach, Maine

Dear Mr. Wardwell:

This is a brief report of the work accomplished on white pine blister rust control in Old Orchard Beach during 1961.

We carefully examined 2736 acres which encompassed all the important white pine stands of the Town. On this acreage we found and destroyed 4134 wild currant and gooseberry bushes which are the host plants of the disease. The costs of the work were met with three types of funds. The Town of Old Orchard Beach paid out \$330.50 in wages and travel on a match basis, and received back from the State \$115.25 or half this. The Town then paid \$178.50 in straight Town funds for wages and travel. This made a net Town expenditure of \$293.75. The State also paid \$176.96 in State wages, which made a total cost to the State of \$292.21.

Since we were able to cover the whole town there will be no work of this nature scheduled until 1971, when the Town should be checked over again. You have white pine blister rust well under control at the present and we feel that systematic examinations once in ten years will keep it that way.

Our sincere thanks for your cooperation in this work.

Very truly yours,
Joseph B. Pike, Jr.
Forester

Auditor's Report

JOHN L. ALHEIM

CERTIFIED PUBLIC ACCOUNTANT

MEMBER AMERICAN INSTITUTE OF ACCOUNTANTS
FELLOW DISTRICT OF COLUMBIA INSTITUTE OF
CERTIFIED PUBLIC ACCOUNTANTS

Board of Selectmen,
Town of Old Orchard Beach,
Old Orchard Beach, Me.

Gentlemen:

In accordance with the provisions of Chapter 405, Section 26, of the Public Laws of 1957, and at your request, we have made an examination of the books and records of the Town of Old Orchard Beach for the municipal year ended December 31, 1961.

Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. Insofar as could be ascertained within the scope of the examination, the financial transactions of the Town appear to have been properly handled, and with such exceptions as may appear in the accompanying comments.

In our opinion, the accompanying exhibits and schedules, fairly present the results of the financial operations of the Town, for the period designated, in conformity with generally accepted municipal accounting principles applied on a basis consistent with that of the preceding year.

Very truly yours,

John L. Alheim

Certified Public Accountant

COMMENTS

CASH ON HAND AND IN BANKS \$ (196.87)

Cash on hand was counted and cash in banks were reconciled to confirmations received from the Canal National Bank for each of the accounts maintained at that institution. The substantial overdraft in the general funds account at year's end was brought about in the main by failure to properly identify deposits so that \$4,757.89 of payroll funds were being carried in general funds until discovered by the bank after the close of the year.

The deficiency in general funds reaches major aspects when it is taken into consideration that there were \$25,414.91 of unexpended departmental accounts carried forward to the new year for which there are no funds available. Added to which, a tax anticipation note of \$50,000 remained unpaid on December 31, 1961, which incidently was the same amount that was carried over in the preceding year.

ACCOUNTS RECEIVABLE \$ 1,350.78

Amounts due from the State and other communities for welfare, make up the above amount the detail of which appears in Schedule 1. Because of the circumstances surrounding the preparation of this list, no attempt was made this year to independently confirm the unpaid balances.

TAXES RECEIVABLE \$116,222.74

Taxes committed to the tax collector for the municipal year were checked and found to be properly accounted for either in cash, discounts, abatements, or remaining outstanding on the collector's records, after several adjustments.

Mail requests for confirmation were made of 40.86% of uncollected taxes for the year 1961, computed on a dollar basis.

A list of unpaid taxes for the year 1961 will appear elsewhere in the town report. For the year 1953 to 1961 a summary of unpaid taxes is presented in Schedule 2 of this report. This subject is further covered under the heading of Recommendations.

TAX LIENS

\$ 37,907.09

The details by years for tax liens outstanding, is likewise presented in Schedule 2 of this report. Only one lien in the amount of \$206.49 was written off within the year and this was brought about by a delay in presenting proper evidence of exemption in time to the Board of Assessors.

Mail requests for confirmation were made of 64.6% of liens outstanding for all years, as computed on a dollar basis.

CAPITAL RESERVE FUND

\$ 1,341.37

In support of this account, we examined pass book No. 1832 of the Saco & Biddeford Savings Institution to substantiate the fund set aside to provide for fire department equipment.

Detail of the year's transactions appears in Schedule 5.

LIABILITIES

\$ 68,044.00

Current obligations owed by the Town reveal a substantial improvement over last year, by \$35,622.51. The carry-over of county tax was eliminated, accounts payable was reduced by \$28,627.90, while tax anticipation notes remained the same.

DEBT FUND

\$551,765.00

The debt fund, incorporated as a separate fund in the balance sheet, reflect no new obligations incurred during the year under review. On the other hand, the town debt was reduced in the amount of \$56,260.00.

We independently confirmed part of these obligations by correspondence with the holders.

APPROPRIATED SURPLUS

\$ 25,414.91

This sum represents the excess of unexpended balances over overdrafts of departmental accounts carried forward to the ensuing year. The individual items comprising this total appears in Exhibit D - Statement of Departmental Operations.

SURPLUS

\$ 56,303.57

The surplus account reveals little change from the preceding period. The detail of the increases and decreases appear in Exhibit E.

As voted by the townspeople in a prior year, an amount of \$50,480.10 has been hypothecated to provide for tax losses. The free portion of unappropriated surplus, is therefore \$5,823.47.

SEWER CONSTRUCTION

A separate financial statement of cash receipts and disbursements pertaining to the Sewer Construction Project is presented in Exhibit F of this report, revealing the source of funds received during the year 1961, and the nature of payments made therefrom. The balances on hand at the end of the year were independently firmed with the Canal National Bank.

In addition to the balances on hand, there is due a final installment of the Federal Government contribution, amounting to \$8,041.76. While this amount was certified on August 17, 1961, settlement is pending final audit by the government accountants.

EDITH BELLE LIBBY MEMORIAL LIBRARY

Last year, because of the absence of the Librarian, while the annual audit was being made, no examination was made of the Town's Library. This year that omission was remedied. We therefore present in Exhibit G, a statement of operation for the years ended December, 31, 1960 and 1961. There is also set forth in Exhibit H, a list of investments owned by the library and examined during the course of our audit.

RECOMMENDATIONS

In accordance with Chapter 405, of the Public Laws of 1957, we offer the following recommendations for the improvement of the financial administration of the Town:

- (1) Control of unpaid taxes and liens for all years, as well as amounts due from the State and other municipalities is a constant and current matter, and not a matter for once a year reconciliation with its attendant confusion and de-

tailed checking. Until this situation is remedied, you will have abnormal audit costs and delays in closing the books;

- (2) We renew our recommendation of last year that collection efforts be intensified to clear up past taxes and liens in order to utilize such revenue needed to discharge the Town's obligations which are likewise past due;
- (3) The number and particularly the size of some of the overdrafts of departmental accounts indicates a closer adherence to firm fiscal policy;
- (4) Checks unpaid after one year should be written off the books and added back to the cash balance;
- (5) Amounts due from other towns for pauper assistance should be followed up for payment, such as the 1959 accounts from Biddeford and Columbia Falls.

SELECTMAN

WARRANT

FOR ANNUAL TOWN MEETING

To: John H. Clark a constable of the Town of Old Orchard Beach, in the County of York and State of Maine.

GREETINGS:

In the name of the State of Maine, you are hereby required to notify and warn the voters of the Town of Old Orchard Beach in said County, qualified by law to vote in town affairs, to meet at the High School in said town, on Monday the fifth day of March, A.D. 1962, at 7:30 o'clock in the afternoon, then and there to act on Articles numbered 1 through 84, all of said Articles being set out below, to wit:

Article 1. To choose a Moderator to preside at said meeting.

Article 2. To hear and act on the report of the Selectmen and other town officials.

Article 3. To see if the Town will vote to raise and appropriate a sum of money to be used for decorating graves on Memorial Day, under the direction of the American Legion.

Article 4. To see what sum of money the Town will vote to raise and appropriate for defraying the expenses of the Memorial Day Parade and Exercises, under the direction of the Memorial Committee.

Article 5. To see what sum of money the Town will vote to raise and appropriate to defray the expense of Town Administration for the year 1962.

Article 6. To see what sum of money the Town will vote to raise and appropriate for heating, lighting and general maintenance of the Town Hall.

Article 7. To see what sum of money the Town will vote to raise and appropriate for Contingent Expense.

Article 8. To see if the Town will vote to raise and appropriate the sum of \$281,650.19 for schools.

Article 9. To see what sum of money the Town will vote to raise and appropriate to maintain the Police Department for the year 1962.

Article 10. To see what sum of money the Town will vote to raise and appropriate for parking meter enforcement, parking meter maintenance, painting curbs and the purchase and installation of traffic signs.

Article 11. To see what sum of money the Town will vote to raise and appropriate to maintain the Fire Department for the year 1962.

Article 12. To see what sum of money the Town will vote to raise and appropriate for the Public Works Department, including highways and bridges, snow removal, surfacing, sewers and drains, maintenance of sewer disposal plant, sanitation, maintenance of town dump, maintenance of town team and maintenance of sidewalks.

Article 13. To see what sum of money the Town will vote to raise and appropriate to clean the streets.

Article 14. To see what sum of money the Town will vote to raise and appropriate to clean the beach.

Article 15. To see what sum of money the Town will vote to raise and appropriate for Civil Defense and Public Safety.

Article 16. To see if the Town will vote to raise and appropriate a sum of money to employ an assistant Fire Inspector for the ensuing year, namely Theodore Mingo, Sr.

Article 17. To see if the Town will vote to authorize the Council and Town Treasurer to deposit an amount equal to the unexpended balance in the Fire Department Account at the close of the 1962 fiscal year, in the Town of Old Orchard Beach Capital Reserve Fund, known as the Fire Department Major Equipment Account.

Article 18. To see what sum of money the Town will vote to raise and appropriate for Life Guard Service for the year 1962.

Article 19. To see what sum of money the Town will vote to raise and appropriate for the salary and travel expense of the Health Officer.

Article 20. To see what sum of money the Town will vote to raise and appropriate for Health Nursing Service and Immunization.

Article 21. To see what sum of money the Town will vote to raise and appropriate for Public Assistance.

Article 22. To see what sum of money the Town will vote to raise and appropriate for aid to Dependent Children.

Article 23. To see what sum of money the Town will vote to raise and appropriate for the purpose of paying valid outstanding indebtedness of the Town.

Article 24. To see what sum of money the Town will vote to raise and appropriate to pay interest on notes and bonds for the year 1962.

Article 25. To see what sum of money the Town will vote to raise and appropriate for Street Lights.

Article 26. To see what sum of money the Town will vote to raise and appropriate for the following new Street Lights at the following locations:

On Pole No. J17 Winona Ave. between Seventh and Ninth St.	1-1,000 lumen light

Article 27. To see what sum of money the Town will vote to raise and appropriate for hydrant rental for the year 1962.

Article 28. To see what sum of money the Town will vote to raise and appropriate for Workmen's Compensation and unallocated insurance.

Article 29. To see what sum of money the Town will vote to raise and appropriate for the Town's share of Social Security payments for the year 1962.

Article 30. To see what sum of money the Town will vote to raise and appropriate to assist the Library Association.

Article 31. To see if the Town will vote to authorize the Councilmen to grant a 1% discount on 1962 taxes paid within one month of the date of issuance of the tax bill.

Article 32. To see what sum, if any, the Town will vote to raise and appropriate to carry out the purpose of Article 31.

Article 33. To see if the town will vote to raise and appropriate the sum of \$6441.67 for teachers' salaries in accordance with the teachers' salary schedule established last year within the Old Orchard Beach School system.

Article 34. To see what sum of money the Town will vote to raise and appropriate for advertising purposes for the year 1962.

Article 35. To see what sum of money the Town will vote to raise and appropriate for Mosquito and Moth Control.

Article 36. To see what sum of money the Town will vote to raise and appropriate for Membership in the Maine Municipal Association.

Article 37. To see if the Town will vote to raise and appropriate a sum of money for the purchase of a second hand motor grader.

Article 38. To see if the Town will direct the Town Council and Town Manager to extend the T for Turn Road from its present junction with the Smithwheel Road in a Northwesterly direction to its intersection with the Ross Road, said street to be laid out as a street seventy feet wide.

Article 39. To see if the Town will accept Prospect Park being that portion of land between Prospect Avenue and Washington Avenue, formerly called Fourth St. on the plan of the Old Orchard Beach Camp Meeting Association, said plan being on file at the Registry of Deeds in Alfred, Maine.

Article 40. To see if the Town will vote to authorize the Councilmen and Treasurer to execute a Quit-Claim deed to a small unused triangular parcel of land to the Roman Catholic Bishop of Portland, said parcel of land being now abandoned by the Town and adjacent to said Bishop's land as shown on Plan made by Libby & Dow, Engrs., February 15, 1962 to be recorded, and being outside of the requirements of the State Highway Commission in protecting Saco Avenue known as State Highway No. 5.

Article 41. To see if the Town will vote to change the name of Queen Ave. to Girard Ave.

Article 42. To see if the Town will vote to transfer from Sewer Account No. 1 the sum of \$8,851.57 and to raise and appropriate the sum of \$2,448.43 both for

State Aid Construction (in addition to the amount regularly raised for the care of highways and bridges) under the provisions of Sections 44-49 and 50 of Chapter 23, Revised Statutes of 1954, as amended.

Article 43. To see if the Town will raise and appropriate the sum of \$325.00 Dollars to be paid to the York County Treasurer for the purpose of a countywide Planning Study, under the 1961 Area Redevelopment Act, to increase employment and income levels.

Article 44. To see if the Town will vote to raise and appropriate the sum of \$500. as the Town's share of the cost of cleaning Temple Avenue and the Ocean Park Beach.

Article 45. To see if the Town will vote to accept as public ways the following streets and extensions:

School St. Extension a distance of 450 feet.

Foote St. Extension to Francis St.

Smith Ave.

Bluff Ave., from Union Ave. to Ocean Ave., a distance of 120 feet.

Article 46. To see what sum of money the Town will vote to grade and gravel the following streets and extensions:

Harmon Avenue.

Smith Avenue.

Ninth Street between Winona Ave. and Casco Ave.

Seventh St. between Winona Ave. and Colby Ave.

Old Salt Rd. from West Grand Ave. Westerly 200 ft.

Complete grading and graveling Summit St. Extension 500 ft. as voted under Art. 46 of the Annual Town Meeting of 1961.

Cookman Ave. Extension Approx. 280 ft.

Article 47. To see if the Town will vote to install an apron on Portland Ave. at the entrance to Smith Ave. and what sum it will raise and appropriate therefor.

Article 48. To see if the Town will vote to surface Smith Ave. and what sum it will raise and appropriate therefor.

Article 49. To see what sum of money the Town will vote to raise and appropriate to construct storm drains on the following streets:

Install a catch basin and necessary drain on Saco Ave. at the Halfway Garage.

Construct a catch basin and install a drain in Old Orchard St. in front of the Margarone property at Number 22 at a cost of \$250.00.

Upper corner of Woodland and Central Ave., down Central Ave. to a suitable point below Cookman Ave. for the discharge of storm water carried by said drain, (Storm Drain) approximately 175 feet.

Storm sewer from the southwesterly corner of the property at No. 10 Cookman Ave. thru Cookman Ave. to the existing catch basin at the corner of Cookman Ave. and Central Ave. a distance of 160 feet; also from a point near the southeasterly corner of the property at No. 42 Cookman Ave. in Cookman Ave. a distance of 120 feet, more or less, to a catch basin from which the outfall of said storm sewer runs: and to reconstruct the above mentioned catch basins if necessary and to replace the pipe connecting these catch basins, and also the outfall with pipes of proper sizes to handle the flow from the existing system and any additions to the system which may be made in the immediate future. Said work to be completed in the fiscal year 1962.

200 feet of drain pipe on the Southeasterly side of Milliken St. from land of Cornell, Northeasterly.

Article 50. To see what sum of money the town will vote to raise and appropriate for the following sewer line installations:

Extension of present sewer on School St. 130 ft. northwesterly.

Extension of present sewer on Summit St. from 40 Summit St. to 54 Summit St. approx. 150 ft.

Norway Ave. 130 ft. more or less from junction of Norway and Grove Avenues including construction of necessary manhole or manholes.

Construct sewers in the streets leading into West Grand Ave. and to connect the houses on said streets and West Grand Ave. to the sewer.

Article 51. To see what sum of money the Town will vote to install the following hydrants:

Smith Ave. 240 ft. southerly from Portland Ave.

Smithwheel Rd.

Corner of Fern Park Ave. and Rosedale Ave. \$248.00.

Corner of Fourth St. and Winona Ave.

Article 52. To see if the Town will reimburse the abutting owners on Odessa Ave. for monies expended by them in laying a sewer and to raise and appropriate the sum of \$950.00 therefor.

Article 53. To see if the Town will vote to raise and appropriate \$500.00 for planting flowers and trees in various sections of the Town. Said sum to be expended with the approval of the Park Commissioners.

Article 54. To see if the Town will vote to appropriate a sum equal to the balance remaining in the Memorial Park Account as of Dec. 31, 1961, from Surplus to the Memorial Park Account for the sole purpose of defraying the cost of turning the Town Barn area into a park.

Article 55. To see if the Town will vote to authorize the Park Commission to operate the Public Parking Area for hire during the season of 1962 and to pay over to the Town Treasurer daily all receipts. Disbursements to be made by the Treasurer upon approved vouchers signed by a majority of the Park Commission and approved by the Councilmen as prescribed in the Revised Statutes of 1954.

Article 56. To see if the Town will vote to transfer from Surplus to the Memorial Park Account the sum of \$3,317.87 which is equal to the balance in the said account at the close of the fiscal year 1961, and which because of the provisions on the new charter had to be closed out into Surplus.

Article 57. To see if the Town will raise and appropriate the sum of \$1,000.00 for cutting and trimming Town trees.

Article 58. To see what sum, if any, the Town of Old Orchard Beach will vote to raise and appropriate to clean, repair or replace the existing storm drain from the outlet to high water mark, opposite Fernald St.

Article 59. To see if the Town will vote to hire a Town Solicitor and what sum the Town will vote to raise and appropriate therefor.

Article 60. To see if the Town will vote to authorize the Councilmen to employ an Auditor for the year 1962 and that a mid-year inspection of the Town's financial affairs be made by an auditor.

Article 61. To see if the Town will fix a date when taxes shall be due and payable, and to fix the date and rate that interest be charged on taxes.

Article 62. To see if the Town will vote to authorize the Council and Treasurer to issue Special Revenue Notes for the year 1962 to procure a temporary loan or loans in anticipation of taxes for the purpose of paying obligations of the Town, such loan or loans to be paid during said taxable year.

Article 63. To see if the Town will vote to authorize the Council and Treasurer to sell and dispose of property acquired by tax process, on such terms as they deem advisable and for the best interest of the Town, and to execute quit-claim deeds for same, or any action relative thereto.

Article 64. To see what sum of money the Town will vote to raise and appropriate to construct the following sidewalks:

Westerly side of Milliken St. from Imperial St. to Bradbury St. approx. 500 ft.

Replace Sidewalk on Southwesterly side of Pearl Ave.

Reconstruct sidewalk on Northerly side of Colby Ave. from corner of Seaside Ave., Easterly a distance of 200 feet.

Continue construction of sidewalk on Summit St. 500 feet.

Article 65. To see if the town will vote to raise and appropriate the sum of \$750.00 which is the Town's share of the \$3,000.00 cost of the 2nd phase of the Comprehensive Planning Project.

Article 66. To see if the Town will vote to accept the provisions of Chap. 134 Sec. 38-A of the Revised Statutes of the State of Maine as passed by the ninety-ninth Legislature. (Re:- Local Option on Sunday Closing of Business Places etc.)

Article 67. To see if the Town will raise and appropriate a sum not to exceed \$1,000.00 for the town council to use for the American Legion Convention, and to be taken from the advertising appropriation.

Article 68. To see if the Town will vote to set aside from the advertising appropriation the sum of \$1,000.00 for Band Concerts through the months of July and August, with the understanding that there shall be eight concerts, two of which will be free of charge by courtesy of the American Federation of Musicians' Trust Fund.

Article 69. To see if the Town will vote to raise and appropriate the sum of \$2,500.00 to purchase a fully equipped Cadillac Ambulance, at a price of \$2,900.00. The balance to be taken from a fund of \$400.00 collected for the purpose of purchasing an ambulance, said fund being now in the Biddeford & Saco Savings Bank.

Article 70. To see if the Town will vote to raise and appropriate the sum of \$78.18 to reimburse Oscar Markus of Pitts St., Portland, Maine, for a personal property tax illegally assessed and paid in error for the year 1960, as one of two stores had been abandoned.

Article 71. To see if the Town will vote to raise and appropriate the sum of \$109.15 to reimburse Mrs. Cora Keene, Old Orchard Beach, Me., for taxes assessed in error and illegally collected for the year 1959.

Article 72. To see what sum of money the Town will vote to raise and appropriate for Assessing.

Article 73. To see if the Town Meeting Membership will appoint a committee consisting of the Town Manager and four other members to study the advisability of relocating the Public Works building and make a report with their recommendations at the next town meeting.

Article 74. To see if the Town Meeting Membership will appoint two additional members to the Committee for a new Fire Station.

Article 75. To see if the Town will vote to raise and appropriate the sum of \$2,068.51 to pay an outstanding bill for the hospitalization of a welfare patient.

Article 76. To see if the Town will investigate the possibilities of extending Walnut St. to Route 98, or do anything in relation thereto.

Article 77. To see if the Town will vote to instruct the Council to appoint a License Inspector and fix his salary at \$300.00 for the year, said salary to be taken from license fees.

Article 78. To see whether or not the Town will vote to raise and appropriate the sum of Six Hundred Dollars (\$600.00) to be paid to the State of Maine Publicity Bureau to be expended and used for advertising the natural resources, advantages and attractions of the State of Maine in accordance with the provisions of Chapter 91, Sec. 108, of the Revised Statutes of 1954.

Article 79. To see if the Town will vote to raise and appropriate the sum of \$500.00 for necessary engineering in connection with the repair or replacement of the storm sewer outfall at the end of Fernald St. and also for engineering necessary to divert the brook which passes under the railroad, across Temple Ave. and under the covered bridge so that after it passes under the railroad it will be directed in as straight a course as is practical to Goose Fare Brook.

Article 80. To see what sum if any the Town will vote to raise and appropriate to correct the surface water problem at the S Turn on Smithwheel Road and to eliminate the S Turn.

Article 81. To see if the Town will vote to close out the "Elementary School Construction Account" to Surplus in the amount of \$27.99.

Article 82. To see if the Town will vote to appropriate from Surplus the sum of \$360.00 and to raise from taxation the sum of \$140.00, making a total of \$500.00 to construct a storm drain on Francis St. at the Northeastly corner, which work was voted under Art. 52 of the Annual Warant of 1960 and never carried out.

Article 83. To see if the Town will vote to appropriate from Surplus a sum of \$350.00 for the Randall Ave. Storm Drain, which work was voted and never carried out.

Article 84. To see if the Town will vote to appropriate from Surplus the sum of \$350.00 for grading New Salt Rd., which was voted and never carried out.

Given under our hands this 24th day of February, A.D. 1962.

MARRIAGES	85
BIRTHS	112

Esther S. Crowley, Town Clerk

Report of Health Officer

The following report is submitted by the Local Health Officer for the year ending December 31, 1962.

I called several State Agencies in for help on various situations in 1962 and spent several days with the State Veterinarian checking out all the riding stables in town as to the condition of their horses and stables etc.

I worked with the Town Manager to see that the Town dump was treated to exterminate the rats.

I worked very closely with the school nurse concerning Hygiene problems in the schools.

Made inspections as follows:

Restaurants	9
Hotels	11
Cabins	26
Tenting and Camping areas	3
Food Concessions	14

I had to close one restaurant permanently, and closed two on a temporary basis until cleaned up, made several trips to see that cleaning was properly done.

The following complaints were investigated:

Cesspools and Septic Tanks	5
Private dumps	2
Open garbage	3
Mixed waste	2
Sanitary condition of yards	1
Sewer difficulties	2
Unsanitary homes	2
Waste on beach	3
Dog Kennels	1

Reported following Diseases to State Health and Welfare:

Tuberculosis	1
Chickenpox	9
Mumps	2
Measles	35

Took 9 Overseas Certificates to Portland District Office to be stamped with State Seal.

Made many other trips to Portland for various other reasons concerning Health and Welfare.

One big problem which is becoming increasingly troublesome every year is the lack of proper sewer and drainage systems in the Halfway section of town.

Again I would like to thank all the persons whom I have called upon for help in the past year and for the splendid cooperation they have given me while I was discharging my duties as Local Health Officer of Old Orchard Beach.

Millard H. Palmer

Local Health Officer

Report of Superintendent of Schools

To the School Committee and
Citizens of Old Orchard Beach:

We believe in universal education, which means an equal opportunity for each boy and girl who enters the portals of our schools to develop harmoniously, to their fullest capacities, the physical, intellectual and moral faculties with which they have been endowed.

To this end and for this purpose, our whole program of education is directed. All our educational activities, academic or non-academic, are justified only on this basis.

The educational process is not stagnant; it is ever new and challenging. In our program of education, we must be concerned always with broader education in the humanities, social sciences, science and mathematics. We are interested in any experimentation that will help us meet the new educational requirements of our times. New approaches to learning must be explored and developed, if found to be sound. Old ways are not always the best ways. We must be alert to find better ways to organize; we must consider new concepts of the teachers role; we must use new technological devices which have proved to be effective in the learning process.

CURRICULUM

The number one problem of educational concern is the curriculum. The curriculum is commonly defined as all the experiences that a learner has while attending school. Two important questions:

1. Of what should the content of education consist?
2. What knowledge is of the most worth?

Since we can't teach everything, two problems emerge: a. what to select, b. the sequence of presentation.

Our schools must be built for the youth of tomorrow, as well as todays. Therefore, it is the responsibility of your Superintendent, as far as humanely possible, to penetrate the future and to extend vision so that we can see clearly the new horizons of learning, that loom in the distant future which make our schools better schools; our teachers, better teachers; our students, better students; our citizens, better citizens.

SPECIAL TEACHERS

Traditionally, the elementary school classroom teacher has been the sovereign of his realm, the sole leader of his charges, responsible only to the principal. This semi-autonomous position is rapidly disappearing from the educational scene. Instead of one professional for every group of 25 or 30 children, there are now many individuals directly involved in the process of designing and implementing the educational program. Within the past decade there has been a tremendous increase in the number and types of specialists functioning in the schools. The curriculum coordinator, elementary supervisor, school psychologist, guidance director, audio-visual director, reading supervisor, elementary French, art, physical education, music, and penmanship are only a sample. Recent educational innovations, such as team teaching have tended to multiply the number of professionals involved in the total learning environment.

The situation is not unique to education, it has occurred in business, industry, and the armed forces — in fact, wherever personnel with highly developed and specialized skills have been employed.

Your Superintendent and the Staff are interested in any experiment that will help our schools to meet the new educational requirements of our times. We in the State of Maine are going through a great transition. The concept of education is changing rapidly. It is the job of all concerned with the education of our youth to be alert to find better ways to organize. New concepts of the teachers role must be considered. Technological devices which have proved to be effective in the learning process must be explored. There is no super-highway to good schooling, and good teaching. However, there are great roads to success to be traveled; and most likely to succeed, are good planning, strong administrative leadership, better salaries, good teacher moral, and recognition of good teaching.

ACCOMPLISHMENTS

As your superintendent has said so many times in the past, I believe we have a corps of teachers, in the Old Orchard Beach Public Schools of whom we can be justly proud, and in whom we can have the utmost confidence.

There is every indication to conclude that in most instances, pupils are achieving very well in accordance with their ability in our school system, and when this is true, we can conclude that our standards are high and our educational policies and procedures are sound.

The faculty, jointly with the administration, is constantly concerned with the initiation of new procedures in the school system with the united and coordinated effort of their co-workers. Some of the accomplishments are listed below:

1. Extension of home instruction program with visiting teachers for home bound children.
2. Strengthening of guidance services for students.
3. Revision of Report Cards throughout all grades.
4. Development of group goals for grades.
5. Expansion of audio-visual department for entire system.
6. Adoption of policy considering field trips and excursions as part of the regular program.
7. Broadening of extra curricular work.
8. Curriculum study of entire school system.
9. Steady improvement in curricular work as measured by standardized tests—Old Orchard Beach well above national average.
10. Improvement of salary schedule for teachers.
11. Parent-teacher conferences in all schools.
12. Spring exhibit in all schools.

HUMAN RELATIONS

1. Monthly meetings with principals and teacher groups.
2. Publication of revised parents' handbook.
3. Publication of booklet on safety.
4. Participation in Adult evening schools.
5. Distribution of school calendar.
6. Revision of monthly financial statements.
7. Revision of School budget.
8. Cooperative development of the budget so that members of the staff, principals, and janitors cooperate with the Superintendent to explain their requests.
9. It is generally agreed that the school buildings are now kept in better condition:
 - Better housekeeping
 - Systematic painting programs
 - Systematic repair program
 - Better floor maintenance

TEACHER RECRUITING

It has always been my policy to provide the best teachers who can be secured for a specific grade or area of work. We are now experiencing a great shortage of teachers. When there is a serious shortage of teachers and therefore the danger of not having enough instructors when school opens, there is a tendency to employ teachers as quickly as possible, sometimes without considering their qualifications carefully enough. Hurried selection ultimately reflects on the professional level of the entire staff. This has not been so in our case.

The acute nation-wide teacher shortage in the schools constitutes one of the most critical situations ever encountered by the country. The enrollments in teacher—preparation institutions continue to lag. Even though there has been improvement in teachers' salaries and working conditions, the teacher shortage remains critical in the nations' schools. Because of the intense competition for well qualified teachers, all schools are experiencing a heavier than usual turnover of teachers.

OLD ORCHARD BEACH HIGH SCHOOL

As in every other community, the high school is faced with the problems inherent in an increased enrollment. For the past three years one additional faculty member has been hired, as the program has expanded. As growth assuredly will continue, an adequate planning and building program must be developed to anticipate future needs.

To implement such a program the superintendent and members of the faculty have made a survey of secondary school education in Old Orchard Beach. The survey covered the following points:

1. Pupil population and school community.
2. Educational needs of youth.
3. Educational program.
4. Pupil activity program.
5. Library service.
6. Guidance service.
7. School plant.
8. School staff and administration.

In September 1963 it will be necessary to add one more teacher to the faculty, due to the fact that the total enrollment will be exceeded by thirty pupils.

SUPPLEMENTAL READING

The Science Research Associates of Chicago designed reading kits now being used at different levels in the Old Orchard Beach elementary schools to augment the basic reading program regularly conducted.

S.R.A. kits consist of brightly illustrated, interesting selections of reading material, dealing with a variety of subjects, arranged progressively in levels of reading achievement. All the materials are integrated and have been carefully planned to form a sequential pattern.

A starting level guide establishes the beginning level of each student. With this test, the child is put immediately into his appropriate color level. Each reading level is indicated by one color only. These have been carefully scaled from lower difficulty levels on up.

Other components of the reading laboratory are rate builders, and three minute reading exercises which are timed by the teacher. Also provided is material to develop auditory attention and listening comprehension.

JUNIOR PRIMARY

The intent of our Junior Primary is to prepare children for a successful school future by getting them accustomed to group living; and by developing correct habits of listening, following directions and working carefully. Games and rhythms promote physical development, and a beginning interest in music and art is fostered.

The Reading Readiness program includes practice in recognizing likenesses and differences, both visual and auditory; the building of a vocabulary through stories, experiences and pictures which will make the words encountered, familiar in beginning reading; development of small muscle skill by much coloring, cutting etc; and an introduction to arithmetic that includes the recognition of numbers, and counting of objects.

At the end of the school year a test is given to help determine in what areas each child needs more help and experience before he is ready to read.

The Junior Primary operates on a two session basis with the group changing at the half of the school year.

PHYSICAL EDUCATION

Old Orchard Beach School System ascribes to a well formulated

pattern of physical education that progresses in much the same fashion as the academic curricula.

Authorities state that physical education has a real place in the growth and development of the youth. Old Orchard Beach's physical education program attempts to meet the individual needs and interests of each child at various age levels. Each type of activity has a definite contribution to make for the total development of each individual. In the lower grades rhythmical activities give the pupil training in such qualities as self control and poise. These are achieved through folk dancing, plus fundamental and creative rhythms.

Pupils in the upper grades are considered ready for a more advanced type of physical education work, calling for more lightly organized sports, and segregation of boys and girls.

The safety program is co-ordinated with the program of the police department. Movies and lectures are periodically given in all elementary schools and bicycle safety is stressed.

The physical education program is designed throughout the school system to develop the student to his physical capacity, and to equip the student with enough skills so that he may continue being active in adult life. Aim and objectives are physical, mental, emotional and social, stressing such characteristics as endurance, alertness and sportsmanship.

TRANSPORTATION

The transportation of children to school is a major problem. Old Orchard Beach is large in area. Many new homes have been built recently and many are now in the process of being built in the outlying sections of the town. Every precaution has been made to provide for the safety of the pupils.

CONCLUSION

America has gone farther than any other country in the conquest of good schools. Public school education in Old Orchard Beach is a cooperative enterprise of the whole community. I believe it is progressing along well established lines of development on a high level of achievement.

Respectfully submitted,
Frank D. Lawler
Superintendent of Schools

Spring Term

Schools Open	Monday, Apr. 1
York County Teachers' Convention	Monday, May 6
Memorial Day	Thursday, May 30
Schools Close	Wednesday, June 12

ENTERING AGE OF PUPILS

Six years of age on or before October 15th of the school year shall be admitted to grade one.

Five years of age on or before October 15th of the school year shall be admitted to Junior Primary.

SCHOOL STORM SIGNALS

The no-school signal will be sounded by the fire alarm signal at 7:30 o'clock A.M.

It is advisable to listen to radio stations WIDE, Biddeford, WCSH and WGAN, Portland, as announcements will be made.

Weather reports are not always reliable and since the School Department desires to tender maximum educational service by having school in session the greatest number of days, storm signals will not be used when there is reasonable doubt.

Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

MEETINGS

The School Committee holds its regular monthly meeting at the Jameson School on the third Wednesday of the month at 7:30 p.m.

Report of School Physician

Dr. Frank Lawler

Supt. of Schools

Saco, Maine

Dear Dr. Lawler:

The physical examinations of the pupils in our school system have been performed beginning in August with the football candidates, and later, those who were playing basketball.

During the course of the examinations, six hundred and five were examined, and the abnormal conditions observed were—Cardiac 9, Bronchial 4, Nose and Throat 7, Allergies 4.

I am confident that the examinations afforded those attending the Old Orchard schools, are not excelled by other communities. This is due to the full time services of the school nurse Mrs. Agnes Murphy. The participation in the program by Dr. Raymond Begin, dentist, Dr. Stephen Polackwich, visual consultant, and Mrs. Doris Homer, dentist hygienist.

Very truly yours,

Dr. Donald Skilling
School Physician

School Nursing Report

To Superintendent, School Committee and Town's people of Old Orchard the regular yearly report is summarized as follows:

Our most annoying problem during 1962 that was a great trial to both children and parents was a hygiene problem of head lice. Before some four families realized and took care of their proper responsibilities, a large number of children were infected with this horrid condition. An exhausting amount of work was needed to get this matter under control.

The welfare problems that rise most heavily during the winter months were helped again through our local resources such as the hot lunch program, our service clubs gave medical care in several cases—our town and state clinics and agencies helped in many ways—physically, mentally, and emotionally for our children and families.

Sweetser Home in Saco, Pine Tree Camp in Rome, Maine, our State Hospitals, Shriner's Hospital in Springfield, Massachusetts, were "Good Neighbors" to our children of all age levels. These contacts all required records and reports from the School Nursing Service, plus the individual records kept on each child and our local clinic records on immunization, dental, and physical welfare.

This clerical load on occasion becomes very important as has happened for Social Security benefits and family health records for special hospital care as Adult Rehabilitation needs and mental health services. The twenty years of school nursing contact and record work has had good values

Specific Areas in School Nursing Program

Our School Dental Clinic has had service from Mrs. Doris Homer, Dental Hygienist and Dr. R. J. Begin, our local dentist. Mrs. Homer gave flourine treatments to our primary grade children who had their second teeth. Dr. Begin has given excellent care to our children needing dental clinic service since Fall of 1962.

Dr. Stephen Polackwich has been doing a Sight Survey Screening program this year and it presently is continuing with the High School group. We do give our thanks to the children and parents and particularly Doctor Polackwich for the good cooperation on this program.

Because of a recent illness this report is less lengthy than usual.
With many thanks to all who helped us in 1962.

Communicable Diseases Reported to School in 1962:

Measles	36
Chicken pox	12
Mumps	2
Office patients daily average	6—8
Classroom rapid inspections daily	3—5
Conferences with teachers daily	5—6
Conferences with students daily	6—8
Messages average daily	8—10
Home call weekly	4—6
Parents visited weekly	3—5
Phone calls average daily	3—5

Yours respectfully,

Agnes V. Murphy, R.N.
Public Health Nurse for
Schools in Old Orchard Beach

Oct. 4-5—Teachers Convention—Portland—Mental Health lectures excellent

November 14-15—Parent Conferences

Report of School Visual Consultant

Dr. Frank Lawler

Superintendent of Schools

Old Orchard Beach, Maine

Dear Dr. Lawler:

Through the interest of the School Board Members, a Vision Screening Program was instituted to implement present methods of School Vision Testing. School Vision tests are only a screening process and not a substitute for a thorough professional evaluation.

With the energetic efforts and assistance of the School Nurse, Mrs. Agnes Murphy, and the cooperation of all school personnel, the program began in September 1962 and one morning per week was spent in the schools of the system.

All Sub-Primary children were screened for Visual Defects such as: Visual Acuity; Convergence, the ability to converge eyes on a near object; Pupillary Reflexes; and Fusion, the ability to mentally interpret the images received from each eye; Ocular Motility, the ability to control the rotation of each eye in the various directions smoothly and efficiently and also the ability to rotate both eyes smoothly and extensively in all directions; and lid and eye abnormalities.

In Grades 1 through 8, children failing the standard test were rescreened, also, others such as the low achievers and doubtful cases were sent to the Eye Clinic by the teachers.

The standards used were similar to those suggested by the Massachusetts Vision Testing Program.

On the High School level, the first group screened was the Driver Training Class. The Keystone Vision Testing Unit was employed and a Vision Color test for color blindness was added. This program should prove beneficial to students, parents, and school personnel with information derived.

The number of students seen personally will total about 600.

I believe the important phase of this program is the emphasis at the Sub-Primary level with a necessary follow up of failure cases; as, many cases are much more amenable to correction by lenses, visual training, surgery, etc. at this age.

The study revealed cases which could not be detected with the Standard Snellen E. Chart such as; Hyperopia, Astigmatism, Amblyopia, Convergence Insufficiencies, and Fusional difficulties (factors in reading problems) Ocular Abnormalities and Color Blindness.

The program as instituted in the Old Orchard Beach Public School System has relieved the Teachers and School Nurse of the burden in making decisions for referrals on failures and borderline cases.

I do believe a portable compact School Vision Tester such as used in many systems would prove invaluable. The findings would be more conclusive than the present Snellen E. Chart, and be of greater benefit for school children of Old Orchard Beach, Maine.

For a School Vision Screening program to be considered successful it is my sincere opinion that the work be thoroughly carried out annually with records and follow ups noted.

Respectfully submitted,

Stephen J. Polackwich, O.D.

Report of Police Department

Town Council
Old Orchard Beach, Maine

Gentlemen:

Herewith is submitted the report of activities and arrests of the Police Department for the year 1962.

Total number of arrests was 379, 80 arrests for traffic violations, 299 arrests for other violations.

Operating after suspension	4
Driving to endanger	1
Drunken driving	12
Operating without license	18
Operating without glasses	1
Operating unregistered Auto	1

- 45 Breaks investigated
- 195 Calls to pick up or check on animals
- 371 Complaints received at Station
- 2468 Calls answered by Police cars for various reasons

Respectfully submitted,

John H. Clark, Chief

Report of Fire Department

The Old Orchard Beach Fire Department experienced, for the first time, the problem of two serious fires nearly simultaneously. On June 27, 1962 a late night alarm at 2:10 a.m. sent the Department to a fire in a ten-room or larger house at Surfside. Upon arrival the roof of the house was already in flames and collapsing. The fire had also spread to two or three adjoining one-story structures.

Thirty minutes later, at 2:40 a.m. a second large fire was reported on the oceanfront at Brisson Street. Since it was immediately evident that the emergency required the help of more men and apparatus than on call in our own department, a request for assistance was telephoned to Saco, Biddeford, and Scarborough Fire Departments. These cooperating Departments quickly sent to us the necessary men and equipment to make it possible for our own firemen to concentrate on restricting the Surfside fire to the buildings already ignited when the apparatus first arrived.

The fire in the Beauregard Hotel on Brisson Street seemed to have started in the basement and then spread rapidly through the interior. It worked upward in the vicinity of the stairways, mushrooming outwards at each floor, until it reached the roof. The assistance of the out-of-town Departments made it possible to man hose lines on all sides of the hotel, effectively protecting adjoining buildings. The Saco aerial ladder truck found a vantage point where the fireman at the top of the aerial could see any flame that broke through the roof and instantly meet it with a stream of water from the swivel nozzle at the top of the ladder. This undoubtedly is the only reason it was possible to keep the Beauregard fire entirely within that building even though some nearby structures were less than ten feet from the Hotel. This dramatically illustrated how effective an aerial ladder can be at fires in Old Orchard Beach.

The records show an increase of over twenty per cent, when compared to the preceding year, in the number of times fire department equipment responded to an alarm, as follows.

1961 — 149 runs

1962 — 188 runs

Checks made of the potential fire hazard in this Town indicate our present facilities and equipment may need modernization in the near future. Surveys by competent agencies such as, the State Insur-

ance Department, the Rating Bureau of the Underwriters Association which represents all fire insurance companies, and the comprehensive planning study made by the Sewall Company, all emphasize these three points:

1. A fireproof headquarters with a floor to hold 12-ton trucks.
2. An aerial ladder truck.
3. A sub-station between the railroad track and the beach.

It is believed that most of our townspeople agree with us that our present fire department is efficient. There are, nevertheless, new demands to be met in any progressive community. It is our opinion that the Town of Old Orchard Beach is progressive and appreciates the protection afforded by its fire department, and furthermore, will wish to keep this department equipped in a manner that permits it to do its best job of protecting our community, our lives, and property.

December 31, 1962

Civil Service Commission

Paul G. Fontaine, Chairman

Norris A. Marshall

Franklin A. Milliken

Report of Civil Defense

I am pleased to report to the Townspeople that the local Civil Defense Unit although minus concerted Public Relations on the local level was quietly and efficiently going about it's duties during the fiscal year 1962.

If the appropriation sought this year is granted, it will complete the re-organization and readiness of our own local Unit. There are however two glaring inequities which I must point out to the Townspeople before all interest and incentive once again causes the Civil Defense Unit to disintegrate completely and will result in our having to spend more money than is necessary to re-stock, re-supply and re-organize under the direction of a new Director.

Firstly we are in need of a separate underground (if possible) Civil Defense Control Center which will be able to serve the town in a two fold fashion in event of fire or destruction of the Town hall we would then have a reserve Town hall, without the services of the

Town Clerk, Fire Department, Police being interrupted. It would also allow us to house our CD Trucks, 1 ton generator, and all of our equipment, which is now crowding us out of our present control center.

A building of cement blocks 20 feet wide by 100 feet long by 8 feet tall could be erected for approximately \$400.00 including materials and labor, providing it was located on town owned property.

Secondly the matter of holding those members of the Unit is now in jeopardy. The Public Safety officers have answered 5 Hurricane alarms during the last 2½ years, serving without pay from anywhere from 4 hours to six hours in all sorts of situations and weather conditions, often performing the duties of the Police Department and Public works Department, without so much as a thank you from the town. An article will appear in the town warrant asking that these men be paid \$1.15 per hour for every hour they are on duty during local Hurricane Watches, and while performing "Fire Police duties".

These Fire Police Duties entail the stopping of all "fire chasers" from driving into the fire area and clogging up the road preventing additional emergency vehicles from arriving at the scene in time to be of assistance; with the addition of one Citizens Band base station Radio to be located and manned at the Fire Station by CD Fire Police it will enable the Call Firemen to arrive at the scene of a fire by merely radioing from one of the CB radio cars back to the station as to the location of the fire.

We have been fortunate in being able to enroll in the CD unit 18 members of the local Citizens band club who have privately owned short wave radios in their cars as members of the local CD unit, and at the disposal of the Town when needed in an emergency and known as the "10-33" club.

Only three (3) men are needed for this type of Fire Police duty but they should be paid \$1.15 per hour for answering fire calls.

There are 25 to 30 Registered Nurses residing in town and these Nurses under the able direction of Mrs. Helen Curry, Mrs. Helen Mullen and Mrs. Noella Sicard all of the Registered Nurses resident in Old Orchard were informed of the location of Emergency Medical Aid Stations and where their duty stations will be in the event of any local or National Emergency.

The Red Cross defines a "LOCAL DISASTER" as being anything that affects "FIVE (5) FAMILIES not five PERSONS — FIVE FAMILIES".

During "HURRICANE DAISY", Mrs. Richard Doe and the members of "CD MASS FEEDING UNIT" rendered yeoman service in preparing meals and hot coffee for the evacuees and CD personnel, these gracious ladies should be at least given the same rate of pay as the CD Public Safety Officers, for they have to set up the feeding unit at the same time that the CD men are called out, while it is true they have to wait until the order is passed that there are evacuees being transported to the High School for meals and shelter, their anxiety over their own homes and families are placed behind them in the spirit of community service during the waiting, watching hours of Hurricane Watches, some sort of compensation for these hours of sacrifice would enable the CD to have more people enroll, report and work for the interest of all those in need.

The local Civil Defense Unit is the Town "JACK-OF-ALL-TRADES" and is prepared to do and has done Police work, Fire fighting, Evacuation, Telephone Line re-wiring, Search & Rescue. There would be no payroll involved except during unforeseen events and then only as an after thought much as the word "Thank you".

If the Supplies sought this year can be purchased by the allocation of the appropriation sought then after this year we can say "We are ready come what may" and every year thereafter only a token amount will be necessary to raise and appropriate for Civil Defense. This is the Only Department within the town that I am aware of, that is constantly striving (through the purchase of needed supplies that other Departments do not have BUT in an Emergency need) towards the elimination of its own appropriation, and after this year that end should be achieved.

It has been a pleasure to serve the Town this year as Director of Civil Defense and Public Safety Officer and my motto has always been like the "Three A Safety man" as regards our fellow townsmen, "ALWAYS ALERT NEVER HURT".

Respectfully,

Ernest A. Brousseau, Director,
Civil Defense & Public Safety

Article 91. To see if the Town will vote to accept as public ways the following streets and extensions:

Casco Ave. northwesterly from the present terminus, a distance of 50 feet	RECOMMENDED
Roanoke Ave. northwesterly from Ninth St., a distance of 50 feet.	NOT RECOMMENDED
Connecticut Ave. northwesterly from the present terminus, a distance of 75 ft.	RECOMMENDED

Ext. of Fern Park Ave. from Arbutis to Rosedale Ave.	RECOMMENDED
Smith Avenue 865.13 ft.	RECOMMENDED
Ext. of Center St.	RECOMMENDED
Grove Ave. from Ivy to Girard Ave. 420 ft.	NOT RECOMMENDED
Beachwood Ave. from E. Grand Ave. to the beach, so called.	NOT RECOMMENDED

Article 92. To see what sum of money the Town will vote to grade and gravel the following streets and extensions:

Grove Ave. from Pinehurst Ave. to Girard Ave. 140 feet more or less	NOT RECOMMENDED
Roanoke Ave. northwesterly from Ninth St. 50 ft.	NOT RECOMMENDED
Connecticut Ave. northwesterly from the present terminus, 75 ft.	\$100.00
Milliken Road from Seaside Ave. easterly 200 ft.	100.00
Sunset Ave. (remaining accepted portion)	NOT RECOMMENDED
Fern Park Ave. approximately 500 ft.	NOT RECOMMENDED
Summer St. 200 ft. from Temple Ave.	300.00
Hilltop Drive 195 ft.	400.00
Greenacre Rd. 60 ft.	150.00

BUDGET COMMITTEE RECOMMENDS \$1,050.00.

Article 93. To see if the Town will vote to raise and appropriate a sum of money to reconstruct Winona Ave. from West Surf St. to Seaside Ave.

BUDGET COMMITTEE RECOMMENDS TO COME FROM GENERAL HIGHWAY.

Article 94. To see if the Town will vote to raise and appropriate the sum of \$8,600.00 to maintain the Life Guard Service for the year of 1963.

BUDGET COMMITTEE RECOMMENDS \$8,600.00.

Article 95. To see if the Town will vote to instruct the Council to withhold the first weeks pay from the Lifeguards.

BUDGET COMMITTEE RECOMMENDS.

Article 96. To see if the Town will vote to place the Administrative duties of the Lifeguard Service under the jurisdiction of the Department of Public Safety.

BUDGET COMMITTEE DOES NOT RECOMMEND.

Article 97. To see if the Town will vote for the payment of the Civil Defense Public Safety Officers, while performing Hurricane Watch Duties, Evacuation, and Fire Police Traffic Duty.

Article 98. To see if the Town will vote that the funds now on deposit in the Saco and Biddeford Savings Institution in the Fire Dept. Equipment Account be withdrawn and appropriated to the bond issue for the new truck already purchased.
BUDGET COMMITTEE RECOMMENDS.

Article 99. To see if the Town will vote to allow the Fire Chief to use the Fire Dept. equipment to render mutual aid when an emergency request is received from a qualified official from any City or Town.
BUDGET COMMITTEE RECOMMENDS

Article 100. To see if the Town will vote to adopt a schedule of graduated pay raises for the Fire Department as recommended by the Civil Service Commission.

Article 101. To see what sum of money the Town will vote to raise and appropriate to maintain the Fire Department for the year 1963.
BUDGET COMMITTEE RECOMMENDS \$29,500.00.

Article 102. To see what sum of money the Town will vote to raise and appropriate to employ Theodore Mingo, Sr. as Assistant Fire Inspector for the year 1963.
BUDGET COMMITTEE RECOMMENDS \$1,200.00.

Article 103. To see if the Town will vote to authorize the Council and Town Treasurer to deposit an amount equal to the unexpended balance in the fire department account at the close of the 1963 fiscal year, in the Town of Old Orchard Beach Capital Reserve Fund, known as the Fire Department Major Equipment Fund.

Article 104. To see if the Town will appoint a three man committee to look into the matter of a sub-fire station between the Ocean and Railroad Tracks on Grand Ave. one civil service commissioner and two from the taxpayers of the Town.

Article 105. To see if the Town will vote to raise and appropriate the sum of \$33,000.00 for a new aerial truck to replace our 1930 ladder truck.

Article 106. To see what sum, if any, the Town will vote to raise and appropriate for permanent improvements at Washington Ave. and Saco Ave., Fern Park and Saco Ave., Heath St. and Saco Ave.

Article 107. To see if the Town will vote to raise and appropriate the necessary matching funds by bond issue for the installation of the proposed and surveyed sewer system for the halfway District Two.

Article 108. To see if the Town will vote to appropriate the sum of \$500.00 to defray the expense of building a baseball park of Little Town League dimensions.

Article 109. To see what sum of money the Town will vote to raise and appropriate for the High School fence.

BUDGET COMMITTEE RECOMMENDS \$1,000.00.

Article 110. To see if the Town will raise and appropriate a sum of money to be applied toward the operating costs of Art Classes in adult education evening school.

BUDGET COMMITTEE RECOMMENDS \$150.00.

Article 111. To see if the Town will vote to request our representatives to Congress enact the necessary Legislation to subsidize the B. and M. Railroad in the relocation of the railroad to the abandoned Eastern railroad bed.

BUDGET COMMITTEE RECOMMENDS.

Article 112. To see if the Town will vote to raise and appropriate a sum of money for the use of the Board of Assessor's in securing assistance in making an appraisal of all properties in the Town of Old Orchard Beach, Maine.

BUDGET COMMITTEE DOES NOT RECOMMEND.

Article 113. To see if the Town will vote to raise and appropriate a sum of money to hire a firm of professional appraisers according to specifications set up by the State Dept. of Audit for Municipal Appraisers. To make an appraisal of all property in the Town of Old Orchard Beach, Maine.

BUDGET COMMITTEE DOES NOT RECOMMEND.

Article 114. To see if the Town will vote to instruct the Assessor's to assess all real and personal property on the basis of 100% valuation.

BUDGET COMMITTEE DOES NOT RECOMMEND.

Article 115. To see if the Town will vote to enact an ordinance to prohibit live entertainment and dancing in establishments that are only licensed to serve Malt Liquor.

BUDGET COMMITTEE RECOMMENDS.

Article 116. To see if the Town will vote to prohibit surf fishing on the beach area between the hours of 9:00 A.M. and 5:00 P.M. daily during the summer season.

Article 117. To see if the Town will vote to remove the Pine Trees from the Old Salt Rd. in front of the homes of Roland Boisvert and Joseph P. Lacroix because of damage being caused to the aforesaid homes by their existence.

Article 118. To see if the Town will vote to enforce the law that Restaurants which serve Malt Liquors, serve food on the premises during all of its opening hours. A full course menu should be available and displayed.

BUDGET COMMITTEE RECOMMENDS.

Article 119. To see if the Town will vote to authorize the Town Council to appoint a committee to recommend changes to improve the Town Hall, especially as regards changes order by the State Fire Commission.

BUDGET COMMITTEE RECOMMENDS.

Article 120. To see what sum, if any, the Town will vote to raise and appropriate to survey all house numbers in Old Orchard Beach and for the Board of Assessors to renumber or assign new numbers to such buildings found without or with incorrect numbers.

Article 121. To see if the Town will vote to remove the "No Parking Signs" on Washington Ave.

BUDGET COMMITTEE DOES NOT RECOMMEND

Article 122. To see if the Town will vote to establish and adopt an ordinance for the municipal control of unnecessary noises.

Article 123. To see what sum of money the Town will vote to raise and appropriate for Civil Defense and Public Safety.

Article 124. To see what sum of money the Town will vote to raise and appropriate for the salary and travel expense of the Health Officer.

Article 125. To see what sum of money the Town will vote to raise and appropriate for defraying the expenses of the Memorial Day Parade under the direction of the Memorial Committee.

Article 126. To see if the Town will vote to amend Section 3 of the Town License Ordinance enacted June 13, 1962, by adjusting the license fees to be charged.

Given under our hands this 25th day of February, A.D. 1963.

Respectfully submitted,

Mrs. Laura H. Washburn
Librarian

Report of Health Officer

Citizens of Old Orchard Beach:

The following is my annual report for 1963 as Health Officer.

I received and investigated the following nuisances and complaints:

- 4 riding stables
- 6 domestic animals
- 3 brooks and sewer pipes
- 7 cesspools
- 1 private dump
- 1 rubbish in the street
- 2 improper & uncovered waste & garbage containers
- 2 bad odor from brook

I worked with State Health Inspector again this year inspecting the local business establishments.

I made several trips to Portland with immunization passports to be stamped by the State Health and Welfare Dept. as required by State law.

I referred to State Dept. of Sanitary Engineering a problem of sewage disposal in a local motel unit.

I called New England Sanitation to exterminate a severe case of cockroaches.

I answered several letters from the State Dept. of Health and Welfare on various matters.

I received complaints on large domestic animals being housed in the downtown area.

I called the State Humane Society in regards to a dead horse not properly being disposed of.

A serious problem is arising concerning tents and trailers being allowed to locate in the residential and downtown areas and I would recommend a review of the present laws governing this.

The rat population at the town dump was also exterminated again this year.

Respectively,

Millard H. Palmer
Local Health Officer

Report of Superintendent of Schools

To the School Committee and Citizens
of Old Orchard Beach, Maine:

Public School Education is the greatest and most far-reaching undertaking in which the community is engaged. Education has always been a matter of primary importance to the American people. No country has provided such widespread educational opportunities for its children; no country has recognized better the importance of maintaining and expanding these opportunities. Public education rightly is regarded as the foundation of one free society and strength of one democratic form of government.

A teacher to do creative teaching must not be hampered by traditional practices. Creative teaching develops practices which adjust work to the ability of the individual pupil. Individuals differ greatly in many different ways. It is erroneous to assume that all pupils in any given grade have the same ability in all subjects presented. Each pupil varies in achievement and characteristics. The child needs to feel that it is possible for him to succeed in what he is expected to do. This is particularly important in the mastery of the tools of learning.

No track coach expects every contestant to run the hundred yard dash in ten seconds. However, he can see that every runner spans that distance at the best rate of which he is capable. It is the aim of the teaching staff to study the weaknesses of her pupils and to make every effort to help them overcome their difficulties.

There are generally two ways of maintaining a high level of pupil achievement in any subject after direct instructions have been given.

1. Systematic drill in general with no integral units of testing to discover lack of pupil mastery.

2. Systematic remedial drill devices, plus diagnostic testing to discover the exact causes of deficiencies when such deficiencies begin to cause poor work.

The second method mentioned involves the location of the specific defects of each pupil by means of

diagnostic tests, and the immediate correction of these defects by the use of properly constructed remedial drill.

This program coincides with the sound psychology of learning in approximately the order indicated.

1. Teach.
2. Review.
3. Test for deficiencies.
4. Follow up with drill units on the specific deficiencies revealed by the tests.

Diagnostic tests may be confined to pupils who have been known to be having difficulties in their work, but better still, they should be applied to all pupils, for not infrequently, they reveal troubles unsuspected by the teacher.

The amount of time spent in today's school on the three R's is more than four times as great as it was a hundred years ago. The techniques of teaching the "tool" subjects are vastly improved. Pupils who advance rapidly are given the chance to do so. Special difficulties hampering the advance of some students are diagnosed and eliminated through instruction adjusted to individual needs. The three R's are still the foundation of any school studies.

This past year has been one of continued improvement. The study of current problems and planning, by the superintendent, principals, and faculty have resulted in a forward march of progress in our school program. If we are to keep pace with change in the present trends of education, there must be continuous study and revision of the curriculum.

Your superintendent and school committee have been deeply concerned with the lack of classroom space due to the rapidly growing enrollment.

It was mandatory this year to build a partition dividing a classroom at the high school, thus creating two smaller rooms and to remove the partition at the Jameson School combining the nurses' office and teachers' room into a classroom. The high school continues to become more crowded each year and the problem of housing becomes acute. However, a school building committee has been appointed, and the problem is being thoroughly studied by a competent group of citizens.

The school property of the town is receiving good care. Repairs have been made as the needs arose. Some painting was done, and minor repairs were completed during the summer vacation. All rooms in each school were thoroughly cleaned and floors waxed. Our custodians are to be commended for their work.

It is my intention to have other major topics of the school program presented in detail by the administrative personnel. A report submitted by each principal follows.

Frank D. Lawler

Sup't. of Schools

HIGH SCHOOL PRINCIPAL'S REPORT

Total high school enrollment this year has stabilized at about 290 pupils. Because the senior class of 48 students is one of the smallest in several years (and will be for many years to come), we have been able to accommodate the various classes within the present classroom space. However, it has been necessary to use the cafeteria as a study hall for two periods of the daily six, thus depriving some students of the use of the high school library during their study periods. Because next year's senior class will number about 70 students, space for an extra senior English and Problems of Democracy class will have to be found. It may be impossible to accommodate all classes within a one session school day.

Work is being done in the high school library. Additional shelves have been constructed in the study hall, books classified, and a check-out system installed with student volunteers acting as librarians. While it is not considered good practice to use the library as an assigned study hall, lack of space makes it impossible to do otherwise. The high school has been very fortunate to receive many contributions for books from local civic organizations, citizens, and school clubs. Because of the high price of books, especially in science and fine arts, these contributions have proved invaluable in the acquisition of new volumes. Building up a library is a gradual process and must be developed over a period of years. However, we are fortunate in having a good nucleus upon which to build.

By utilizing the matching funds of the National Defense Education Act the high school has organized a basic biology laboratory. Though this laboratory is now located in the classroom rather than in a laboratory, it will serve as the basis for actual laboratory work in biology. The laboratory includes such essential items as microscopes, dissecting kits, and preserved specimens, glassware, slides, etc.

With the addition of Mr. W. Stanley Keene to our faculty we have been able to divide the chemistry and physics classes into two separate groups of about 16 students—the total capacity of the present laboratory. Physics and chemistry classes now alternate the use of the laboratory weekly. Though the physics and chemistry department has purchased much excellent equipment over the past few years, lack of physics laboratory space has somewhat hampered its full utilization, even under the present alternating laboratory system. It should be noted that our main problem in science is not lack of equipment, but rather lack of laboratory space itself. In order to acquaint the citizens of the town with our science program, a successful "Science Night" was held on December 18, 1963. This exhibit demonstrated various scientific equipment in action, scientific processes, and various student projects. It is hoped that Old Orchard Beach will have several entries in the Science Fair Program in 1964.

This year saw the completion of the fence around the athletic field. This fence, built at a cost of about \$2800, was financed through a grant from the town of \$1000 and voluntary contributions from citizens and organizations of \$1800. Mr. Donald Shorey and Mr. Benjamin Downs are to be thanked for co-ordinating and securing these various contributions. This fence will aid greatly in the control of crowds and the collection of fees during our football games at home. Basketball, however, is another matter. Because most schools find the gymnasium of the high school to be inadequate in both seating capacity and playing area, this year will be the first in which Old Orchard Beach plays no basketball games at home.

The standardized testing program at the high school includes the Otis I.Q. test, the Kuder Vocational Aptitude Test, and the Iowa Tests of Educational Development. These tests are given to allow students, par-

ents, and teachers to evaluate the educational potentials, strengths, and weaknesses, of each student. In addition, students who wish may take the national Merit Examinations, the Scholastic Aptitude Tests, and the Preliminary Scholastic Aptitude Tests. Most students preparing for college take one or more of these tests during their high school years. Because a high percentage of the graduates of the high school go on to some type of advanced scholastic work, we are very fortunate in having Mr. Frank Duley as a full-time Guidance Counselor. The Guidance Department assists and advises students in the choice of colleges or trade schools, acts as coordinator of all standardized testing within the schools, and assists individual students in working out high school programs to meet their capabilities and needs.

In closing, some thought must be given the problem of drop-outs. Old Orchard Beach has an excessive number of students who leave high school without a diploma, even by State of Maine standards. Eventually these drop-outs will create a serious social and economic problem within the community. The main problem centers around inadequate vocational education within both the industrial and clerical areas. Eventually the school must expand its offering in vocational arts. The school must be able to give boys training in fields other than simple wood-working. Similarly, the commercial course must expand its program to offer general clerical training for students who do not wish to study bookkeeping or secretarial work. Once again the main hurdle to overcome is lack of space for any new classes.

Jerome LePelletier
Principal

JAMESON SCHOOL PRINCIPAL'S REPORT

Superintendent of Schools and Board of Education:

I herewith submit the report of the Jameson School beginning January 1, 1963 and ending with the fiscal year, December 31, 1963.

REGISTRATION

Our registration has increased somewhat since September 2, 1963.

Enrollment—Sept. 2, 1963—240
Enrollment—Dec. 12, 1963—244

Enrollment by grades:

Grades 3	(2 rooms)	—46
Grades 4	(3 rooms)	—88
Grades 5	(3 rooms)	—88
Grade 4 & 5	(1 room)	—22

TRANSPORTED PUPILS

Transportation under the supervision of Mr. Robert York presents no problem. The buses leave on the scheduled time and all transported pupils have left the building twenty minutes after the closing bell. At present there are 110 pupils transported at the expense of the town.

The breakdown is as follows:

Halfway	40
Ocean Park	32
Town Hall	20
East Grand, Pt. Ave	18

HOT LUNCH PROGRAM

The Hot Lunch Program under the supervision of Mrs. Eleanor Smith runs smoothly. They are aided by five students and two classroom teachers. At present we are serving 132 hot lunches. This is expected to increase.

FIRE DRILLS AND A-BOMB DRILLS

Fire Drills and A-Bomb Drills are set up the first week of school and are carried out periodically. We are able to clear the building in 34 seconds during a fire drill. Our long, wide corridor makes a good shelter area during our air-raid drills.

PHYSICAL EDUCATION

Each teacher carries on his own Physical Education activity as there is no provision for a Physical Education Supervisor. This consists of a thirty-minute weekly period other than the scheduled morning and noon recesses.

SCHOOL BANKING

Student participation in school banking averages around 50% of the enrollment. This is purely voluntary but many students do avail themselves of this opportunity to practice thrift by adding to their bank account.

GROUPING

We have homogeneous grouping in grades 4 and 5. We have found this eminently successful. This enables the students with corresponding abilities to compete. It eliminates much of the frustration and boredom ever present when students of varying abilities have to compete with each other. It also gives the classroom teacher more opportunity to work with the individual as she doesn't have to plan for all levels of ability.

We have a combination grade for the first time at Jameson. We selected ten fourth grade students and twelve fifth grade students from the average and the top students in these respective grades. We were fortunate in acquiring an experienced teacher and this experiment seems to be successful.

READING

One of the outgrowths of any Reading Program is the use to which the student puts his respective skills in other than classroom situations. In other words do they like to read? Do they use the school and town libraries? Are they interested in building individual libraries? I feel that we are making progress along these lines. Each classroom has its own library section averaging 40 books per room. In addition the school has approximately 300 books covering areas such as science, history, nature, etc. written in a vocabulary that children of this age group can read and understand. The students also are encouraged to use the town library facilities and to make use of the numerous opportunities to purchase books under teacher direction.

At this time I would like to express appreciation to the teachers, supervisors, Dr. Frank Lawler, and the superintending school committee for their interest and cooperation.

Respectfully submitted,

Helen Marshall

FEDERAL SCHOOL PRINCIPAL'S REPORT

Physical condition of this building is good. New and better lighting in the corridor and the office has been installed. Our porch roof has been repaired by re-shingling. The floors have been scraped down and re-waxed. Inside painting of all classrooms has been completed. New curtains were placed in the rooms facing the Jameson School. Three new ceilings, replacing very poor ones, were installed.

TEACHING MATERIALS AND AIDS

The S.R.A. Laboratories for grades 6, 7, and 8 are in use daily. New film strip projector and 12 new science film strips were purchased during the year.

CURRICULUM

Mathematics — New materials are in use for our classes. In all grades each pupil has his own workbook where he is able to keep a record of his work. This workbook helps the child to be systematic and orderly. Problems are modern and challenging. They deal with social, economic, and business life of today.

ENGLISH

The English program is divided into three main units. The first unit, elements of English grammar, is designed to prepare students to best employ their language skills and serves as a basis for those units dealing with composition and literature.

During the time spent on composition work the students acquire knowledge of form and organization through the use of the Science Research Associates laboratory entitled "Organizing and Reporting Skills". The skills so acquired are then applied in the writing of essays and short stories.

The literature unit revolves around the study of the new Scholastic Literature unit entitled "Courage". The unit is published by the Scholastic Book Services and is designed to introduce students to worthwhile literature, thus enabling them to become mature readers. During this instruction in the reading of literature, some selections are read and studied by all of the students. This is followed by group and individual reading

and study of various novels including National Velvet, The Bridges of Toko-Ri, Jane Eyre, and Captains Courageous. The unit includes material of different levels of difficulty, thus providing for individual differences.

Our program in the 6th, 7th, and 8th grade levels are organized in conjunction with "A Guide to Learning" issued by the State Department of Education.

READING

The reading program centers, during the first twelve weeks of school, on the now widely used Science Research Associated Reading Laboratory. It is felt that better and longer lasting results are achieved by the intensive use of this reading aid. The reading skills acquired are then carried over into a regular reading program which stresses comprehension of material, interpretation of facts, and retention of that which is read.

SPELLING

The Basic Keys to Spelling Series stresses the development of phonetic and structural skills using visual and auditory discrimination activities. Word lists were developed from a careful analysis of research and existing textbooks. Word lists were compiled with great care to provide balanced units of work that will challenge both strong and weak students.

The weekly plan of the Basic Keys to Spelling Series makes a distinctive contribution to spelling instruction. In following the principle of going from the known to the unknown the Basic Keys to Spelling Series is designed to assure that students will LEARN to make generalizations as to why and how they are spelling words correctly. In addition, the series instructs the students in techniques to use for new, unfamiliar, or different words.

HEALTH EDUCATION CLASSES

Health education classes are being held every Tuesday by the school nurse. For Fall and Winter terms, we are studying the need of good nutrition as a basic foundation for health and its effect on the individual personality.

Our Maine Dairy Council has supplied us with several excellent booklets and posters for use in our study according to the age range of our classes. The Basic four groups of goods are studied by all the classes and the following Personality Booklets are used in Grades 7 and 8. "My Reflections" — "Who Me?" — Janie's Diary" — and "Coach Calls the Signals."

Each class has extra reading material on a variety of health topics and a question box. The students' response has been lively.

SPORTS PROGRAM

Our 6th, 7th, and 8th grades have interscholastic teams in the following sports: Football, Basketball, and Baseball. We compete in the local area under organized leagues.

An intramural program is conducted in Basketball during the month of March. This program enables every boy, regardless of ability, to participate if he so desires.

REPORT OF TESTING

Annually several standardized examinations are conducted in this school. Early in the school year the Otis Quick-Scoring Mental Ability Tests are administered to grades seven and eight. Alternate Beta forms are used. In March eighth grade students take the SRA High School Placement Test. In May the Standard Achievement Test Battery is administered to grades six and seven.

These test results are utilized by the teachers concerned and the high school counselor in providing for individual differences with constant emphasis upon high school placement.

GUIDANCE CLASSES

Guidance classes are conducted by the high school counselor in grades seven and eight. Seventh grade classes are held bi-monthly. Eighth grade classes will be conducted approximately three weeks out of four. Emphasis in the seventh grade is upon the establishment of proper study habits, developing an understanding into the nature of tests and grades, and discussions of ones interests, abilities, and achievements. In grade

eight students utilize SRA's "My Education Plans", a guidance workbook. The eighth grade program is geared toward the realistic choice of a high school course of study with emphasis upon academic and vocational areas.

Catherine Neilon

ELEMENTARY SCHOOL PRINCIPAL'S REPORT

To the Superintendent of Schools
and the Board of Education:

I herewith submit the report for the Elementary School on School Street for the year 1963.

ENROLLMENT

January 1963		December 1963	
Junior Primary	107	Junior Primary	85
Grade 1	111	Grade 1	114
Grade 2	100	Grade 2	99
Grade 3	51	Grade 3	53
Total		Total	
	369		351

Our enrollment figures are always at their lowest point during the winter months. By June of 1963 we had enrolled 380 pupils and that same thing will without a doubt be true before the present school year ends in June of 1964.

TRANSPORTATION

The transportation of bus pupils continues under the guidance of Mr. Robert York. The bus service is very efficiently executed by his drivers. At school two teachers are on duty at 7:55 a.m. to welcome and care for the first load of children due at 8:00 a.m. After school, in the afternoon, two teachers are also on duty until the last load of children is enroute home. This is usually about thirty minutes after school closes or 3:30 p.m. There are 236 pupils transported from the Elementary School during the year.

FIRE DRILLS AND AIR RAID DRILLS

These drills were conducted bi-monthly during the fall and spring terms. They are conducted periodically during the winter term. All of the children are familiar with the rules and regulations governing both.

HOT LUNCH AND MILK PROGRAM

The Hot Lunch Program has operated smoothly and efficiently with Mrs. Allen and Mrs. Hebert in charge of our cafeteria. The food was prepared at the Jameson School by Mrs. Smith and her assistants and it has been most tasty.

At this time I would like especially to call your attention to the "teacher supervision" of the noon lunch program. Two teachers and Mr. Egan, our janitor, are on duty during the entire noon hour. I would like to commend them all for their good work caring for more than 235 children every noon hour.

The number of children having milk at recess averaged 210 daily.

TESTING

Kuhlman Anderson Intelligence Tests were given to all of the first grade pupils in November. These tests were administered by the first grade teachers.

In grades two and three Otis Intelligence Tests were given to all pupils new in our system. These were administered by their teachers.

The Junior Primary teachers gave the Science Research Association Mental Tests to all of their pupils last May. The teachers of grades 1, 2, and 3 gave the Stanford Achievement Tests to the pupils in their grades in May, also.

Report cards were sent to the parents at nine week intervals. The Parent-Teacher Conferences during the National Education Week and following the issuing of the first report cards proved most fruitful.

We urge the parents to visit school. This is especially true if their children are not "measuring up" in their studies. Come and find out for yourselves, the schools are yours.

EYE SURVEY

The eye survey by Dr. Stephen Polackwich was most worthwhile. Many of our pupils profited by following his recommendations for correcting faulty vision.

JUNIOR RED CROSS

The pupils have enrolled in Junior Red Cross again. Some of the projects carried on during the year were collecting birthday cards and chocolate bars for the

Augusta State Hospital, and making place mats for trays for the patients at the Naval Hospital in Portsmouth and the Veterans' Hospital in Togus.

GRADE TEACHERS MEETINGS

Each month and more often when necessary the teachers held grade meetings, outside of school hours, for the purpose of discussing the curriculum and problems pertinent to better teaching.

The Annual Exhibition held during the spring term on April 30 seemed to meet with the parents' approval and drew many visitors who were most commendatory.

Our pupils were invited to enter the local and state Art Contests. We accepted and the children did a magnificent piece of work earning many awards for themselves and their school. This type of competition is good for boys and girls with special talent.

BANKING

One of our extra activities each year has been the weekly banking program in conjunction with the Saco and Biddeford Savings Institution. This program is most worthwhile. The children are taught thrift, and the value of weekly saving.

Classes in Physical Education are carried on by the class room teachers daily.

Music classes and Art classes are taught entirely by the class room teachers! I would like to say here that I am proud of the work that they have done with their pupils.

FIELD TRIPS

During the year field trips were taken by the first grade children to Landry's Dairy in Biddeford. The second grade pupils visited the Fire Department and the Libby Memorial Library in town. The third grades took Nature Study walks. These trips were all "follow up" activities in connection with either social studies or science.

The pupils have continued to progress in writing with the Rinehart Writing System.

At this time I would like to commend my teachers for their splendid work. They have worked diligently

for the progress of all the pupils. Their after school "Helping Classes" have benefited all, especially the slow learners or those who were ill.

In closing I wish to express my sincere appreciation to Dr. Lawler, the School Committee, supervisors, and the parents for their full cooperation, understanding and friendliness toward us. When the school and home work together success is bound to be the result.

Respectfully submitted,

Margaret H. Simpson

ENTERING AGE OF PUPILS

Six years of age on or before October 15th of the school year shall be admitted to grade one.

Five years of age on or before October 15th of the school year shall be admitted to Junior Primary.

SCHOOL STORM SIGNALS

The no-school signal will be sounded by the fire alarm signal at 7:30 o'clock a.m.

It is advisable to listen to radio stations WIDE, Biddeford, WCSH and WGAN, Portland, as announcements will be made.

Weather reports are not always reliable and since the School Department desires to tender maximum educational service by having school in session the greatest number of days, storm signals will not be used when there is reasonable doubt.

Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

MEETINGS

The School Committee holds its regular monthly meeting at the Jameson School on the third Wednesday of the month at 7:30 p.m.

Report of School Physician

January 11, 1964

Dr. Frank Lawler
Superintendent of Schools
Saco, Maine

Dear Dr. Lawler;

Physical examinations have again been carried out on the pupils in the Old Orchard Beach Schools. These were begun in August with examinations of those who were expecting to participate in football in the Fall. These included both the high school students and those from the elementary grades. I believe that examinations of the latter group is very essential, first, because of

their age and the beginning of musculo-skeletal development and the eagerness with which they literally "throw" themselves into the game with little knowledge about the functions of their muscles and skeletal structure.

I am tremendously gratified with the overall improvement during the past few years concerning dental hygiene, of which much credit must be given to Mrs. Murphy R.N. for her persuasiveness, and Mrs. Homer for her care and observations.

Physical defects or abnormal findings were minimal, and conform percentage wise to the number of examinations, (2). There were three hundred and forty-two examinations, with abnormal findings listed below.

cardiac - six	dermatological - thirteen
nervousness - four	coordination - two
overweight - seven	bronchial - three
allergies - five	dental - five

In the majority, the parents know about these conditions, otherwise they are informed so remedial steps may be instituted.

Because of the abundance of pupils in one of the school buildings, an examining room was lost. However, excellent room was gained in the high school which provided very suitable quarters for the examinations, and ample space to file the health records of the pupils that are kept from the time they enter school until they graduate from high school.

Very truly yours,

Donald S. Skilling, D.O.

School Nursing Report

From January through April of 1963 the School Nursing program was assisting Dr. Stephen Polackwich in his Sight Survey study. Every child from Jr. Primary level up through Senior High School was tested on the basis of several points as follows:

1. Failure on the regular Snellen eye test.
2. Reading failure on classroom level.

3. Personal complaint of headache and eye strain distress.
4. Signs of eyestrain observed by the teachers.
5. New students to find out sight facts.

A totally good foundation of eye sight conditions and problems was accumulated from Fall term (1962) through April 1963. Parents were notified of all defective conditions found.

During this same period of time January through April the School nurse was involved in preparing for the new Oral Polio immunization. The first clinic using the Sabin serum was held early in March, and we had an excellent response from the many people involved, parents, students and teachers, plus a great deal of work and cooperation with Mrs. Curry, R.N. our Town nurse, Mr. Palmer, our Health officer, and Dr. Skilling, our School physician for supervision and advice, (unfortunately, a bad siege of flu and complications prevented the School nurse from being present at the two following clinics. I can only say "thank you" to the many people who helped on this program.)

The winter term of 1963 was no exception from other winters in its health problems and welfare needs ranging from contagious diseases, hot lunch necessity, clinic appointments, hygiene lack in a few families causing distress and expense to other families. These things are an ever present winter concern, plus the daily minor first aid needs and the occasional more serious accident or illness troubling the children.

(Again at this point I wish to say "thank you" to the teachers, janitors, and other adults who on many occasions have helped the nurse during 1963. What was accomplished was always through a cooperative effort.)

Our regular medical check-ups were carried on by our School Physician, Dr. Donald Skilling. The Jr. Primary, fourth grades, eighth grades, all new students and the complete High School group were checked.

The School nurse's schedule has been changed to give more time to the High School, also the comfort of an office there which was very appreciated by the doctors, the students and nurse.

Also during the Fall term of 1963 Health Education classes were started for all the classes at the Federal School.

During the past few months we have studied the basic foods needed for good health along with personal-

ity problems and a "question box" on topics of the students' interests. Some 300 students can make for lively discussions!

SIGHT SURVEY PROGRAM

During last year from October and through mid-April an intensive sight survey program was carried on under the supervision of Dr. Polackwich. All grade levels from Jr. Primary through the Senior High School group were checked and notices sent home of all defective vision problems found.

This excellent program has been carried on again during the current school year since late September and into 1964. Along with checking all possible failures on vision tests done in each classroom, Dr. Polackwich has been stressing exams on the children at certain growth age levels. The Jr. Primary and First grade groups, Fourth grades, Seventh grades and Freshman Class in High School. A special group of High School students tested were the youngsters in the Driver Training Class. Color blindness tests were included for the High School students as this factor could be of major importance to a youngster in making plans for his future in Navy service and other occupations where color perception could be vital.

A new sight testing machine has been of great value to us during this current year in carrying on this program, and we feel confident that the students from all grade levels have found it an interesting experience. Their cooperation has been excellent.

A sight survey folder was kept of the grade school results, plus an individual card of each High School student last year. Currently a class roll record sheet has been used this year, which has been very effective in getting notices of eye care needs and a complete picture of each student's sight conditions recorded compactly for parents and teachers. A great deal of time and effort has been given to this sight survey program, and with considerable benefit to our children.

Yours respectfully,

Agnes V. Murphy, R.N.
Public Health Nurse for
Schools in Old Orchard Beach

Report of School Visual Consultant

January 29, 1964

Dr. Frank Lawler
Superintendent of Schools
Old Orchard Beach, Maine

Dear Dr. Lawler;

Probably no area of activity in school health and education brings so many benefits to so many children at such a low cost in effort and money as does a well planned and administered vision testing program in which reliable and valid tests and procedures are used.

Vision is not the only factor in learning which may need attention but it is a basic one which directly influences educational and occupational activities.

Of all human characteristics which relate to educational and occupational success, vision stands alone. It can be measured quickly and accurately. When it is below desirable standards, it can be improved so readily in a high percentage of cases and relatively little cost in time, money and inconvenience. The consensus of the dedicated professional people and their helpers is that good vision programs are rewarding in benefits to so many children who otherwise probably would remain handicapped in their seeing abilities because of unrecognized visual difficulties.

The study completed last year definitely indicated that a compact portable School Vision Tester would provide us with a prompt evaluation of the visual condition of the student. The instrument, T/O School Vision tester was procured; it contains the accessories and duplicates the well accepted Massachusetts Vision Tests. These slides provide a brief health screening test to identify children with visual abnormalities of a sufficient degree to warrant referral to an Ophthalmic practitioner.

The Testing includes:

- 1 - Acuity Right eye
- 2 - Acuity Left eye
- 3 - Acuity Right eye for Farsightedness
(Hyperopia)

- 4 - Acuity Left eye for Farsightedness (Hyperopia)
- 5 - Vertical and Lateral eye muscle balance at far reading area
- 6 - Vertical and Lateral eye muscle balance at far reading area
- 7 - Fusion—ability of the two eyes to work together as one

The Old Orchard Beach School Screening System is carried out as follows:

A brochure entitled "Vision Information for Parent of Pre-school Children" was passed out through the school system to be brought home.

All Sub-Primary children are screened for Visual Defects and abnormalities.

Grade I students are screened with the Vision Tester. Grade II and Grade III students who are borderline and low achievers are sent to the eye clinic and screened. All Grade IV and Grade VII students are screened with the School Vision Tester. Grades V, VI, and VIII follow the pattern of Grade II and III.

At the High School level, a consultation with Mr. Plaisted, head of the Industrial Arts Division, was carried out in reference to Eye Safety Devices on Machine and proper wear and care of personal Protective Eye Goggles. This department is aware of its responsibilities to the students and should be commended.

All students participating in the Driver Training the Vision Tester plus the addition of a valid color Vision the ision Tester plus the addition of a valid color Vision Test. All other students will be reviewed based on their visual evaluation tests of last year. This control program will provide us with the valuable information on students from Sub-primary through Senior Year in High School. Record keeping has been revamped to assure a continuity and correctness in annual vision testing.

The program as instituted in the Old Orchard Beach Public School System, with the faithful assistance of Mrs. Agnes Murphy, R.N. and the cooperation of all

School Officials and School Board, is in my belief the only one of its type in the State and implements the overall Health Program and should assure the citizens of the community of a complete school service to their children.

Respectfully submitted,
S. J. Polackwich, O.D.

Report of Police Department

Mr. Leon Jones, Town Manager

Herewith is the annual report of arrest and activities of the Police Department for the year 1963.

I wish to extend my thanks and appreciation to the members of the Council and the Manager for the support and understanding which was given me, and to the members of the Department for fine work and cooperation during the past year, which was indeed one of the busiest seasons in recent years.

I wish to extend special thanks to Judge Wesley M. Mewer for his untiring efforts and cooperation with me personally and for the fine relationship which existed between his Court and this Department. I feel that Old Orchard Beach has come to the sad end of an era with the termination of its Trial Justice Court and the fact that Judge Mewer has ended nearly forty years as its Judge.

With the Police Department now under the Civil Service Act and the prospect of an adequate pay schedule, I feel that it will now be possible to form a progres-

sive and efficient Department, of which the citizens of Old Orchard Beach will be justly proud and will afford them the enforcement and protection which they expect and deserve.

Respectfully submitted,

John H. Clark
Chief of Police

John E. Marshall, Captain
Philip J. Levecque
Gordon J. McAllister
Jean Paul Lacroix

2730 calls answered by police cars for various reasons	
8 stolen cars recovered	
21 calls received for ambulance	

Report of Fire Department

The following is a report of the activities of the Fire Department for the year 1963:

There were a total of 235 calls and 3 out-of-town calls.

All fire hose on hand was tested and 2 defective lengths were discarded.

An inexpensive fire hose repair machine was purchased and can be used to patch hose, raincoats, boots, etc.

We were called to the Grafton Lumber Yard fire in Biddeford and lost 24 lengths of hose, but these were replaced through our insurance coverage.

Report of Park Commission

The remaining members of the Park Commission would like to dedicate their page in the Annual Town Report to the late Louis Balkan, a Park Commissioner at the time of his death and a member of the Commission for many years. He will long be remembered for his efforts in construction of the new section of the Veteran's Memorial Park.

The Park Commission wishes to express its sincere thanks to the Town Meeting members and the citizens for their support of the Commission in its initial efforts at organizing a Recreation Department. With their support and enthusiasm it was possible to accomplish the following: institute a town basketball league with an 18 game schedule; resurface the regulation basketball court, at Central Park, with a resilient cork paving mixture; install underground sleeves at the above court to anchor a heavy duty tennis net which will be installed in the spring; prepare the lower end of the Veteran's Memorial Parking Lot for skating and construct a building with modern fireplace to allow skaters to have proper sheltered facilities.

The Veteran's Memorial Park was further beautified by planting 30 Lombardy Poplar Trees at the Park-

ing Lot entrance and by planting shrubbery around the ticket office. The reputable firm which did this work was also contracted to properly maintain existing trees and shrubbery near the Veteran's monument. Cement steps were installed in the new section of the park adjacent to the Edith Belle Libby Memorial Library and also in close proximity to the ticket office to assist customers in leaving the parking lot.

The Commission would also like to thank those members of the Women's Civic Group for their interest and endeavor in beautifying the town.

Respectfully submitted,

William F. Farrington

Leon F. Jones

Report of Urban Renewal Authority

July 8, 1963

Mr. Urbain Goulet, Chmn.

Mr. Jerome Daly

Mr. Sidney Sclare

Mr. Peter Strombas

Mrs. Rita Dube

I am pleased to make a report of the first year of consisted of Mr. Donald Briggs, Chm., Urbain Goulet, orized in June 1962 and in July 1962, the Board members were appointed by the Town Council.

At our first meeting, we elected our officers which consisted of Mr. Doald Briggs, Chm., Urbain Goulet, V-Chmn., Henry Jolin, Treas., Sidney Sclare, Sec., Peter Strombas, Asst. Treas. We lost no time in getting started. We phased our program into three categories. Our goal was set for 1964 for our first project. Our sights were set high for we knew of the immense groundwork that would have to be accomplished. With this in mind, we acquired the invaluable assistance of Mr. Richard Cahill, the Urban Renewal consultant for the Dept. of Economic Development of the State. Without his help,

and his connections with the Home and Housing Agency of New York, I'm sure we would still be fumbling at the gate.

PHASE NO. 1—PLANNING

Planning was the first item we faced. We had to get a broad inventory of the town. We helped the Planning Board in the completion of the 701 comprehensive survey. In the meantime, four members of the U.R.A., and a member of the Planning board, and the Town Manager attended a ten-week seminar on the mechanics of Urban Renewal at the State House. This seminar has given us invaluable information that other cities had taken years and money to accumulate.

One of our immediate problems was the railroad tracks in the center of town. We saw the need to relocate the tracks in order to alleviate the bottleneck we had in our most valuable part of town. We set up meetings with officials of the B&M RR. After several conferences, the B&M officials gave us an estimate for the job. Our thanks must go to Atty. F. LaFountain, Dave Marshall of the P.U.C., and Richard McMann, the Federal Housing Administrator for the State of Maine for setting these conferences. With this information we set a meeting with Sen. Ed Muskie at Waterville for Federal aid. Present at this meeting were Sen. Muskie and his aide, the V-Pres., engineers, and legal staff members of the B&M RR, Rep. Jerome Plante, David Marshall of the P.U.C., Councilman Donald Jones, the Planning Board, the Urban Renewal Board members, Orjan Vetterqvist and P. Duford of the James Sewall Co. Progress is being made with the Federal agencies but we must have strong support of our local and surrounding communities affected by this huge project.

PHASE NO. 2—CODES AND ORDINANCES

We requested several forms of Codes, and the Coding Committee selected those sanctioned by the State and Federal agencies. The Ordinances were finalized only last week, and both items are ready to be accepted by the town officials.

Next we made an application for a Workable Program with the Home and Housing Agency of New York. Two months later it was accepted and we were in business.

We set up meetings with Federal representatives of the Public Works Dept. for A.R.A. assistance for a Recreational Area and also for the Halhway sewer.

We have had a request for a \$400,000 project. We located a suitable area and we have now asked the Federal Government for a Feasible Survey. This survey should be made before any project can be realized so that we can get more for less money. If this survey is favorable then our committees (Citizens Advisory, Ccdes & Ordinances, Housing, Relocating, etc.) will then determine its feasibility, then the final approval of the town officials.

This has been a fruitful year for this Board. Many hours and dollars were spent on this so-called ground-work, at no cost to the town. We sadly regretted the loss of our Chairman Don Briggs and Treasurer Henry Jolin who were forced to resign due to business. I'm sure that when roses are tossed, a few should be directed at Don Briggs for the bumps and bruises he received in this thankless job.

As for the future, one project should materialize. The last phase of the Comprehensive Plan should be completed and accepted. This consists of land use and the financial status of the town.

Also on the agenda for the coming year is an educational program on Urban Renewal. Too many people have strayed from the true meaning of Urban Renewal. This is a program for all the people, by the people. We must also develop a recreational program. We may have to form a recreational authority or we may broaden the powers of the Park Commission to include such a program for people of all ages, not only to entice our Summer visitors, but our own people as well.

Respectfully yours,

Urbain Goulet, Chmn.

CONSTABLE

TOWN MEETING MEMBER

WARRANT

FOR ANNUAL TOWN MEETING

To: Frederick J. Egan, a constable of the Town of Old Orchard Beach, in the County of York and State of Maine.

GREETINGS:

In the name of the State of Maine, you are hereby required to notify and warn the voters of the Town of Old Orchard Beach in said County, qualified by law to vote in town affairs, to meet at the High School in said town, on Monday the second day of March A.D. 1964, at 7:30 P.M. then and there to act on Articles numbered 1 through 146, all of said Articles being set out below, to wit:

Article 1. To choose a Moderator to preside at said meeting.

Article 2. To hear and act on the report of the Councilmen and other town officials.

Article 3. To see if the Town Meeting will vote to apply all surplus monies to decrease the outstanding \$50,000 tax note.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Approval.

Article 4. To see if the Town Meeting will vote to accept the Wage Schedule presented to the Council by the Town Meeting Members Wage Schedule Committee.

COUNCIL RECOMMENDS: Approval - as pertains to Fire Department, Police Department, School Patrol - 1.25 per hr., Public Works Department, Sanitation Department, Treatment Plant Superintendent, Town Hall Custodian, Administration.

BUDGET COMMITTEE RECOMMENDS: Approval - as presented by Town Council.

Article 5. To see if the Town Meeting will vote to raise and appropriate the sum of \$50.00 to be used for decorating graves on Memorial Day, under the direction of the American Legion.

COUNCIL RECOMMENDS: \$50.

BUDGET COMMITTEE RECOMMENDS: \$50.

Article 6. To see if the Town Meeting will vote to authorize the Town Council to grant a 1% discount on 1964 taxes paid by August 1.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Approval.

Article 7. To see if the Town Meeting will vote to raise and appropriate the sum of \$4,000 to carry out the Purpose of Article 6.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Approval.

Article 8. To see if the Town Meeting will vote to authorize the Park Commission to operate a Public Parking Area for hire during the season of 1964 and to pay over to the Town Treasurer all receipts each day. Disbursements for ordinary and necessary operating expenses to be made by the Town Treasurer upon approved vouchers signed by a majority of the Park Commission and approved by the Town Council as prescribed in the Revised Statutes of 1954.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Approval.

Article 9. To see if the Town Meeting will vote to authorize the Park Commission to expend \$1,500 from Parking Lot Income for the care of trees.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Approval.

Article 10. To see if the Town Meeting will authorize the Town Council and the Town Treasurer to sell and assign unmatured tax mortgage liens for not less than the amount unpaid, plus interest and costs.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Approval.

Article 11. To see if the Town Meeting will vote to authorize the Town Council and Town Treasurer to sell and dispose of property acquired by Tax Process, on such terms as they deem advisable and for the best interests of the Town, and to execute quit-claim deeds for the same or any action thereto.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Approval.

COUNCIL RECOMMENDS: No recommendation.

BUDGET COMMITTEE RECOMMENDS: As indicated.

Article 117. To see if the Town will authorize the Town Council to negotiate for the purchase of the land and building commonly known as the old Railroad Station, and appropriate \$5,000. for a down payment, with a bond issue to be paid from Parking Lot Revenue.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Authorization and \$5,000.

Article 118. To see if the Town Meeting will vote to raise and appropriate the sum of \$350,750.91 for schools.

COUNCIL RECOMMENDS: No recommendation.

BUDGET COMMITTEE RECOMMENDS: \$335,554.12.

Article 119. To see if the Town Meeting will vote to raise and appropriate the sum of \$55. to install a light on the side of the Town Hall to light Veteran's Square.

COUNCIL RECOMMENDS: \$55.

BUDGET COMMITTEE RECOMMENDS: \$55.

Article 120. To see if the Town Meeting will vote to rebate the sum of \$450. to Saul Shrem for excessive personal property tax.

COUNCIL RECOMMENDS: Does not recommend.

BUDGET COMMITTEE RECOMMENDS: Indefinite Postponement.

Article 121. To see if the Town Meeting will vote to adopt an Ordinance prohibiting live music, dancing and all entertainment of any sort in establishments licensed only for the sale of malt beverages.

COUNCIL RECOMMENDS: Adoption.

BUDGET COMMITTEE RECOMMENDS: Adoption.

Article 122. To see if the Town Meeting will vote to raise and appropriate the sum of \$1,212.57 for the purchase of a new Police car with delivery date of about May 1st, and for rental of the present Police car until September 8th.

COUNCIL RECOMMENDS: \$1,212.57.

BUDGET COMMITTEE RECOMMENDS: \$1,212.57.

Article 123. To see if the Town Meeting will vote to raise and appropriate the sum of \$300. for five traffic signs to be erected at main entrances to the Town and the four arteries leading from the Beach.

COUNCIL RECOMMENDS: \$300.

BUDGET COMMITTEE RECOMMENDS: Indefinite Postponement.

Article 124. To see if the Town Meeting will vote to accept as public ways, the following streets and extensions as laid out by the Council:

King Street from West Grand Avenue to West Surf Street
Pinehurst Ave. from Fern Park Avenue to Grove Ave.

Knoll Street, 200 ft. westerly from Cascade Road

Old Salt Road from its present terminus to the B&M Railroad property

Arbutus Ave., northeasterly from Fern Park Ave., a distance of 120 ft.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Approval.

Article 125. To see if the Town Meeting will vote to accept North Street so-called, as laid out by the Town Council from its present terminus at the southwesterly side line of Seaview Avenue to Bluff Avenue, a distance of 450 feet.

COUNCIL RECOMMENDS: No Recommendation.

BUDGET COMMITTEE RECOMMENDS: Indefinite Postponement.

Article 126. To see if the Town Meeting will vote to raise and appropriate the sum of \$400. to raise the level of Atlantic Avenue at the junction of Saco Avenue, down Atlantic Avenue, approximately 100' to correct a drainage problem.

COUNCIL RECOMMENDS: \$400.

BUDGET COMMITTEE RECOMMENDS: \$400.

Article 127. To see if the Town Meeting will vote to raise and appropriate the sum of \$190. to repair the sidewalk on Bay Avenue.

COUNCIL RECOMMENDS: \$190.

BUDGET COMMITTEE RECOMMENDS: \$190.

Article 128. To see if the Town Meeting will vote to raise and appropriate the sum of \$1,200. to install a sewer on Regio Avenue to serve eleven (11) houses and twenty (20) unit motels.

COUNCIL RECOMMENDS: \$1,200.

BUDGET COMMITTEE RECOMMENDS: \$1,200.

Article 129. To see if the Town Meeting will vote to raise and appropriate the sum of \$225. to extend the sewer on Wildwood Lane approximately seventy-five (75) feet.

COUNCIL RECOMMENDS: \$225.

BUDGET COMMITTEE RECOMMENDS: \$225.

Article 130. To see if the Town Meeting will vote to raise and appropriate the sum of \$900. to install a sewer line on Imperial Street from 34 Imperial Street to Hoffman Street.

COUNCIL RECOMMENDS: \$900.

BUDGET COMMITTEE RECOMMENDS: \$900.

Article 131. To see if the Town Meeting will vote to raise and appropriate the sum of \$995. to re-lay 330 feet of sewer line on Staples Street.

COUNCIL RECOMMENDS: \$995.

BUDGET COMMITTEE RECOMMENDS: \$995.

Article 132. To see if the Town Meeting will vote to raise and appropriate the sum of \$200. to replace 100 feet of sewer line on Longwood Avenue.

COUNCIL RECOMMENDS: \$200.

BUDGET COMMITTEE RECOMMENDS: \$200.

Article 133. To see if the Town Meeting will vote to raise and appropriate the sum of \$3,000. to install a sewer line on the southerly side of Ocean Avenue to Reggio Avenue.

COUNCIL RECOMMENDS: \$3,000.

BUDGET COMMITTEE RECOMMENDS: \$3,000.

Article 134. To see if the Town Meeting will vote to raise and appropriate the sum of \$2,475. to relay the sewer line on Oceana Avenue, northwesterly from Seaside Avenue to a point in front of lot No. 29 Oceana Avenue, a distance of approximately 450 feet.

COUNCIL RECOMMENDS: \$2,475.

BUDGET COMMITTEE RECOMMENDS: \$2,475.

Article 135. To see if the Town Meeting will vote to authorize the appointment of two additional permanent firemen and to raise and appropriate \$6,808. for this purpose.

COUNCIL RECOMMENDS: \$6,808.

BUDGET COMMITTEE RECOMMENDS: \$2,976 for one.

Article 136. To see if the Town Meeting will vote to authorize an additional patrolman for the Police Department and to raise and appropriate \$3,640. for this purpose.

COUNCIL RECOMMENDS: \$3,640.

BUDGET COMMITTEE RECOMMENDS: Indefinite Postponement.

Article 137. To see if the Town Meeting will vote to raise and appropriate the sum of \$500. for planting flowers and trees in various sections of the Town. Said sum to be taken from Parking Lot Income.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Approval.

Article 138. To see if the Town Meeting will vote to raise and appropriate a sum of money to grade and gravel North Street from Seaview Avenue, westerly, a distance of 150 feet.

COUNCIL RECOMMENDS: Does not recommend.

BUDGET COMMITTEE RECOMMENDS: Indefinite Postponement.

Article 139. To see if the Town Meeting will vote to raise and appropriate the sum of seventy dollars (\$70.00) to reimburse Mrs. Claire Soule for damage caused by storm drain backing up.

COUNCIL RECOMMENDS: Approval.

BUDGET COMMITTEE RECOMMENDS: Indefinite Postponement.

Article 140. To see if the Town Meeting will vote to raise and appropriate the sum of \$300. to install two Catch Basins at the intersection of Pine and Eden Lanes, a distance of approximately 75 feet.

COUNCIL RECOMMENDS: Dry Wells.

BUDGET COMMITTEE RECOMMENDS: Indefinite Post-

Article 141. To see if the Town Meeting will vote to raise and appropriate the sum of \$300. to grade and gravel extension of Foote Street, Wesley Blvd., and Francis Street.

COUNCIL RECOMMENDS: \$300.

BUDGET COMMITTEE RECOMMENDS: \$300.

Article 142. To see if the Town Meeting will vote to raise and appropriate the sum of \$225. to grade and gravel Knoll St.

COUNCIL RECOMMENDS: No recommendation.

BUDGET COMMITTEE RECOMMENDS: Indefinite Postponement.

Article 143. To see if the Town Meeting will vote to raise and appropriate the sums indicated to grade and gravel the following public ways:

Lewis Avenue	—	150 ft.	—	\$400.
--------------	---	---------	---	--------

Girard Ave.	—	150 ft.	—	\$400.
-------------	---	---------	---	--------

Beecherii Ave.	—	75 ft.	—	\$200.
----------------	---	--------	---	--------

COUNCIL RECOMMENDS: \$1,000.

BUDGET COMMITTEE RECOMMENDS: \$600. (Lewis Ave. \$100; Girard Ave., \$400; Beecherii Ave., \$200 - for a total of \$600.)

ponement.

Article 144. To see if the Town Meeting will vote to grade and gravel the following street: Arbutus Ave. northeasterly from Fern Park Avenue, 100 feet at a cost of \$200.

COUNCIL RECOMMENDS: \$200.

BUDGET COMMITTEE RECOMMENDS: \$200.

Article 145. To see if the Town Meeting will vote to adopt the "State of Maine Plumbing Codes," as approved by the Maine State Board of Plumbers.

COUNCIL RECOMMENDS: Adoption.

BUDGET COMMITTEE RECOMMENDS: Adoption.

Article 146. To see if the Town Meeting will vote to adopt the "State of Maine Oil Burner Code" approved by the State of Maine Insurance Department Oil Burnermen's Licensing Board.

COUNCIL RECOMMENDS: Adoption.

BUDGET COMMITTEE RECOMMENDS: Adoption.

Given under our hands this 24th day of February, A.D. 1964.

Office of Town Manager

To All Citizens of Old Orchard Beach:

It is a privilege and a pleasure to report to you a summary of the activities continued under the direction of the Council and Administrative heads of our Town Government during the year 1964.

Our only industry is "The Cleanest Beach in the World", and being a vacation community, our situation is unique in that we suddenly become the heaviest populated area in the State for several weeks, following several months of being a comparatively small community.

We have tried to face our obligations realistically and are determined to perform the greatest service for our taxpayers with the greatest possible efficiency and savings.

We are grateful for the untiring efforts of our Town Meeting Members, the splendid work of the many civic-minded citizens serving on the various boards and committees, our local newspapers, department heads, and employees of each and every department.

To the Town Council the undersigned wishes to express sincere appreciation for their cooperation and confidence and a salute for their devotion to the responsibilities entrusted to them.

Respectfully submitted,

LEON F. JONES

Town Manager

HIGHLIGHTS OF PROGRESS

1963-1964

Police Department and Fire Department under Civil Service.

Year around Police Car augmented by rental car during season.

Interceptor sewer line and treatment plant completed.

East Grand Avenue and sidewalks re-paved.

New dump truck, sewer cleaning machine, back hoe attachment and second-hand sidewalk plow purchased for Public Works Dept.

Section of West Grand Avenue re-paved, new culverts and catch basins, with State Aid Funds.

Completed second phase of five-year re-surfacing plan.

Corrected or eliminated drainage problems at various trouble spots including the foot of Union and Atlantic Avenues and Old Orchard Street, St. John Street, School Street, West Grand Avenue, Milliken Street, Foote Street and Wildwood Lane.

Some ten (10) outdated hotels and other buildings razed and being replaced by modern motels, parks or parking lots.

Plans prepared for bid to enlarge and renovate the Jameson School, the High School and build a new gymnasium.

Ross Road rebuilt and surfaced with State Road Improvement Funds.

150-acre housing project under development on Cascade Road.

Zoning Ordinance being prepared by Planning Board.

Efforts to raise \$2,000,000 for Municipal Building and Civic Center through Federal and State funds initiated.

Continuing program for care of trees especially in the elimination of Dutch Elm disease.

Report of Town Clerk

DEATHS	81
MARRIAGES	77
BIRTHS	103

Esther S. Crowley, Town Clerk

Report of Park Commission

The Park Commission again operated the Municipal Parking Lot and deposited a sum in excess of \$10,000 to the Town Treasurer. The appearance of the parking lot and Veteran's Memorial Park were greatly improved with the planting of new trees and the installation of 400 feet of chain link fence. The Commission's long range blueprint is to completely enclose this area with similar heavy duty fencing.

The Commission again supervised the Recreation Department. A scheduled basketball league was operated and the skating rink was opened on a regular time schedule, under supervision. Basketballs, for the outdoor courts, were located at easily accessible locations. The Federal School swings were donated to the Commission by the Lions Club and were moved, repaired, and are now located adjacent to the Heath Street Shopping Center. The Central Park Playground will be completely set up for tennis after the addition of end line fences. It is anticipated that this work will be completed before the summer season commences.

The members of the Commission sincerely thank those members of the Women's Civic Group for participating in a joint effort to beautify the town.

Respectfully submitted,

William F. Farrington, Chairman

LAURA H. WASHBURN
Librarian

Report of Health Officer

The following complaints were received and investigated:

Cesspools and septic tanks	11
Private dumps	3
Garbage (open cans, strewn on ground, etc.)	3
Sanitary conditions of yards	2
Sewer difficulties	4
Unsanitary homes	1
Donkeys	1
Ponies	1
Rodents in unoccupied building	1

Numerous other complaints of various nature were received and investigated.

Upon investigation of a complaint of an over abundance of domestic animals in a private home, the situation was corrected with the cooperation of the Dog Officer.

It became necessary to request assistance from the Dept. of Sanitary Engineering, State of Maine Health and Welfare relative to sanitary conditions discovered in a Motel-Cabin establishment. The proprietor refused to fully comply with existing regulations as prescribed by the State Law. After many inspections, the situation was corrected to the satisfaction of the State Dept. of Health and Welfare.

Communicable diseases were reported as received.

Several trips to Portland were made for the purpose of obtaining the proper State authorization seal stamped on vaccination certificates.

Conditions in the Halfway Section were greatly improved as a result of the sewer project in that area.

House trailers locating in residential sections of Town are still creating problems.

Sanitary inspections of restaurants, hotels, motels, cabins, etc., were made again with State Inspectors, to avoid conflict of authority.

MILLARD H. PALMER,
Health Officer

Report of Planning Board

We are honored to report to you, the activities of the Old Orchard Beach Planning Board during the year of 1964.

Being mindful of the projected reports of the U.S. Department of Commerce that there will be a great population increase in this area by 1970.

And being mindful that the Planning Board's basic function is to insure the orderly growth of the community, in regard to land use. And also being mindful that great understanding must be employed in order that no inequity is done to an area, the Board engaged in the following activities:

1. Sewall & Co. of Old Town were employed, headed by Mr. William Dixon, to draft zoning ordinance and plans.
2. Attorney Bernard Shur of Portland was retained to review the legality of said ordinances.
3. General hearings were conducted.
4. Special District hearings were held.
5. After all hearings, the planning board, has re-submitted the zoning plans to be revised in accordance with the majority view of the people in the various districts.

The revisions are expected to be completed in the near future.

I would like to take this opportunity to thank the members of the Planning Board, Mrs. Marie Migner, Secretary, and Messrs. Henry Rudy, Roger Tousignant, Harry Dowd, Jerome LePelletier and Roger Dube for their time and cooperation. We are also deeply appreciative to the Town Council and Town Manager for their advice and cooperation.

Below, you will please find the Board's Financial Statement for 1964.

Respectfully,
LEO F. LAROCHELLE
Chairman

Report of Superintendent of Schools

To The School Committee and Citizens
of Old Orchard Beach, Maine

It is my pleasure to submit to you my annual report of your schools.

Never in our history has greater interest in education been shown. Citizens have an appreciation of education, not only in our progress as a country, but in our very survival.

To provide the program and experience which will meet the increased demands of this ever changing age in which we live, education must have the confidence and support of our informed and understanding public, alerted to the good of the public schools, and to the needs which must be met if these goals are to be realized.

To assist you, the citizens and parents, I would like to make the following statements in hopes that the obligations and rights of the School Committee and Superintendent may be better understood, and that you the parents, may better understand your rights and responsibilities. Education is legally a state function. State law grants to a School Committee almost absolute control. The emphasis is on the word committee. Individual members, on the other hand, have no authority outside the committee. It is a set up which depends for its effectiveness on team play . . . the ability of members of the committee to discuss problems clearly and to seek a solution harmoniously. The School Committee, the policy making body, by its deliberations, sets an example which is important to the whole school system. The National Education Association News of November 12, 1948 has this to say about a good School Committee member: ". . . stands firm for the welfare of the children even in the face of adverse local pressure, insists on securing a good professional staff, insists on adequate and modern tools of learning; promotes sound and educationally defensible school budgeting which will give unqualified opportunities to children; backs up the administrative staff, recognizing their professional standing . . . He is willing to fight on the side of educational integrity."

Good public relations may be enhanced by the correct approach to a problem involving your child and his school. It is always best to go through proper channels. I suggest this order of approach. (1) Make an appointment with the child's teacher. Keep the conversation on a high plane, the emphasis being on what is best for the child and how we can help each other build a better child. There is a slogan that says, "Building Boys is Better than Mending Men." If this interview is not satisfactory to the parent, then comes step number (2). Make an appointment with the principal and follow the same routine as outlined under number 1. If this interview is still not satisfactory to the parent, try step number (3). Make an appointment with the Superintendent of Schools and follow the same procedure as outlined above. Failure to receive satisfaction in this interview with the Superintendent will mean, at your request, arrangements will be made for you to present your problem to the School Committee. I am sure that this method will bring quicker and better results than simply complaining to your neighbor or cornering a School Committee member who cannot act on his own.

You, the parents and citizens can further improve the educational facilities for your children by insisting that Town Officials continue to provide the funds necessary to allow for a well rounded educational program along with badly needed improvements at the High School. As you know, the Industrial Arts program no longer meets state standards and next year the Home Economics program will fall in the same category. Much improvement is needed in our science and mathematics program, as will the Physical Education program.

In the following pages will be found the detailed reports of the principals and heads of the various departments.

To the School Committee, for their whole-hearted cooperation in all matters of policy, I wish to express my personal thanks. They have made the year a successful and happy one. The citizens of Old Orchard Beach owe them a debt of gratitude for their unselfish giving of their time and abilities.

To the principals, teachers and to every other person who works in any capacity in our schools and for our children, may I say that I am truly grateful for your cooperation and dedication in the service of our common cause.

Respectfully submitted,
BERNARD C. FORBUSH

HIGH SCHOOL

The high school opened with 312 pupils, and has stabilized at about 306. In order to accommodate more classes for juniors and seniors, it has been necessary to use the cafeteria as a full time classroom for biology and senior home room, and to use the former entrance hall of the gymnasium as a classroom for one division of freshmen. As a result, we no longer offer hot lunch to the high school and we must use the former girls' locker room as a teachers' room. Space and obsolescence have become our most serious problem.

Our facilities in science, industrial arts, and home economics have reached a crisis stage this year. It should be noted that this problem of facilities is separate and distinct from the problem of overcrowding. For example, even if the high school population were cut in half, we would still not be able to meet minimum standards for these subjects in equipment and furnishings. Be-

cause we could not grant graduation credit for industrial arts this year, it has been necessary to convert the former shop area into a mechanical drawing and drafting room. While we can give graduation credit for this course, one must remember that the course does not really serve the best interests of all shop students who are taking it. Similarly, home economics will lose graduation credit two years from now. Unless the proposed alterations become a reality very soon, our general course students are going to be severely handicapped for later life.

There are three main courses of study offered by Old Orchard Beach High School: commercial, college, and general. The commercial course is now designed to prepare students to enter secretarial work. With this as a goal, the course is very successful. The school has placed in immediate post-graduation employment almost all of the students trained in general secretarial work. However, the course does not fully meet the needs of those students who wish to enter general clerical work, such as clerk-typists or business machines operators. The space problem has prevented us from adding courses in general clerical work and advanced work in office machines and bookkeeping. However, remodeling will give an extra room to allow for these important subjects.

The college preparatory course offers excellent background for students in the areas of French, mathematics, English, social sciences, and the descriptive sciences. We are, however, somewhat deficient in laboratory sciences because of our facilities, and laboratory sciences have become an important part of college freshman work. Nevertheless, this high school has one of the most rigorous programs of college preparatory work in the state, requiring four years of study in English, social and physical science, languages and mathematics. The citizens of Old Orchard Beach should be proud of the excellent record of success maintained by graduates of the high school in colleges around the country, even though they have been in stiff competition from fully equipped schools in the area.

The general course is not as successful as our other programs. Here we are unable to offer the student the actual skills he will need later in life. The present shop program in drafting and industrial mechanics is excellent for the technical student of industrial arts, but is not particularly suited for the student wishing training in such fields as automotives or electronics. Similarly, home economics is handicapped by outmoded facilities and cer-

tainly can not prepare girls adequately for their important roles as homemakers and mothers. Again, these problems should be solved with adequate facilities.

The standardized testing program at the school is under the direction of Mr. Frank Duley, Director of Guidance for the school. This program includes the Otis I.Q. Tests, the Kuder Vocational Aptitude Tests, and the Iowa Tests of Educational Development. The guidance department is also responsible for the administration of the National Merit Examinations, for scholarship information, and for assisting the Maine State Employment Service in administering tests for post-graduate employment for seniors. Also available to the students are the Scholastic Aptitude Tests, the Preliminary Scholastic Aptitude Tests, and various specialized tests in guidance and aptitude. The guidance department works closely with teachers, students, and parents to assist the student in developing his full scholastic potential. More and more parents are learning the value of this complete guidance program and are actively working with the department.

Our advanced seminar programs have been moving ahead this year. Modern Mathematics I has been augmented by a new seminar in Modern Mathematics II, both given by Mr. North. A pilot seminar in astronomy has started, and several more seminars are projected for next year. Seminar courses meet weekly for one semester, offer advanced work within the field, and require intensive research by the student. Such programs represent a new development in secondary education in Maine but will probably spread to other schools within the area.

The library has grown to 2,600 volumes in the past year. While this is far from the goal of 6,000 volumes, it does offer encouragement. This year the library started a card index system for these books, and much credit must be given the students who have worked as librarians during their study halls throughout the year.

New equipment has been added this year to several classrooms. The school now has an excellent mathematics laboratory purchased in part with NDEA funds. Because of this federal money, the cost to the school was less than had regular desks been installed. In addition, this laboratory made the older desks available to the hallway and biology classrooms. The shop has been

equipped with new drawing tables and drafting equipment. This equipment will serve in the new industrial arts area when it is constructed.

The janitors painted all the hallways and lavatories during the summer. However, we have done only minimum maintenance in the gymnasium and locker rooms. Because it was assumed that renovations would have been started in these areas early in the school year, it was felt that the annual refinishing of the gym floor and painting of the locker rooms would have been a needless expense—especially since Old Orchard Beach does not use its gymnasium for basketball games any more.

Finally, we must recognize that we owe a great debt of thanks to our faculty. These teachers have worked unceasingly in spite of difficult pupil and class loads, unsatisfactory working conditions, and inadequate facilities. In the end it is the attitude and quality of the teachers who set the standards of education. In this respect I feel that Old Orchard Beach High School is without peer.

JEROME A. LePELLETIER,
Principal

JAMESON SCHOOL

I herewith submit the report of the Jameson School beginning January 1, 1964 and ending with the year December 31, 1964.

As principal of the Jameson School, I have found my work both challenging and interesting.

REGISTRATION

Enrollment - Dec. 31, 1964	238
Enrollment - September	228

This increase is not unusual, consisting primarily of late entrants and transfers.

Enrollment by grades:

Grade 3 (2 rooms)	— 46
Grade 4 (3 rooms)	— 79
Grade 5 (3 rooms)	— 91
Grade 4 & 5 (1 room)	— 22

Total	238
-------	-----

TRANSPORTATION

Transportation by one bus route presented a problem in overloading. The Half-Way-Ocean Park run developed into a standing room only proposition as the winter months brought in the bicycle riders. This was solved by making the short run to the Halfway traffic circle and returning. This accounted for enough pupils to cover the required safety laws. Even with the additional run, our transported pupils have all left the building twenty-five minutes after the close of the afternoon session.

The breakdown in areas is as follows:

Halfway	— 38
Ocean Park	— 31
E. Grand, Milliken Mills, Portland Ave.	— 37
	<hr/>
Total	105

HOT LUNCH PROGRAM

The Hot Lunch Program continues to be most popular with the students. Mrs. Smith and her two co-workers, Mrs. Armstrong and Mrs. Burke are most capable, friendly, and helpful. The lunch is well prepared and efficiently served. They are also fortunate in the able and friendly assistance given them by the janitor, Mr. French. The Federal School uses the cafeteria for their hot lunch pupils. This has presented problems, not the least of which, being a necessary change in the time schedule of the Jameson School. The morning classes close at 11:30 instead of 11:45 to accommodate the Federal School schedule. *If* and *when* the existing school building plans become an actuality, a return to the former schedules should be possible.

FIRE DRILLS

Fire Drills are set up the first week of school in September and are carried out periodically. The building can be cleared in 30 seconds or less.

PHYSICAL EDUCATION

As we have no Physical Education instructor each teacher carries on his own program. Except in inclement weather, a thirty minute weekly period of supervised games or exercises are conducted on the playground. When outdoor activity is not possible, the classroom or cafeteria is used.

SCHOOL BANKING

This activity is purely voluntary but each classroom teacher encourages his pupils to participate. As a result a good percentage of the student body avail themselves of the opportunity to practice the savings habit.

SCHOOL DRIVES

The two school sponsored drives, Junior Red Cross and March of Dimes were well received. Practically 100% of the student body participated in both of these worthwhile functions.

PENMANSHIP

We are continuing the Rinehart Writing System. The teacher carries out the instructions left by the supervisor, Miss Caddigan. These are left with the principal of the building when the students' writing specimens are collected. The supervisor visits the classrooms of any teacher wishing instruction in any phase of the work. New teachers are given special considerations. Specimens are sent back to the school in the form of *gold seals*, *gold stars*, and *blue stars*. We have to date had a goodly number of gold seals.

PARENT CONFERENCES

We were fortunate this year to have a week of parent conferences during National Education Week. This included a night session. It enabled all parents, working and otherwise, to schedule interviews with their child's teacher. The turnout was most satisfying. These conferences have been of much value to the *child*, *parent*, and *teacher*. We hope they may continue.

COMBINATION GRADES

For the second year we have found it necessary to use our teachers' room and nurse's room for a classroom. This is small and hard to ventilate. It houses a combination grade (4 & 5), which in better surroundings, would not be desirable. We are fortunate, however, in our instructor, Mrs. Desjardins. She is doing an excellent job under trying conditions. This of course will be alleviated *when* and *if* the Jameson addition becomes a reality.

MODERN MATH

We are going along with suggested procedures for the introduction of Modern Math. The first three grades will be the beginning group for the year 1965-1966. This will mean, as of now, two classes at Jameson. I hope that all of the teachers will get the opportunity to engage in some training program in this field as we will, most of us, in the very near future, be expected to teach it.

SPELLING

Spelling as part of any linguistic science consists of six major features, namely, *Vocabulary, mastery technique, discovery technique, written expression, testing, and multi-level approach* (ability grouping). We have decided that our spelling texts, being some 15 years old and only in the hands of the instructor, do not meet these needs. We are requisitioning new texts for grades 3, 4, and 5. These, we hope, will help to produce more *accurate spellers, provide for differences in individual ability, and contribute to the written expression.*

May I express my sincere appreciation to the teachers of the Jameson School, Superintendent Forbush, and the Superintending School Committee for their interest and cooperation.

Respectfully submitted,
HELEN MARSHALL,
Principal

FEDERAL SCHOOL

To the Superintendent of Schools
and the Board of Education:

I herewith submit the report for the Federal School for the year 1964.

CONDITION OF BUILDING

The one major repair of shingling the roof on the Jameson side of our building has improved those classrooms on that side to the extent that all is dry and comfortable in the five rooms. The floors have been scraped down and rewaxed. Generally speaking, I would say our building is in good condition.

TEACHING MATERIALS & AIDS

We were able to add to our new teaching materials this year. The 7th grades are enjoying "The Scholastic Literature Unit". This is designed to introduce students to worthwhile literature, thus enabling them to become mature readers. The 8th grade set purchased last year is the next step and we feel that by following through with this program, our pupils will be more able to cope with the increasing new ideas in literature.

CURRICULUM

Mathematics

This year one group of eighth graders studied Algebra. We find these students have advanced in their abilities to think out problems easily through the Algebraic equations. Two divisions of eighth graders have eighth grade workbooks, plus their text books. The sixth and seventh math books deal with social, economic and business life of today.

English

The programs in the 6th, 7th, and 8th grades are organized in conjunction with "A Guide to Learning" issued by the State Department of Education.

Our program is divided into three main units. Elements of English grammar, is designed to prepare students to best employ their language skills and serves as a basis for those units dealing with composition and literature.

During the time spent on composition work the students acquire knowledge of form and organization through the use of the laboratory entitled "Organizing and Reporting Skills". The skills so acquired are then applied in the writing of essays and short stories.

The Literature unit revolves around the study of the new Scholastic Literature unit entitled "Courage". During this instruction in the reading of literature, some selections are read and studied by all of the students. The unit includes material of different levels of difficulty, thus providing for individual differences.

Reading

The reading skills acquired from the Science Research Laboratories are carried over into a regular reading program which stresses comprehension of material, interpretation of facts, and retention of that which is read.

Spelling

The weekly plan of the Basic Keys to Spelling Series makes a distinctive contribution to the spelling instruction. This series instructs the students in technique to use for new, unfamiliar, or different words. Students learn to make generalizations as to *Why* and *How* they are spelling words correctly.

Health Education Classes

Health education classes are being held every Tuesday by the school nurse. We are studying the need of good nutrition as a basic foundation for health and its effect on the individual personality.

Each class has extra reading material on a variety of health topics. Personality booklets are used in the 7th and 8th grades.

Sports Programs

All boys in this building have a program of sports that can be used by each and every one. We compete in the local area organized leagues. We have an intramural program that is conducted in basketball during the month of March. Regardless of ability, if the boy has a desire, there is a place for him on a team.

REPORT OF TESTING

Annually several standardized examinations are conducted in this school. Early in the school year the Otis Quick-Scoring Mental Ability Tests are administered to grades seven and eight. Alternate Beta forms are used. In March eighth grade students take the SRA High School Placement Test. In May the Standard Achievement Test Battery is administered to grades six and seven.

GUIDANCE CLASSES

Weekly Guidance classes are held for the eighth grades. These students use SRA's "My Education Plans", a guidance workbook. This program is geared toward the realistic choice of a high school course of study with emphasis upon academic and vocational areas.

Respectfully submitted,
CATHERINE G. NEILON,
Principal

ELEMENTARY SCHOOL

To the Superintendent of Schools
and the Board of Education:

A statistical report for the Elementary School on School Street for the year 1964 follows in detail.

ENROLLMENT

Junior Primary	94
Grade 1	98
Grade 2	104
Grade 3	47

Total	343
-------	-----

The enrollment for the fall term was 343 pupils. The enrollment for the school year September 1963 to June 1964 was 354.

The pupil load per teacher averaged about 25 pupils to a class. This number in a classroom allowed the teacher to work individually with the pupils and to work with small groups stimulating elaborative thinking.

The transportation, again this year, was under the supervi-

TRANSPORTATION

sion of Mr. Robert York. The teachers were on duty daily from 7:45 a.m. to receive and care for the first bus load of pupils who arrived by 7:55 a.m. In the afternoon at the close of school the teachers were again on duty to load the buses and they remained on duty until the last load of pupils left our school at 3:30 p.m.

There were 182 pupils transported to the Elementary School during the fall term. This number was 54 less than during the previous school year.

FIRE DRILLS & AIR RAID DRILLS

These Safety Drills as in former years were conducted periodically during the year to keep the children *alerted* in the event of an emergency. Regular class room discussions in safety were held and the children were made aware of the necessity of practical day to day preparedness.

HOT SCHOOL LUNCH & MILK PROGRAM

The Hot Lunch program has been ably handled by the same cafeteria personnel as last year. During the lunch hour two teachers and our janitor were on duty caring for the needs of the 200 children who remained at school for lunch. Our cafeteria, although a basement room, has four exits—there are two doors and two emergency exits for safety consisting of hinged windows with steps leading to them. During recess nearly 200 children have had milk daily in the classroom.

BANKING

The School Banking program conducted each Tuesday morning in conjunction with the Saco and Biddeford Savings Institution has been, I believe, a most useful program. The children have become aware of the importance of thrift and the value of periodic saving. This has been a part of our school program for many years, and we advocate its continuance.

TESTING & REPORT CARDS

As in former years the teachers of the First Grade administered Kuhlman Anderson Intelligence Tests to all their pupils in November before report cards were issued.

During the fall term Otis Intelligence Tests were given to all Second and Third Grade pupils who were new in our system. These tests were administered by the teachers of Grades Two and Three.

Last May the Junior Primary teachers tested their classes with the Science Research Association Mental Tests. The pupil profiles or results of these tests were filed as in previous years with the pupils' cumulative records. These records will move on with the child grade by grade until he graduates from high school or leaves our school system, thus giving an unbroken account of progress throughout his school years with us.

Report Cards were issued at nine week intervals. Parent-Teacher Conferences were held during National Education Week. Parents are welcome to visit their children's classes at any time. By so doing they will then know first hand what their schools are offering to their children.

PHYSICAL EDUCATION - MUSIC - WRITING - ART

During the year, classes in Physical Education were conducted daily by the class room teachers.

Classes in Music and Art were also taught by the teachers.

The Rinehart Writing System was continued during the past year. The supervisor visited our school once every six weeks, collected and checked the children's test papers and left the assignment for the next six weeks.

FIELD TRIPS

Field Trips were taken during the year in conjunction with Social Studies and Science. The following places were visited by the four Second Grades—namely the Fire Station and the Libby Memorial Library. The two Third Grades visited the Saco and Biddeford Savings Institution.

HEALTH

The children were checked periodically by the school nurse and a record of their communicable diseases and other important material was kept on file for each child.

JUNIOR RED CROSS

Junior Red Cross projects consisted of making place mats for trays at the Augusta State Hospital and making decorative nut cups for the patients at the Veterans' Hospital at Togus.

GRADE TEACHER MEETINGS

As in previous years the teachers held grade meetings once a month and discussed mainly the curriculum in Reading, Phonics and Arithmetic. General meetings of all the teachers in the Elementary School were held when it was deemed necessary.

The teachers have worked untiringly for the advancement of all the pupils. Progress was foremost in their minds. After school "Helping Classes" have benefited the slow-learning child as they have benefited the pupils who required make-up work due to illness.

In closing, I wish to express my sincere appreciation to Mr. Forbush, the School Committee, supervisors and parents for their cooperation. The task of the school is not merely to impart knowledge but also to develop appropriate attitudes for living and playing together. Too frequently school pressures crowd out the social dimensions of education.

Respectfully submitted,
MARGARET H. SIMPSON,
Principal

ENTERING AGE

Six years of age on or before October 15th of the school year shall be admitted to grade one.

Five years of age on or before October 15th of the school year shall be admitted to Junior Primary.

SCHOOL STORM SIGNALS

The no-school signal will be sounded by the fire alarm signal at 7:30 o'clock a.m.

It is advisable to listen to radio stations WIDE, Biddeford, WCSH and WGAN, Portland, as announcements will be made.

Weather reports are not always reliable and since the School Department desires to tender maximum educational service by having school in session the greatest number of days, storm signals will not be used when there is reasonable doubt.

Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

MEETINGS

The School Committee holds its regular monthly meeting at the Jameson School on the third Wednesday of the month at 7:30 p.m.

Report of School Physician

It is again my privilege to submit my report on the physical examination of the pupils in the Old Orchard Beach schools.

Considering the possibility of what might be classified many times as minor trauma, or injuries sustained while participating in competitive sports; it was deemed advisable to inoculate these individuals with Tetanus Toxoid, thus eliminating the possibility of a serious infection. This procedure was carried out last April in the junior and senior high schools. Physical examinations were given last August to these groups before they began football practice—also attending those players who received injuries at the local games.

I am hopeful that with a larger gymnasium and equipment, sometime in the future, that all pupils will be able to participate in a compulsory physical education program. There were four hundred and sixteen examinations, exclusive of those related to sports activity.

The following is a list of abnormal findings.

Cardiac, eight; Allergies, two; Dermatological, six; Dental, three; Throat, six; Nervousness, one.

Routinely parents are informed about those conditions that should have attention.

The general health of all pupils appeared to be excellent.

Very truly yours,

DONALD S. SKILLING, D.O.

School Physician

SUMMARY OF MATERIALS AND TOPICS USED

IN HEALTH EDUCATION CLASSES IN 1964

1. Healthful nutrition

Studied basic four foods groups, and applied study to daily diet. Drew discussion to study of "hot and cold lunches" and teen age habits towards snacks. Tried to develop a good basic diet.

2. Dental health

Stressed personal daily care for cleanliness, protective diet, with regular dental care.

3. Posture
Put emphasis on "standing tall" according to each individual child's growth. Background discussion on hereditary family structure and height and weight picture for individuals. Stressed growth stages and exercise with healthful routine for full growth.
4. First Aid
Used the Junior Red Cross First Aid textbook for study and discussion. Stressed the prevention of accidents in the daily routine at home, school and community.
5. Communicable diseases as chicken pox, mumps, measles and the common cold discussed particularly as they develop in the community and were a point of interest. Other disease conditions fitting to the moment as the time of the Heart Drive, TB in connection with aid received thru Christmas Seal Sale in fighting this disease. and the State Health Department's Survey program. Other conditions as cancer, diabetes, polio and birth defects were studied and discussed enough for a common sense understanding of disease processes according to the age range of the group. Stress was given to the school health program, and the need of cooperation between home and school in matters of individual and community health.
6. Personal problems
Maturity difficulties and early teen age interests were discussed.

First Aid Texts	Health Heroes
Who Me	How Old Are You
My Reflections	Coach Calls the Signals
	Overweight and Underweight

School Nursing Report

January of 1964 and thru the winter term was as with other winters a busy season from the usual colds, grippe, flu conditions and the common communicable diseases amongst the children.

Our Health Education classes were carried on with the Junior High grades stressing the all-important need for good nutrition as a basic foundation for all health habits.

The Hot Lunch program sets a good example for the children in its daily job of serving several hundred a healthful meal. It also provides for a group of needy children each year and serves as a health protection for them that otherwise might be lacking. The Junior High students, who serve as helpers in the school lunch kitchen have an opportunity to learn thru practical experience about the lunch program; in observing the preparation and serving, along with the very important job of helping to clean up after the daily meal. Parents, teachers and children all say "thanks" for this program.

Along with our basic study of nutrition we stressed other health habits such as a regular routine for sleep, rest and exercise, dental care and personal hygiene, plus with our older students candid discussions of the emotional problems of maturity so important to these groups entering their teen age years. The answers to some problems may be found quite often while stressing the need for a clean scrubbed skin and scalp. Personal hygiene, if it's lacking, can be a very serious hurt to a boy or girl because of the consequences in the group he or she is a part of in their school life.

The problem of head lice does crop up and when it is found repeatedly in the same family group over a period of time one can only feel quite certain that it was never completely cleaned up much to the distress of friends and neighbors children!

The major projects of our Spring term along with the social welfare needs which because of their personal nature must be kept confidential were two clinic services.

Our State Health Department had asked that the Junior Primary class and the Seventh Grade groups be tested for T.B. These two groups were selected because of the big growth periods these ages are a part of. From babyhood to small child and from young child to teen age level we find very rapid growth periods and consequently, a chance for the body to be low in resistance and more liable to disease contact.

147 took the TB Tine test and the results were sent to the State to be included with the tests found in other towns for T.B. study. We were happy that we found no active disease amongst the children.

The second clinic service was the giving of tetanus toxoid shots to the Junior High and the High School athletic groups as a health accident protection.

99 shots were given in this service and we hope to be able to do more of this type of protection this coming Spring.

During the Fall Term all of the grade school children were weighed and measured and a good portion of this work recorded, and questions of gain in growth and weight noted.

Medical checks have been completed in the Jr. Primary, Fourth and Eighth Grades, plus all the new students in the grades by our School Doctor. Dr. Skilling also examined the Junior High and High School students who were going to be in the athletic program in late August, then checked all the Junior class plus the new students in the High School group. Total number of exams 416.

The response to the Sight Survey Program continued to be excellent. Dr. Polackwich completed vision tests with the Junior Primary, First, Fourth, and Seventh Grades plus the Freshman class and the Driver Training group. He also re-tested some "vision problems" carried over from last year's file. Total number of tests 480.

The parents were notified of all defective vision needs and advised by personal note of the type of problem involved. This last item has been much appreciated by the parents. Conferences with the High School students regarding their individual sight problems were very worthwhile as shown by their good cooperation. Our local Lions Club and the Maine Medical Center helped with some financially needy cases in obtaining eye care.

We appreciate the help given by individuals and organizations to our school service to meet various needs of the students from physical, mental and emotional problems. Without their help much less would be accomplished.

Yours respectfully,
AGNES V. MURPHY, R.N.
School Nurse

Report of School Visual Consultant

The Controlled School Vision Testing program has assured the personnel involved of real value and benefits derived by the school children of Old Orchard Beach.

The parents have cooperated with my assistant, Mrs. Agnes Murphy, R.N., with the necessary follow-ups as indicated by the records kept.

The T/O School Vision Tester procured last year has aided this program immeasurably.

All Sub-Primary children are screened for ocular abnormalities and visual defects.

The School Vision Tester is used in the rest of the school system.

The Controlled program is carried out as follows:

1. Driver Training class at Old Orchard Beach High School screened.
2. Conference with Industrial Arts Division
3. All Freshmen plus questionable cases from previous year are tested
4. Sub-Primary children are checked using the Clinical 6 point method
5. Grades 1, 4 and 7 checked with School Vision Testing unit
6. All intermediate grades, questionable cases and teacher referrals are sent to the eye clinic for vision testing

In my opinion this is a well planned and administered program in which reliable tests and procedures are used.

Good Vision Programs are rewarding in benefits to so many children who otherwise would remain handicapped in their seeing abilities because of unrecognized difficulties.

This control program will provide us with valuable information on students from Sub-Primary through senior year in High School.

Cooperation of the School Board, Superintendent, teachers and faithful assistance of Mrs. Agnes Murphy, R.N., makes this undertaking a pleasant task and personally I am justifiably proud of a school health program second to none.

Respectfully submitted,
STEPHEN J. POLACKWICH, O.D.

Report of Urban Renewal Authority

Our report for the year of 1964 is very brief. Our activities were somewhat restricted by the new Federal law that we have to comply with. Our "Workable Program" was not recertified this year due to the change of the law, which states that "A Zoning ordinance and a building code" are now a requirement to qualify for a "Workable Program". This is very unfortunate, for we may lose Federal assistance in the Town's future programs. The Chairman of the Planning Board felt quite sure that a zoning ordinance and a building code would be adopted in January or February of this year.

The members of this board have been working quite hard in giving assistance to the Civic Building Committee in obtaining Federal aid from the ARA and the Accelerated Public Works program.

At our June meeting, we changed the date of our Annual Meeting from July to January to correspond with the fiscal business of the Town of Old Orchard Beach.

The future looks quite bright with the possibility of a new Civic Building, however, if for some reason this project falls through, new programs will have to materialize if we want to safeguard our economy and tax structure.

Respectfully Submitted,
URBAIN A. GOULET, Chmn.

Report of Fire Department

DEPARTMENT ACTIVITIES FOR 1964

216 Calls Answered:

8 Out of Town Calls:

2 False Alarms:

9 Emergency Calls: (Resuscitator)

Respectfully Submitted,
LEWIS R. WHARFF
Fire Chief

Report of Police Department

Submitted herewith are the reports of activities and arrests of the Police Department for the year 1964.

Having completed the first full year under the Civil Service Act, I believe the feeling of security and independence from the political campaigns reflected itself in the morale and behavior of the members of the Department as well as in the increase in the number of arrests made during the year.

The addition of two walkie-talkie radios to our communications system last year and the prospect of obtaining other much needed equipment will add greatly to the efficiency of the department.

On behalf of the Department I wish to extend thanks and appreciation for the cooperation extended to us by Town Officials and citizens during an extremely busy year.

John H. Clark, Chief

John E. Marshall, Capt.
Philip J. Levecque, Sgt.
Jean Paul Lacroix, Sgt.
Gordon McAllister, Ptlm.
Wilfred Goulet, Ptlm.
Paul Tibbetts, Ptlm.

REPORT FOR YEAR OF 1964 ARRESTS

AWOL	2

- 192 Trips to schools, sick students taken home

Report of Weights & Measures

The following is a report of all weights and measures tested for the year ending December 31, 1964.

Tested 26 gasoline pumps and found all in good working order.

Tested 65 different type scales. Two of these were not in good working order, but they were repaired and retested for accuracy.

I would like to express to all people that I contacted, my appreciation for their kindness and cooperation.

Respectfully submitted,
 RUSSELL A. RIX

Report of Electrical Inspection

We had a total of 119 electrical wiring permits issued of various types. All were inspected and 18 routine complaints were investigated.

ARTHUR J. ROBIDA,
Electrical Inspector

Report of School Building Committee

The plans for additions and renovations for the Public Schools have been placed out on bid by the Council of the Town and we are awaiting the due date for the calling in of same.

The overall plans call for a four-classroom addition to the Jameson School, a complete new gymnasium connected to the present High School, conversion of the present gymnasium into three classrooms on the second floor and a new Industrial Arts room on the ground floor.

Other renovations are to be made on existing classrooms. All plans have been submitted to the State Department of Education by our architect, Mr. Irving Hersey of Durham, New Hampshire, and have been approved.

On behalf of myself and the Building Committee, composed of the following: Mrs. Mary Cushing, Mrs. Pauline Gordon, Mrs. Ellen Clark, Mr. Prescott Verrill, Mr. Irving Hirst and Mr. Joseph Garland, we extend many thanks to the School Committee, Mrs. Mary Smith, Mr. Louis DeAngelis and Mr. Jerome Plante and to Superintendent Forbush and Principal Jerome LePelletier, for their untiring effort and cooperation.

JOSEPH D. MOKARZEL,
Chairman

Report of Public Health Nursing

The following is a report of visits made during the past year:

Adult Health	27
Antepartum	1
Cancer	43
Communicable Disease	4
Cardiac	22

Crippled Children	14
Infant	5
Morbidity	662
Preschool	18
School	19
Tuberculosis	20
Tuberculosis Contacts	11
Welfare	145

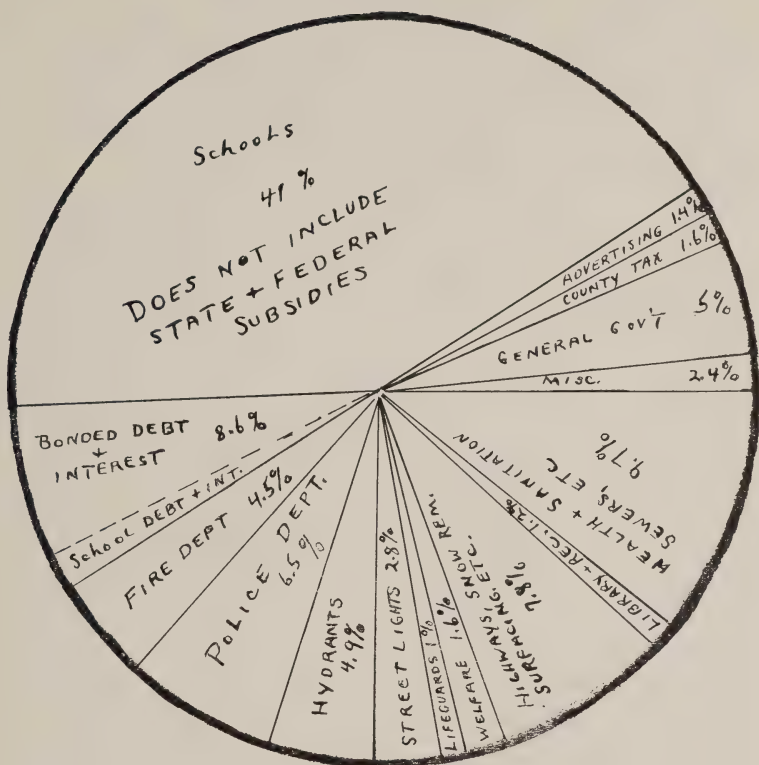

There were 10 Well Baby Clinics with a total of 112 children in attendance. The Sabin Polio vaccine was again offered at the Well Baby Clinics. A total of 189 attended these clinics. This will be available each Spring for new babies or anyone who may be lacking any of the series.

10 trips were made to Portland clinics, 2 to Biddeford.

To Mrs. Marion Beaudette for her continued help with the clinics, to the doctors for their cooperation, and all those who have helped in any way, I wish to express my sincere appreciation.

Respectfully submitted,

HELEN CURRY, R.N.

TOWN OF OLD ORCHARD BEACH
STATEMENT OF CHANGES IN SURPLUS

YEAR ENDED DECEMBER 31, 1964

	Appro- priated	Unappro- priated	Total
Balance, January 1, 1964	\$31,003.27	\$18,828.65	\$ 49,831.92
Increases -			
1963 Welfare Medical Bill not yet settled due to question as to Town's liability	1,894.70		
Funding Balance of Prior years' Tax Anticipation Notes	40,000.00		
Appropriation Balances Lapsed - Schedule C		20,391.11	
Miscellaneous Adjustments		89.01	62,374.82
Total	\$72,897.97	\$39,308.77	\$112,206.74
Decreases -			
Misc. 1963 Adjustment	.32	(.32)	
Reserve for Tax Losses		2,831.22	
Reserve for Lien Losses		724.20	
Appropriated for Welfare		15,000.00	
	\$.32	\$18,555.10	\$ 18,555.42
Balance of Surplus, December 31, 1964	72,897.65	20,753.67	93,651.32

SCHEDULE E-1

EXAMINING SURPLUS

Surplus is a book figure and does not necessarily reflect a corresponding cash balance. Surplus includes, among other items, all of the uncollected taxes and tax liens held by the Town. Thus, it is possible (and usually the case) to have a surplus of many thousands of dollars without any cash in the bank with which to pay bills and meet payrolls. Until such time as taxes can be collected *in full in the same year in which they are assessed*, this situation will continue. By obtaining the published reports of any municipality the situation outlined above will be the same. This is also true of private business and a study of the reports of any large corporation will reveal that cash in the bank and surplus

do not agree by many millions (in some cases hundreds of millions). I have argued for years that the word *surplus* is misleading. It tends to produce a feeling that there is sufficient cash to pay bills and meet payrolls—that the Town has operated carefully and that there has been no waste of funds. Both of these statements are untrue.

1. As explained previously, uncollected taxes make up most of the Surplus total and are not converted into cash until some future date.
2. Surplus does not necessarily indicate careful management and prudent expenditure of appropriations. It should be obvious that if one can get a large enough appropriation from the Town Meeting Members such appropriations can then be expended without regard to actual need and in some cases over-expended (overdrafts).

The unappropriated surplus at the end of this year is \$20,753.67. This consists of the following:

Balance from 1963 Surplus not appropriated at 1964 Town Meeting	\$ 3,829.21
Miscellaneous 1964 Receipts	88.77
Excess License Income not appropriated	1,102.87
Excess Parking Lot Income not appropriated	353.75
Excess Excise Taxes not appropriated	5,362.36
1964 Supplemental Taxes	2,557.35
1963 Supplemental Taxes	246.00
Excess Interest Income not appropriated	3,277.48
Miscellaneous Police Revenue	1,024.00
Net Overlay after abatements	6,251.11
	<hr/>
	\$24,092.90

Less -

Excess of appropriations from	
Excess of Comfort Station	
Parking Meter Revenue	\$ 200.49
Expenses over receipts	2,008.85
Reserve for Tax Losses	3,555.42

Total	<hr/>	\$5,764.76
-------	-------	------------

Net Surplus from sources other than operations	\$18,328.14
Excess of unexpended balances over overdrafts	2,425.53

Unappropriated Surplus 12/31/64	<hr/>	\$20,753.67
---------------------------------	-------	-------------

WARRANT

FOR ANNUAL TOWN MEETING

To: Frederick T. Hayes, a constable of the Town of Old Orchard Beach, in the County of York and State of Maine.

GREETINGS:

In the name of the State of Maine, you are hereby required to notify and warn the voters of the Town of Old Orchard Beach in said County, qualified by law to vote in town affairs, to meet at the High School in said town, on Wednesday the third day of March A.D. 1965, at 7:30 P.M. then and there to act on Articles numbered 1 through 114, all of said Articles being set out below, to wit:

ARTICLE 1. To choose a Moderator to preside at said meeting.

COUNCIL RECOMMENDS:

BUDGET COMMITTEE RECOMMENDS:

ARTICLE 2. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate for Administration expenses for the year 1965.

COUNCIL RECOMMENDS: \$21,000

BUDGET COMMITTEE RECOMMENDS: \$21,925.00

ARTICLE 3. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate to purchase a pick-up truck for the Public Works Department.

COUNCIL RECOMMENDS: \$2,300.00

BUDGET COMMITTEE RECOMMENDS: \$2,300.00

ARTICLE 4. To see what sum of money, if any, the Town Meeting will vote to raise and appropriate for Street Lights.

COUNCIL RECOMMENDS: \$23,161.20

BUDGET COMMITTEE RECOMMENDS: \$23,161.20

ARTICLE 5. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate for use by the Junior Chamber of Commerce to publicize and promote their Annual State Convention to be held at Old Orchard Beach May 21, 22, 23.

COUNCIL RECOMMENDS: \$500.00 (from Advertising)
BUDGET COMMITTEE RECOMMENDS: \$500.00 (from Advertising)

ARTICLE 6. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate to assist in the Library Association.

COUNCIL RECOMMENDS: \$9,000.00
BUDGET COMMITTEE RECOMMENDS: \$9,000.00

ARTICLE 7. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate for use of the AMVETS State Convention to be held June 4, 5 and 6, 1965.

COUNCIL RECOMMENDS: \$500.00 (from Advertising)
BUDGET COMMITTEE RECOMMENDS: \$500.00 (from Advertising)

ARTICLE 8. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate for the purpose of continuing adult evening art classes at the Old Orchard Beach High School for the purpose of pursuance of art.

COUNCIL RECOMMENDS: \$150.00 (for Old Orchard Beach residents only)

BUDGET COMMITTEE RECOMMENDS: \$150.00 (for Old Orchard Beach residents only)

ARTICLE 9. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate to install a sewer on Temple Ave., westerly, from Ninth Stret, a distance of 200 feet.
COUNCIL RECOMMENDS: \$600.00

BUDGET COMMITTEE RECOMMENDS: \$600.00

ARTICLE 10. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate to extend the sewer line on Oceana Ave., northwesterly from its present terminus in front of Lot. No. 29 to a point in front of Lot No. 47, a distance of approximately 500 feet.

COUNCIL RECOMMENDS: Indefinite Postponement

BUDGET COMMITTEE RECOMMENDS: Indefinite Postponement

ARTICLE 11. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate to install a sewer line on Tioga Ave., easterly from Seaside Ave., to Surf St., a distance of 300 feet.

COUNCIL RECOMMENDS: \$900.00

BUDGET COMMITTEE RECOMMENDS: \$900.00

ARTICLE 12. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate to install a sewer line on Randall Ave., westerly from Seaside Ave., to West Grand Ave., a distance of 250 feet.

COUNCIL RECOMMENDS: Indefinite Postponement

BUDGET COMMITTEE RECOMMENDS: \$750.00

ARTICLE 13. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate for defraying expenses of the Memorial Day Parade under the direction of the Memorial Committee.

COUNCIL RECOMMENDS: \$300.00

BUDGET COMMITTEE RECOMMENDS: \$300.00

ARTICLE 14. To see what sum of money, if any, the Town Meeting will vote to raise and appropriate for salary and travel expense of Health Officer.

COUNCIL RECOMMENDS: \$500.00 (travel included)

BUOGET COMMITTEE RECOMMENDS: \$500.00 (travel included)

ARTICLE 15. To see what sum of money, if any, the Town Meeting will vote to raise or appropriate for advertising in "Maine Invites You" for the year 1965.

COUNCIL RECOMMENDS: \$347.60 (Advertising)

BUDGET COMMITTEE RECOMMENDS: \$347.60 (Advertising)

ARTICLE 16. To see if the Town Meeting will fix a date of April 1st when taxes shall be due and payable and to see if the Town Meting will fix a rate of interest of six (6%) percent to be charged on taxes unpaid after October 1st, for the year 1965.

COUNCIL RECOMMENDS: Approval

BUDGET COMMITTEE RECOMMENDS: Approval

ARTICLE 17. To see if the Town Meeting will vote to authorize the Town Council and Town Treasurer in behalf of the Town, to sell and dispose of any real estate acquired by the Town for nonpayment of taxes thereon, on such terms as they may deem advisable, and to execute quit-claim deeds for such property.

COUNCIL RECOMMENDS: Approval

Dyer, William F. Farrington, Helene H. Fowler, George W. Freeman, Jr., Edith E. Gallant, Joseph A. Garland, Urbain A. Goulet, Daniel R. Guarino, Arthur R. Guerin, Jr., Clayton C. Harding, Samuel Harrisburg, Frederick T. Hayes, Adelbert M. Jakeman, Sr., Ervin S. Jalbert, G. Stephen Johnston, Cora Keene, Ellen Lamb, Ralph Lariviere, Leo Larochelle, Joseph V. Lenkowski, Gertrude Leonard, Cecile McNeill, Marie Migner, Joseph D. Mokarzel, Catherine T. Murphy, Norman E. Pare, Hiram V. Parish, Alexander A. Pike, Austin C. Presby, Edmund E. Rowell, Harry E. Rowell, Henry A. Rudy, Michael J. St. Ours, Charles S. Sherman, Maynard W. Shorey, Albert Warren, Leon A. Cole, Russell K. Smith, Richard J. Sweet, Stephen Tarazewich, Jr., Jeffrey Thompson, Jr., Mary C. Tousignant, Herbert E. Trafton, Henry T. Wells, James Vakos, James S. Zafirson

Municipal Building Committee:

Leo F. Larochelle, John H. O'Neil, Urbain A. Goulet, Conrad E. Hebert, Louis DeAngelis, C. Russell Durant, Ervin S. Jalbert, Leon F. Jones, David K. Marshall, Nicholas W. Danton.

School Building Committee

Joseph D. Mokarzel, Mrs. Ellen Clark, Mrs. Laurel Cushing, Joseph A. Garland, Mrs. Pauline Gordon, Irving R. Hirst, Prescott L. Verrill, Sr.

HIGHLIGHTS OF PROGRESS — 1965

Beach Cleaner and Sanitizer purchased.

Busiest Season in history.

West Grand Avenue reconstruction continued.

Elimination of Town Meeting form of Government, in favor of Council-Manager form of government.

High School renovated and new gymnasium constructed.

Zoning Ordinance adopted.

Building Code adopted.

Section of West Grand Avenue repaved, new culvert and catch basin, from State Aid Funds.

Completed third phase of five-year resurfacing plan.

Some 10 out-dated hotels and other buildings razed, and being replaced with modern motels, parks or parking lots.

Continuous program for care of trees, especially in elimination of Dutch Elm disease.

Report of Town Clerk

Births	98
Marriages	83
Deaths	90

Respectfully submitted,

ESTHER S. TAYLOR

Town Clerk

Report of Park Commission

The Park Commission, as in the past, operated the Municipal Parking Lot in the Veteran's Memorial Park. We installed a double face metal arrow, 9 feet long and 3 feet wide, reading "Parking - 50c." This was mounted on a 6" steel pole and was outlined in neon. Receipts, probably as a result of this \$465 investment were \$2614 over the preceding year. The intake for the summer of 1964 was \$10,242 compared to \$12,857 last summer. The Park's lawns, trees, and shrubbery were maintained under the supervision of the Parking Lot Manager who was assisted by his regular employees and enrollees of the Neighborhood Youth Corps.

During the winter months we sponsored an 18 game basketball program for the town's out-of-school citizens. Four different teams with 10 member rosters competed and the refereeing was done by physical education teachers from the local area.

A 10 foot Main Line Fence was installed around the basketball court at the Central Park Playground. This area was supervised during the summer months by a Neighborhood Youth Corps enrollee. He policed the area daily and provided the youngsters with basketballs and nets. With the cooperation of Public Works Foreman Armand St. Hilaire, we were able to bulldoze the existing tree stumps from the playground thus making it possible to install other playground equipment for the summer of 1966.

The Recreation area in the Veteran's Memorial Park was under the supervision of the Neighborhood Youth Corps. The Commission purchased new fibreglassed seats for the swing set and

also provided basketballs, softballs, bats and badminton sets for the youngsters.

The Commission authorized the Goodall Tree Expert Co., Inc. to commence a tree program which consisted of the following: pruning, \$400; dormant spraying, \$400; survey, \$100; (one-third of Town); scouting, \$100. We have commenced the Bidrin inoculations as an additional tool to help us in controlling and conquering Dutch Elm Disease.

Our capital improvement program within the Veteran's Memorial Park was tabled by the Town Council. The proposal in capital improvement consisted of installing 896 feet of chain link fence to meet the existing fence installed a year ago. Also turned down by the Council was a 150 foot curb stone in the parking area adjacent to our Lombardy Poplars.

We again wish to thank the Women's Civic Group for the excellent job they did in beautifying the town by planting flowers, shrubs and trees.

Respectfully submitted,

Report of Superintendent of Schools

To the School Committee and Citizens
of Old Orchard Beach, Maine

It is with pleasure that I submit to you my annual report of the public schools of Old Orchard Beach. Following this report is a detailed report from the principals of various schools and department heads.

WHERE IS THE OLD ORCHARD BEACH SCHOOL SYSTEM HEADED?

Introduction

The sustained effort for the advancement of the Old Orchard Beach Public Schools has continuously revealed itself as two interdependent movements, one representing the financial support of the progress and the other representing the nature of that progress.

As American society advanced into a highly technological state, with specialization of occupations as a natural concomitant, the home relinquished its diversity of effort and the schools in turn began to expand and extend their programs to make

room for those displaced services. To what extent this expansion of the schools both horizontally and vertically has represented a mandate of our society, and to what extent it has reflected the eagerness of an alert profession to take over a bankrupt stock, has never been determined.

Exactly what should have been included in the school program and what should have been left out, regardless of society's inability to handle these matters in the home or elsewhere in the community, will never be completely agreed upon. In fact, it continues to furnish the state and local community the food for controversy. As one state legislature or local community of education enthusiastically provides funds for this or that facet of the educational program, another will follow just as enthusiastically with an investigation of another offering. Although at times a bit disconcerting to school administration, there is something mighty wholesome about these honest differences of opinion.

When somebody speaks out against the schools or criticizes, our first inclination is to criticize the criticism, as though education possesses an immunity to inspection. Far better is it for us to know (1) what are we doing, (2) why are we doing it, and (3) that it is better than something else we might be doing, than for us to rush to the defense of our program as though it were a citadel sacred only to the keepers.

At any grade level, the educational diet that demands the labor of concentrated chewing will stay with a person longer than that which has been watered down to a point of asking nothing of the consumer but to swallow. It is time that America has asked that we educate all American youth, but we must always distinguish between education and mere attendance.

As we strive to reach the goal of educating the whole youth of Old Orchard Beach, so we must in time bring more specialized teachers into the system and they in turn will demand more and varied materials to accomplish their respective jobs. As our schools advance in their ability to educate so must the budget. Operational costs must go up mainly because of five factors:

1. The increase in population.
2. The trend to educate an increasing percentage of the population and for a longer period of time.
3. The up-grading in the standards for teaching.
4. The increasing cost of living.
5. The addition of special school services.

With the basic thoughts mentioned above firmly in mind, the main purpose of this monogram is to present the questions facing the future of the public schools of Old Orchard Beach and in turn to transform these into a long range program as a guide to the type of education we want our youth to obtain and a financial plan to make the goal obtainable.

Some of the basic issues affecting the course of our schools are:

1. What do we mean by education? Is training the same thing?
2. What should be the roles of the teachers?
3. Should the public schools be concerned with all that we mean by education?
4. If the school has a number of purposes, should these be given equal emphasis in the classroom or in the total curriculum?
5. With reference to all that students learn in school, what constitutes the curriculum?
6. What are the standards in the schools? Where do they come from?
7. Should standards be the same things as grades or course objectives?
8. Should student achievement be evaluated in relation to fixed standards or in relation to individual progress goals?
9. Should the educational needs of all the children and youth in Old Orchard Beach have equal weight in shaping school policies and offerings?
10. To what extent should the curriculum emphasize the "here and now"?
11. What criteria should we establish for selecting subject matters?
12. Should the schools of Old Orchard Beach provide curriculum opportunities for the "all-round" educational growth of the boys and girls? If not, what kind of learning experience should be excluded?
13. What are the educational opportunities in our schools outside of the formal curriculum? Are the objectives of these activities as important as those governing the formal?
14. What changes, if any, should be made in our philosophy to meet the rapidly changing school society?
15. What are the long-range plans for the curriculum of Old Orchard Beach Schools?

16. What plans should we adopt to make sure physical plants, equipment, and supplies are readily available when the need arises?

LONG RANGE PLANS

An exact definition of the word "education" is next to impossible because of the evolving nature of knowledge and the ever new demands that advancing science and technology make upon modern man, therefore, it takes on some of the aspects of Einstein's Theory of Relativity, that is to say education is relative to time and place. However, the central task of the schools is to equip individuals for effective life-long learning. The school leaders must continually evaluate and adjust to changing needs. This cannot be misinterpreted to mean that we must anticipate needs and be willing to take a stand in regard to needed change. It can be achieved only by a careful nurturing of the child's natural impulses to understand himself and the world around him, and the gradual transformation of these impulses into a series of searches for meaning pursued at higher and higher levels with steadily increasing independence.

We have talked a lot in the past about individual differences and individualized instruction, but practices in our schools have remained very largely group instruction practices. The old stereotype "class" and "grade" die hard. Although we know it is the individual who learns, we continue to teach the class to expect the individual to adapt himself to the proper rut. The problem of pacing is only slightly alleviated by ability grouping, because the range of differences in modes of learning, in readiness to learn a particular thing at a given time, varies enormously within any group that can be created.

The above idea of what the job of our schools is, may seem rather nebulous, however, any definition of a more restrictive nature would result in a status quo which would spell suicide of our country.

The remainder of this paper shall be devoted to the overall plan of developing and maintaining a school system in Old Orchard Beach that will fulfill the needs for the next few years. It is our intent not to imply the importance of one phase above another but for the sake of simplicity and clarity, we shall take up the following phases separately:

1. The teacher and administration
2. The student
3. The curriculum
4. The physical plant and equipment

THE TEACHER

Generally, to speak of the schools is to conjure up in the public's mind the image of a building. It would be closer to the truth were the word school to bring into mind a picture of the teacher. The teacher makes the school. The teacher-learning situation is centered in a warm human relationship.

The teacher is the key to everything else. If we introduce machine operations, it is to reduce the teacher's clerical duties or to free dollars to buy teaching service. If we experiment with teaching by television, it is to find ways to make master teachers more effective. If we revise our course outline, by new textbooks, or by providing testing service, or employ attendance workers, it is only to aid the teacher in the job of teaching. All of this is to provide more for our young people in educational opportunities. In this sense, the teacher also is a means to an end, but a human means for the most human of purposes, the development of young people.

We in Old Orchard Beach should continue our practice of providing teachers who help students develop their abilities and desire to learn, who are enthusiastic, patient, curious and tolerant, who are able to think critically and help others develop that capacity, who have the ability to grow intellectually, who are dedicated to teaching, who motivate children to think and to learn, and who know fully the subject matter they are to teach.

To accomplish this goal we must maintain a harmonious atmosphere within the school system, and we must strive to, first of all, place our salary schedule on a competitive basis and secondly keep it high to attract the best of teachers available.

In looking toward the future serious consideration should be given to the possibility of including the services of an elementary guidance counselor, and teachers' aides to accomplish some of the menial tasks now being done by the teacher which does take time from their teaching duties.

Although many teachers presently employed in Old Orchard Beach are more than fulfilling their obligations towards professional advancement, we should make plans to encourage more of our staff, not only to fulfill their requirements but work towards advanced degrees and in a field within the realm of their teaching in Old Orchard Beach.

Industry noted years ago that the day of the Jack-of-all-trades had outlived its usefulness. Somewhere we in education missed the boat and are still insisting that our teachers in the elementary school teach all discipline to their groups. As we

all know, teachers excel in one discipline and shy away from areas in which they feel inadequate. Actually, this has not been an outstanding problem in the past because most children were exposed to a number of teachers with many interests. However, in the new day of technical and social advancement, we can no longer afford to allow the child's complete development to chance. We, must in the future seek out teachers with outstanding abilities in specific fields and allow them to work only in this field, (this particular report will be dealt with more deeply under curriculum) or have the services of a subject supervisor for teachers.

All teachers within the system should have the opportunity to observe both the horizontal and vertical aspects of the curriculum. This will tend, not only to improve methods within a given grade level, but give teachers a better understanding of the work and problems of other levels, and to insure better coordination of the effort in determining and presenting the specific goals on each level, the evaluation of the continuity of the program, identifying and discussing the weaknesses over the grades, and thus qualifying themselves as co-workers in curriculum construction and improvements.

THE STUDENT

Much has been learned over the years through psychology, sociology, anthropology, and related sciences pertaining to the child's general growth patterns, and acquisition of knowledge. Just to sight a few finds that should be seriously considered with respect to the knowledge the teacher should possess and the ideas that should be considered when developing a curriculum, we might point to the following: physically an average girl is at least a year older in maturity when she enters school and retains this lead well into adolescence. Boys and girls assimilate academic materials in exact opposite ways. Students interests vary from one age level to another, and these are known but seldom put to use. As most elementary schools are now operated, the girl has a distinct advantage over the boy. Female teachers, through no fault of their own, impose the female approach to learning, however, on the other hand, male teachers find it difficult to adapt to primary teaching.

The student, in most cases looks up to and imitates the parents. This is as it should be, but the parent must be taught to set the standards that are in agreement with best learning ideas in order that the student be more receptive to academic work. Therein lies the problem, for the student must be the object of a joint venture of both the parent and teacher. There is much the parent can and must be willing to do to see that

his child can get the most out of education. By the same token the teacher must be willing to develop a close working relationship with the parent.

Of primary importance is the fact that our children and youth are growing up in a world that differs radically from that of the past. The difference lies partly in the tremendous expansion of knowledge during the recent years and the marvelous technological developments which are changing the ways of man everywhere. It has also resulted in the increased necessity for vigorous effort if, as a nation, we are to maintain our status and leadership in the emergency strategy of peace as contrasted with the strategy of war, and also in the urgent need of preserving and improving the way of life which, as a people, we cherish.

As a result of these and other significant developments, children and youth face strong societal pressures to learn more broadly and thoroughly than formerly and for longer periods of time. In response to the new and challenging needs which are emerging, education is taking on a new seriousness of purpose. The hope of individual welfare and social progress in the future lies in a higher quality of educational processes and product.

THE CURRICULUM

Can the curriculum be designed anew to reflect all we know and still have to find out about the learning process? Only to the extent that we are clear about the goals of education can we devise satisfying school programs. New ideas and experiments would be needed in the decade ahead. For education is a creative process in which principles that have served their day expire and new principles are born. The curriculum in Old Orchard Beach has changed radically from what it was prior to World War II. However, a review of these changes indicates that some changes were made for the sake of change alone and did not reflect much of the knowledge of the teaching and learning processes available.

Changes in the future should reflect all we know about the teaching-learning processes. These changes should involve not only the administrative staff, but teachers, parents and professional help from any source available. It should make sure that the adoption of new materials be timely, that is to say we must plan the materials within the program at the time they pose the greatest amount of receptiveness from the student. Materials should be added or deleted from the program merely on merit of their worth. Perhaps the most thought provoking aspect is the deletion of materials from the program that

merely add to the already over-whelming array of factual statements (rote memory) in favor of materials that will cause the student to think. Critical thinking is an art that is foreign to far too many students today. The mere fact that Johnny can parrot back factual statements is not a sign that he is being given the tools for effective further learning and effective living. Our programs today, and in the future, must be devised to cause Johnny to weigh ideas and assimilate many ideas into solution for problems of his own.

In Old Orchard Beach's commitment to the future, serious thought and investigation should be given to the ungraded primary unit for this approach is a means of making functional a philosophy of education that recognizes recent advances in areas of child growth and development. It is a way of adjusting teaching and administrative procedure to meet the differing social, mental, and physical capacities among children. This unit is not a method of teaching or a departure from established procedures long established and used by good teachers. It is rather an administrative tool to encourage and promote a philosophy of continuous growth. As is known today, children do vary in their readiness and in their rate of growth.

All grades should be fully equipped with the various audio-visual aids such as motion pictures projections, slide and film strip projectors, record players, opaque projectors, tape recorders, T.V., mock-ups, working models, and other apparatus that will help bridge the gap between the concrete and the abstract. Care should be exercised in the sequence of purchase and the type of service on all equipment. At the present time it would be contrary to the best interest of teaching to purchase teaching machines for the programming, which is the key to this device, is not developed to a desirable degree. That is to say that as the program is now set up it calls for one and only one correct answer to a problem and as we are all aware, most problems can yield more than a single correct solution. Furthermore, such a program, if gone to extremes, would produce a group of children as much alike as peas in a pod.

Our present system of text books and equipment purchasing should definitely be continued, but the plan should allow for the purchase of additional equipment so that our educational system becomes dynamic rather than remain static.

The upper grades should continue to be involved in the departmental system with emphasis on the factor that all teachers work only within their major field.

We should be looking towards a curriculum change that would possibly call for a change in entrance age of children into the primary unit, a change from broad field subject content in the primary unit to essential tool subjects at this level with other subjects entering the scene at a later date, and more emphasis on areas that are of real problems to the child at whatever level we may find him. As mentioned above the ungraded primary unit has possibilities of alleviating the existing problem build-up at the Junior High level. The program should also be broadened in scope to include more than the confines of the classroom as an educational setting. Because of the stepped up pace that society is placing on our children, the program should include more of the cultural and dexterous fields

THE PHYSICAL PLANT

Old Orchard Beach is on the move, this year has seen the construction of an addition and renovation to Old Orchard Beach High School. This will set our High School end of public education in order for some years to come; provided that sufficient funds are available to purchase new equipment to keep abreast of the ever changing demands of education. However, there is a pending elementary school problem on the horizon. Plans should get underway immediately to work on the situation before it becomes an emergency. May I suggest that plans for a new elementary school be seriously considered at this time, and also the advantages on placing any such building in the general local of the Federal, Jameson, and High School area

Respectfully submitted,
BERNARD C. FORBUSH

ANNUAL HIGH SCHOOL REPORT TO THE SUPERINTENDENT

January 1, 1965 — December 31, 1965

The school year of 1964-65 proved to be extremely difficult in the high school. To accommodate our enrollment of 314 students, it was necessary to convert the former hallway entrance of the gymnasium into a classroom for social studies and use the cafeteria as a senior homeroom and biology classroom. Because we did not offer girl's physical education until September 1965, the former girl's locker room was converted into a teachers room and the former teachers' room into the nurse's office. However, with the opening of our new classrooms in the spring of 1966 space and facility problems will no longer be a problem. Construction of the new gymnasium and conversion

through December. Needless to say, it is extremely difficult of the old started in early May of 1965 and has continued to concentrate against a background of jack-hammers and bulldozers, but somehow both teachers and students have done excellent work under adverse conditions. Upon completion of this work, Old Orchard Beach High School will have one of the finest school plants in the state.

The library has grown to about 3100 volumes. This summer library work was greatly assisted by two Youth Corps workers who copied and filed catalog cards for all the books of the library. Because each book required several cards, this project involved the making and filing of over 16,000 cards. With Youth Corps librarians, the high school library also remained opened every school day until 5:00 P.M. Under a cooperative plan with the Edith Belle Libby Library, the high school will become the storage repository of back-issues of the public library's periodicals. These periodicals will be filed at the high school and will be cataloged in both libraries. Citizens wishing back issues of periodicals will be able to obtain them from the high school repository. I wish to thank the Trustees of the Public Library for their cooperation in this matter.

The Guidance Department under Mr. Frank Duley administered the following standardized tests throughout the year: Otis I.Q. tests, the Iowa Tests of Educational Development, the Scholastic Aptitude tests, the Kuder vocational Aptitude Tests, and the National Merit Examination. In conjunction with the Maine State Employment Service, the Guidance Department administered specialized Tests for post-graduation employment. The following is a record of our follow-up studies of the 64 seniors who received diplomas in 1965:

Work force	21
4 year college	17
2 year college	1
Nursing	1
Practical nursing	2
Business school	7
Specialized and technical schools	7
Married (women)	2
Armed forces	5
Post-graduate	1

It should be noted that Old Orchard Beach High School has an excellent record with about 55% of our graduating class engaging in some type of post high school education and 27% attending four year colleges.

In September 1965 the high school offered girls' physical education for the first time in several years. Though the program has been severely handicapped by lack of a gymnasium, Mrs. Justina Samuel, the instructor, has provided the girls with much background work in health and physical education in general. The importance of physical education for girls cannot be stressed enough. While many boys will enter the armed forces and receive further physical training, most girls will not. Proper physical education is essential for the health and well-being of tomorrow's mothers and home makers.

New teachers on the faculty include Mrs. Justina Samuel in girls' physical education, and Mr. Dewey Thompson in biology. Our entire faculty is to be congratulated on the excellent work they have done under the most difficult conditions. I am sure that the citizens of Old Orchard Beach join me in thanking them for their patience and cooperation, for we all realize that the success of our graduates is the measure of our teachers.

Respectfully submitted,

JEROME LEPELLETIER

FEDERAL SCHOOL

It is my pleasure to submit the annual report of the Federal School for the year beginning January 1, 1965 and ending December 31, 1965.

School Program :

306 Pupils are enrolled in Grades 6-7-8. 112 of these pupils are bus pupils. Each teacher is carrying a pupil load of not less than 30 and not more than 35. We have adopted the same time schedule as the High School this year. Each pupil has classes in English, Mathematics, Social Studies, Science, Reading and two study periods daily. This program has worked out very well. We have established a study hall and by reconditioning tables that were a part of the room furniture in the past years, have an attractive study hall that is teacher supervised at all times.

Science :

The science department has received valuable materials to enhance the classes. Through the N.D.A. science film strips and portable tables were acquired. New science textbooks for Grade 6 were received. This series is being used in the Jameson School in Grades 3-4-5. Using the same series through Grade 6 should give the child an enriched science vocabulary and he should be able to do more advanced work in Grades 7-8.

Mathematics :

Last year, our first year to teach a division in Algebra proved to be most satisfactory. This year we are at it again. We have modern Math Algebras and look forward to another year of good work. The teachers attended the course offered during the Spring Term in Modern Math. The sixth grades will have the new math this coming September.

English:

The English program is divided into three main units.

1. *Elements of English Grammar* serves as a basis for those units dealing with composition and literature.

2. *Organizing and Reporting Skills*. These skills are then applied in the writing of essays and short stories.

3. *The Literature Unit* gives instruction in the reading of literature and includes materials of different levels of difficulty, thus providing for the individual differences.

The Basic Keys to Spelling Series instructs the students in techniques to use for different, new and unfamiliar words.

Sports Program:

This year the boys of the Federal School were the undefeated football champions of York County. We are very proud of them. We do have an intramural program that is conducted in Basketball during the month of March. Regardless of ability, if the boy has a desire, there is a place for him on a team. We compete in the local area organized leagues.

Testing:

Early in the school year the Otis Quick-Scoring Mental Ability Tests are administered to grades seven and eight. In March eighth grade students take the S.R.A. High School Placement Test. In May Standard Achievement Tests are administered to Grades six and seven.

Guidance:

Weekly classes for the eighth graders are held every Wednesday with Mr. Dooley, the Guidance Director. The program is geared toward the realistic choice of a high school course of study with emphasis upon academic and vocational areas.

I wish to express my sincere appreciation to Superintendent Forbush, the School Committee, Teachers and Parents for their co-operation and interest in our school.

Respectfully submitted,
CATHERINE G. NEILON
Principal

SUPERINTENDENT OF SCHOOLS AND BOARD OF EDUCATION

I herewith submit the report of the Jameson School beginning January 1, 1965 and ending December 31, 1965.

REGISTRATION

Enrollment — September, 1965 — 235

Enrollment — December 31, 1965 — 251

The enrollment increase during the first term followed the usual pattern of late entrants and transfers. The breakdown is as follows.

Grade 3 (2 grades)	60
Grade 4 (3 grades)	83
Grade 5 (3 grades)	88
Grades 4 & 5 (1 grade)	20
Total	<hr/> 251

TRANSPORTATION

The transportation of bus pupils was revamped this year. Under the supervision of the superintending school committee a rescheduling of routes and timing was effected. This necessitated many hours of work and miles of travel by this group. As a result we now have a program whereby the children are deposited at school no earlier than 8:00 A.M. and are picked up no later than 3:30 P.M. Teachers, parents, and children are most grateful for this effort.

Transported pupils by areas are:

Halfway	48
Ocean Park	31
E. Grand Ave.,	
Portland Ave.,	
Town Hall,	
Milliken Mills	34
Total	<hr/> 113

HOT LUNCH PROGRAM

The Hot Lunch Program is progressing well. It is efficiently supervised by Mrs. Eleanor Smith and her co-workers Mrs. Armstrong and Mrs. Burke. The students from the four fifth grades help in the serving and the operation of the dish washing machine. These helpers alternate from grade to grade thus allowing all children who wish to do so a chance to perform this duty. I would like to commend the teachers, two each day, and Mr. French for their excellent supervision of the

lunchroom. As few as twenty students leave the premises for lunch at home, better than 230 remain at school, either participating in the hot lunch program or a home prepared lunch. The number of hot lunches served, including free lunches, average 125 per day.

FIRE DRILLS

Fire Drills present no problem due to the easy means of egress from all rooms except one (grade 4 and 5 combination). Dry-runs are carried on periodically. The building can be cleared in 25 seconds.

PHYSICAL EDUCATION

The Physical Education program is carried out by the teachers either on the playground or in the classroom; the latter in inclement weather. Thirty minutes, not counting morning and noon recesses, are scheduled weekly.

SCHOOL BANKING

School Banking, as a purely voluntary procedure, continues to be most popular. Better than fifty-percent participate.

SCHOOL DRIVES

The two school sponsored drives, Junior Red Cross and March of Dimes, are received enthusiastically. A majority of the students body participate in both of these worthwhile functions.

PENMANSHIP

The Rinehart Writing System is an important part of the school curriculum. The supervisor, Miss Caddigan, leaves instructions and collects writing specimens periodically. The specimens are graded and returned to their respective buildings. The instructor is available during her building visit for any classroom instruction considered necessary.

PARENT CONFERENCES

Parent Conferences or visitations with the students' teachers will be expanded this year. They will coincide with the issuing of the report cards. The ranks will not be given the student at the termination of the first and third ranking period. The parent is asked to visit his child's teacher for a progress report during these particular periods. These conferences should help to foster a closer relationship between the school and the home to the ultimate benefit of the child.

CLASSROOM SUPERVISION

An innovation to the elementary principal's supervising procedure is classroom supervision. Substitutes are made available so that at least once a month the principal can visit each classroom and observe first hand the performance of the student and the techniques of the teachers. As we have more than our share of good pupils and fine teachers this has proved to be interesting, informative, and I hope beneficial to all concerned.

MODERN MATH

Grade three (two grades) are teaching Modern Math this year. It is definitely a departure from the traditional but all teachers participating conclude that the end results should provide the student with a better understanding of arithmetical procedures. The four third grades, two at Jameson and the two at Elementary, hold meetings periodically to their mutual benefit. Beginning September, 1966 Modern Math techniques will also be taught in grades four and five. All the teachers of Jameson participated in an instruction course in Modern Math which was held here last spring.

SCIENCE

In order to give our students a more adequate science program we have provided them with the newest and most comprehensive text available. These should give the student a better understanding of present day scientific procedures and a better knowledge of science materials required at each grade level. The continuity in the science program, text wise, should be of value to the student as he advances through the grades.

SPELLING

New spelling texts were introduced in grades three and four this year. Grade five will be using the texts beginning September, 1966. The same basic texts will be in the curriculum of all the elementary grades, two through eight. This continuity should help to produce more accurate spellers and in turn contribute to better written expression.

In closing my appreciation to Superintendent Bernard Forbush, the superintending school committee, Mrs. Murphy — School Nurse, Mr. French — School Janitor, and to my fellow teachers for their continued cooperation in our mutual endeavor, the education of the students of Jameson School.

Respectfully submitted,

HELEN MARSHALL,
Principal

ELEMENTARY SCHOOL
PRINCIPAL'S REPORT
1965

To the Superintendent of Schools and the School Committee:
Following is the statistical report of the School Street Elementary School for the year 1965.

ENROLLMENT

Sub Primary	106	4 classes (2 morning classes and 2 afternoon classes)
Grade 1	111	4 classes
Grade 2	106	4 classes
Grade 3	51	2 classes
<hr/>		
Total	374	

The School enrollment figures show an increase of 31 pupils over the year 1964.

TRANSPORTATION

The School Committee worked out a time schedule for the transportation of pupils which began last September. It has been a great improvement over the previous year. Children no longer have arrived at school in the morning one hour before school began. However, in the afternoon some children remained at school 40 minutes before the last bus took them home.

Teachers were on Bus Duty daily to care for the safety of the pupils from the arrival of the first load before school until the last load left in the afternoon.

There were 192 pupils transported to the Elementary School during the fall term. This number was 10 more than a year ago.

FIRE DRILLS AND SAFETY

Classroom discussions in Safety have always been a part of our curriculum. These discussions made the children aware of hazards that confront them at all times both at school and at home. Fire Drills were conducted at regular intervals during the warm weather to keep the pupils alerted in the event of an emergency.

HEALTH — HOT LUNCH AND MILK PROGRAM

Health talks plus periodic class inspection by our school nurse, school doctor and school optometrist were continued as in the past. All pupils were weighed and measured at the beginning of the school year.

Again the Hot Lunch program has been ably handled by the same cafeteria personnel. We appreciate their efficiency. During the lunch hour two teachers and our janitor have been on duty caring for the 200 children who remained at school daily for lunch. Our cafeteria has four exits in event of an emergency.

In addition to the Hot Lunch, many have taken advantage of the Milk program too. During recess about 225 children were served milk in their classroom.

BANKING

The School Banking was conducted on each Tuesday morning through the facilities of the Saco and Biddeford Savings Institution. We believe this to be a most important program and I am happy to say that most of the pupils at Elementary School have taken advantage of the service the Bank rendered to them.

TESTING AND REPORT CARDS

The testing program as in former years has continued in the same manner. Kuhlman Anderson Intelligence Tests were administered in Grade 1. Otis Intelligence Tests were given to all *new pupils* who entered our school in Grades Two and Three.

Science Research Mental Ability Tests were given to the Sub Primary pupils and Stanford Achievement Tests were taken by all of the children in Grades One, through Three.

The profiles or results of these tests were filed with the individual Cumulative Records that are kept for each student. They move on with the child to the teacher of the next grade.

Report Cards were issued four times during the year.

In November the parents were invited to come to school for a Parent Teacher conference and to receive their child's report card at that time. The parents gave us their fullest co-operation. More than 90% came to school by appointment.

We welcome parents to visit school at any time and to find out first hand what their school is offering their children.

MODERN MATH

Last spring all of the teachers at the Elementary School attended an in-service course in Modern Math held at the Jameson School and taught by Dr. Robert Page, a faculty member of Nasson College.

In September Modern Math was introduced in the First, Second and Third grades. This new arithmetic series helps children learn to think mathematically and to use numerals, place holder symbols and relation symbols in expressing their thoughts in Arithmetic. It helps the pupils develop increasing proficiency in the use of the operation of Arithmetic. The material is so organized that interest is stimulated and each lesson motivates the pupils to study the lesson by showing how the new ideas will be helpful in solving the problems.

PHYSICAL EDUCATION — MUSIC — ART AND WRITING

Classes in Physical Education were conducted daily under the supervision of the teachers. Often times the leaders of the exercises were pupils from within the class.

Classes in Music and Art were also taught by the classroom teachers.

The Rinehart Writing System continued as an important part of our curriculum. The supervisor visited our school every six weeks and checked the work of each class and graded the tests.

FIELD TRIPS

The Second Grades, in conjunction with their Social Studies program visited the following places of interest in the town—Fire Station and Libby Memorial Library.

JUNIOR RED CROSS AND MARCH OF DIMES

The Junior Red Cross projects consisted of making 150 place mats and 150 nut cups for the Veterans Hospital at Togus and the Augusta State Hospital. The only "drive" conducted at Elementary School was the March of Dimes.

GRADE TEACHER MEETINGS

The teachers held grade meetings once a month and discussed mainly Reading, Phonics, and Modern Math Curriculums. General meetings of all of the teachers were held whenever it was deemed essential.

On several occasions during the year, the classes, while in session, were visited by the principal. These visits brought the teacher and principal into closer professional relationship.

The teachers have worked unceasingly for the good of the children in our school.

In closing, I wish to express my sincere appreciation to Mr. Forbush, the School Committee, my teachers, janitor, supervisors and parents for their cooperation and kindness at all times.

Report of School Physician

During the month of April 1965 several groups in the elementary schools were given the "Tine Test" for Tuberculosis—with very favorable results. In June, two hundred and seven smallpox vaccinations were administered. Physical examinations were given in August for those groups in both the senior and junior high school before they were permitted to participated in the football program.

There were four hundred and thirty examinations not including those related to sports activity.

Following is a list of abnormal findings:

Cardiac	6
Tonsils	5
Bronchial	5
Dermatological	16
Adenitis	1
Overweight	2

Parents are informed of any condition that is believed to warrant attention.

Respectfully submitted,
DONALD O. SKILLIN, D.O.
School Physician

School Nursing Report

Our regular schedule of Health Education classes were held each week at the Federal School from January until the close of school in June. The new rotation class program put into effect in the Fall Term at Federal School cut these classes out temporarily. (During Spring Term we plan a new Health Education program introducing the Junior High students to a course of Health and Civil Defense lectures sponsored by the State Departments of Education and Civil Defense in cooperation with the national Public Health services.)

Our health class students studied and discussed the basic food needs for good nutrition and normal physical development. Dental care procedures were reviewed, which unfortunately, appear to have slumped during the past couple of years since we have not had a dental hygienist on our staff—although, both teachers and nurse have used all opportunities to stress good health habits for dental hygiene, and used special programs in stressing dental health week plus follow up care.

Questions that interested the Junior High students concerning themselves and problems of maturity in reaching the teen ages were studied and discussed. Standards for character training and development of good citizenship were included in our classes.

Problems of personal care were considered important to discuss in our classes. Conditions of hair and skin were discussed and emphasis placed on one's personal obligation not to be offensive or a "nuisance" to one's friends and neighbors. (Head lice complaints have been reportable to the State Dept. of Health for the past few years as are other conditions of nuisance or disease carrying nature. It is impossible to understand how any family can tolerate vermin but this is a problem that must be constantly guarded against for the protection and comfort of all families because of the carelessness of a few who tolerate these conditions.)

Daily First Aid cases average half a dozen calls plus messages necessary for home care and possible medical follow up. By and large we had excellent cooperation between the homes and the schools.

Daily conferences between the nurse and teachers, or with the older students were made to cover a variety of needs. Illness and accident problems, mental and emotional disturbances were important in turn. A need for hot lunch, a conference on hygienic worries, or the question of a background health problem on vision or hearing have all been checked.

Help given on emotional problems was a part of our past year's school service. The Family Guidance Clinic for York County was a valuable aid to several of our families on a variety of worries. Children cannot do their school work well or maintain their health when upset by problems beyond their understanding to cope with any better than adults.

Social workers from the State of Maine Family Welfare and Aid to Dependent Children met with the nurses several times during the past year at the regular monthly public health meetings with mutual benefit for all. It has been a definite help to both groups to have had these face to face discussions of common problems. Of necessity such matters are confidential or future needs could not be met or discussed. Hungry and abused children are a country-wide problem today and Old Orchard Beach unfortunately, has had a share of such happenings.

Our State Dept. of Education in cooperation with our local school system has provided help for three children during the past year in obtaining Home Instruction when illness prevented regular school attendance. Four other children were provided with transportation by taxi because either illness or accident hampered them physically. (Three of these children had broken bones from accidents with skate boards.)

The Northeast Speech and Hearing Center in Portland gave speech therapy and training to two of our students during 1965. Again this was a service provided by our State Dept. of Education in cooperation with our local school system. These services involved particular record keeping over and above the individual records kept on all the children but we were most grateful to have these facilities when they were needed for our children.

In addition to our regular schedule of physical check-ups carried on each Fall with our School Doctor and the Sight and Hearing observations noted by our teachers in cooperation with the nurse, we have had our special program of Sight Survey work carried on. The pupil and parent interest on this program has been excellent. This program was started promptly in September and has been just concluded. Modern education requires extensive eyesight use and we are very appreciative of this protective program.

The TB Testing program was held in the Spring Term. The Tine Test was offered to all the Junior Primary and the Seventh

Grade group. There was excellent participation. This project was requested by the State Dept. of Tuberculosis Control and carried thru by cooperative effort of our local school system in covering the cost involved. The two groups tested were at an age of fast growth and were chosen to be tested for this reason as TV shows up when the body has been under extra stress.

Our Hot Lunch program was as in previous years a good help to us during 1965. Some forty students found it of special benefit.

We encountered our usual disturbances from communicable diseases during the past year from measles, mumps, and a variety of cold infections from nuisance type to flue. In the past few months a nose and throat infection of varying severity has been in our area.

Late in the Spring Term of 1965 we offered smallpox vaccination to the Junior High and High School students. Three hundred and twenty-two students received vaccinations with good results. The National Public Health Service advised that we repeat vaccination for smallpox on a basis of every five years now because of the close contact between countries today due to our modern transportation services, which also brings us more possible disease contacts from the travelling public.

We will close this summary of 1965 with thanks and appreciation to our local service clubs and other organizations for their kindness and help in aiding our school children in several ways during the past year, and to parents and friends "thank you."

Respectfully submitted,
AGNES V. MURPHY, R.N.
School Nurse
Old Orchard Beach

Report of School Visual Consultant

The controlled School Vision Program again has demonstrated its importance to the Old Orchard school system.

Vision is not the only factor in learning which may need attention but it is a basic one which directly influences educational and occupational activities.

The T/O School Vision Tester has proved to be a valuable supplement to our program.

The previous, all Sub-Primary children are screened for visual defects and ocular abnormalities. It is one of the most important phases of our program. Grades I, IV, and VII are screened using the School Vision Tester. In the intermediate grades questionable cases and teacher referrals are sent to the School Eye Clinic for vision testing. Freshman and Driver Training class are screened with the Keystone Vision Testing Unit plus a Valid Vision Color Test for color blindness.

Previous records are reviewed and studied by myself and Mrs. Agnes Murphy, R.N. in the number of follow-ups and also those who need outside assistance.

The cooperation of Principals, Teachers and school personnel has been excellent, and the invaluable assistance of Mrs. Agnes Murphy, R.N. in the student preparation and family contact, has made my work an extremely pleasant one.

Respectfully submitted,
STEPHEN J. POLACKWICH, O.D.

LOUIS R. WHARFF, Chief

Report of Police Department

Submitted herewith is the report of Police Department activities and arrests for the year 1965.

The 1965 summer season was without doubt the busiest the Town has seen for a great many years. Due to excellent weather, the tourists came earlier and stayed longer. This fact, along with the increased capacity of Tent and Trailer Parks, additions to Motels and Cabins and transients from surrounding areas, combined to increase the motor vehicle and pedestrian traffic on Old Orchard Street and Beach area tremendously. I feel that this influx was handled efficiently and well by the officers on traffic duty with a minimum of inconvenience to all concerned.

The addition of the Teletype to our communications system has greatly improved our capabilities in apprehending law violators, locating people for other Departments and keeping us in constant contact with Law Enforcement agencies across the country.

The rumors of potential trouble over the Fourth of July and Labor Day weekends caused a few anxious moments, however, with the fine cooperation of the State Police and close contact with the National Guard plus the control equipment purchased by this Department, we felt capable to handle any situation which might have arisen.

I wish to convey our thanks to the Town Officials and citizens for the cooperation and understanding extended to us during the past year.

Respectfully submitted,

JOHN H. CLARK

Chief of Police

Year Ending December 31. 1965

Report of Weights & Measures

The following is a report of all weights and measures tested for the year ending December 31, 1965.

Tested 31 gasoline pumps and found all but one in good working order. This one was not sealed until repaired.

Tested 57 different type scales. One of these had to be repaired and re-tested.

I would like to thank all of the people that I contacted for their kindness and cooperation.

Respectfully submitted,
 RUSSELL A. RIX
 Sealer of Weights & Measures

Report of Electrical Inspection

During the year 1965 there were 247 electrical permits issued to approximately 40 electrical contractors doing work in this town. I investigated several complaints by myself and also with the chief of the fire department. All complaints were taken care of satisfactorily. I had fine cooperation from the Council and Manager in helping me to do a good job.

Respectfully submitted,
 PAUL G. FONTAINE
 Electrical Inspector

Report of School Building Committee

As of this writing, the citizens, students, the Building Committee, and the aptly named "orphans" of Old Orchard Beach, the high school basketball team are eagerly awaiting the completion of the high school's new building and renovation programs.

The actual construction was started in the spring of 1965 with completion expected in February of 1966.

The program consists of a new regulation size gymnasium, new locker and shower facilities, three new classrooms, a new industrial arts department, and new offices for the principal and guidance director.

This program should take care of our secondary school requirements and go a long way towards our attaining state accreditation.

Respectfully submitted,
JOSEPH D. MOKARZEL
Chairman

Report of Public Health Nursing

The following is a report of visits made during the past year:

Adult Health	43
Antepartum	1
Cancer	14
Cardiac	21
Communicable Disease	13
Crippled Children	15
Infant	6
Morbidity	735
Pre-school	8
Tuberculosis	11
Welfare	163

There were 10 Well Baby and Immunization Clinics with a total of 159 children in attendance. The Sabin (oral) Polio was included in the April, May and June Clinics with a total of 109 attending. This will be available each year for the new babies or anyone who may be lacking one or more of the series.

To Mrs. Marion Beaudette for her continued help with the Clinics, to the Doctors for their cooperation, and all those who have helped in any way, I wish to express my sincere appreciation.

Respectfully submitted,
HELEN CURRY, R.N.

Financial Report

DEPARTMENT OF AUDIT

April 27, 1966

Members of the Town Council
Old Orchard Beach,
Maine

In accordance with Title 30, Section 5253, Maine Revised Statutes Annotated of 1964, an audit has been conducted of the financial records of the Town of Old Orchard Beach for the fiscal year ended December 31, 1965.

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

In our opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town at December 31, 1965, and the results of its operations for the year then ended.

Respectfully submitted,

Armand G. Sansoucy
State Auditor

AGS:sv

COMMENTS

Town of Old Orchard Beach

January 1, 1965 to December 31, 1965

* * *

An audit of the financial records of the Town of Old Orchard Beach has been completed for the year ended December 31, 1965. The audit consisted of an examination of the records maintained under the supervision of the Town Manager and municipal officials.

The operations for the year showed that the net unexpended departmental balance lapsed amounted to \$54,417.20 per the following summary:

Departmental Operations:	
Unexpended Balances	\$59,779.60
Overdrafts	5,362.40
	<hr/>
Net Unexpended Balance	\$54,417.20

The overlay, the unappropriated balance of excise tax revenue and unexpended balances in the welfare and interest accounts were the major factors contributing to the amount lapsed to surplus.

* * *

The following comments pertain to the accompanying financial statements and to the scope of audit.

ASSETS . . . The general cash balance of \$45,285.52 was on deposit in the Canal National Bank at December 31, 1965. Petty cash of \$110.00 was on hand.

Accounts receivable of \$3,258.29 represented for the most part welfare expenditures due from the State of Maine and other municipalities.

Taxes receivable of \$106,852.81 consisted of current year accounts of \$85,947.55. The balance of \$20,905.26 was for prior years accounts dating from 1959. Tax liens and tax acquired property amounted to \$20,729.35 and \$431.48 respectively.

LIABILITIES, RESERVES AND SURPLUS . . . Accounts payable totaling \$11,057.09 consisted of unpaid current year charges for various operations. Withholding tax and social security deductions due governmental agencies totaled \$4,487.77 and \$3,691.92 respectively.

Short-term loans of \$30,000.00, issued on a serial basis to refund overdue tax anticipation loans, are shown as a general fund liability.

The departmental accounts showed a net unexpended balance of \$7,494.40 carried forward to the ensuing year in accordance with legal requirements and/or customary practice.

Excise tax revenue of \$3,288.66 was reserved for future allocation by the townspeople.

The unappropriated surplus amounted to \$77,723.39, an increase of \$51,442.02 for the year. This change was occasioned principally by the net unexpended departmental balance lapsed, the unexpended balance in the sewer construction account and a payment of a refunding tax note, less an authorized transfer to the sanitation account.

CONSTRUCTION FUND . . . School construction bonds of \$240,000.00 together with a current year appropriation of \$25,296.00 were used to finance project expenditures of \$221,027.06 during the year. The balance of \$44,268.94 was on deposit in the Canal National Bank, Portland, Maine.

Notes of \$75,000.00 were negotiated in 1965 for architectural fees, furniture and fixtures and equipment for four new school classrooms. As no current year charges were made the note proceeds were invested in U. S. Treasury bills and a bank time deposit.

DEBT FUND . . . The debt fund, incorporated in the balance sheet as a separate fund, reflects the outstanding equipment notes of \$14,224.00 and \$75,000.00 respectively. School construction and sewer construction bonds amounted to \$327,000.00 and \$428,000.00. These obligations mature over the ensuing twenty years at varying rates of interest.

GENERAL . . . The use of revenue derived from excise taxes, parking meters, memorial park revenue and licenses as well as a transfer from unappropriated surplus for current operations were voter authorized. The issuance of bonds and notes to finance the purchase of equipment and construction projects also were authorized by the townspeople.

SCOPE OF AUDIT

Cash accounts were verified by reconciliation of statements furnished by the depository. Verifications were utilized, on a test basis, to determine the correctness of recorded assets and liabilities.

An analysis was made of receipts and deposits as well as expenditures and negotiated checks. Vouchers payrolls and canceled checks were examined for a selected period. Excise tax collections were checked by examination of copies of receipts retained by the collector.

The minutes of the annual, special and council meetings were checked for matters of financial concern. Surety bond coverage was examined.

REPORT OF PARK COMMISSION

The Park Commissioners at this time wish to express their appreciation to the citizens of the Town of Old Orchard Beach for their patience, confidence and cooperation during this past year.

The Women's Civic Group were especially helpful beautifying the Parking Lot and Recreational areas this year. They donated a lighted fountain, which was installed in the center of the newly laid walks.

In addition to the supervision of the Memorial Parking Lot, the Commission overseered the Recreation League Basketball Tournament and the Combination Basketball - Tennis Court on Atlantic Avenue.

The Commission continued with the tree program, which consisted of pruning, dormant spraying and scouting, to combat and control the Dutch Elm Disease.

The Memorial Parking Lot was under the supervision of James Murphy, Sr.

The Commission has initiated worthwhile projects this year which it expects to be completed in the near future. Briefly it was: Landscaping of the grounds about the monument, and the adjacent parking area. This included the installation of a new light pole, the wiring for 2 additional poles by the monument and asphalt walks were interspersed throughout the newly landscaped area. Also the parking area has been totally enclosed for the first time by a cyclone fence.

LAURA H. WASHBURN

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee
and Citizens of Old Orchard Beach, Maine:

I would like to take this opportunity to bring you, the citizens of Old Orchard Beach, up to date following the tragic fire of September 13, 1966 which resulted in the loss of our Federal School. This school served as a Junior High School for your community.

Following the day of the fire the School Committee members, Superintendent, Assistant Superintendent and Town Manager and Council members met to chart a temporary course for

the continued education of the Junior High students. Many of your citizens as well as surrounding communities, owning public buildings offered their facilities to be used as temporary school buildings. However, after considering all aspects of the cost of renovating the interior buildings and including extra sanitary conditions the group decided that the cost would be prohibitive and therefore embarked upon the idea of using the high school on a double session basis. This is to say that the high school students would attend school from 7:00 in the morning until 12:00 noon and the same building would be used in the afternoon as a Junior High School and they would meet from 12:15 to 5:00 P.M. It was fully realized by all persons in attendance that double sessions are not the best possible educational setup but this was an emergency basis prior to replacement of the lost building.

The use of the High School building as a double session, as can well be realized, did cause some amount of inconvenience; first of all to the parents of the Town of Old Orchard Beach, who by the way, have been very understanding and sympathetic to the School Department under this emergency. Secondly, there had to be a rearrangement of extra curricular activities, lunch programs, bus transportation and repurchasing of school supplies that were completely lost in the fire.

Following this meeting the Superintendent of Schools suggested that a Building Committee be formed as soon as possible to look into the needs for the replacement of the Junior High School and indeed the long range view of education in the Town of Old Orchard Beach. The Superintendent suggested that this Committee be comprised of the three School Committee members, three members of the Town Council, three interested citizens at large with the Superintendent serving as Secretary and Educational Consultant.

On October 19, 1966 the Old Orchard Beach Building Committee had its organizational meeting. Mr. John White was unanimously voted as Chairman. During the remainder of this first meeting the Superintendent filled the Committee in as to their duties, what they were to look for, the immediate needs of their schools of Old Orchard Beach plus the long range plan and further went into the pros and cons of entering into a School Administrative District. The School District would allow more General Purpose Aid to the tune of 10% additional plus building assistance which the Town currently is not eligible for.

Superintendent Forbush sent feelers out to a number of architects in the area along with a booklet entitled "Educational

Specifications for Old Orchard Beach" depicting the needs in the form of a Junior High School that Old Orchard Beach felt was necessary. During ensuing meetings the Committee reviewed some of the architectural material and called some of them in for an interview. The Committee further visited buildings in other communities that some of the perspective architects had constructed, primarily the Junior High School in Scarborough. The Committee unanimously voted to be in favor of hiring Mr. Douglas Goodspeed, Architect, of Portland. On December 19th Superintendent Forbush appeared before the Town Council and Town Manager indicating the recommendations of the Building Committee to hire the architectural firm of Goodspeed and Gibson. The Town Council unanimously voted that the recommendation of the School Committee and the Superintendent of Schools be accepted and the Committee Chairman, Mr. John White, be authorized to enter into an agreement with the architectural firm of Goodspeed and Gibson.

Many proposals were considered working with the architect, building independent of any existing facilities. The second possibility was a tunnel to connect the new Junior High School with the current High School to serve as a fall-out shelter, however, this was discarded when found that the cost to the citizens of Old Orchard Beach would be prohibitive.

It was generally decided that the building should include 13 classrooms with a library, office, cafeteria, multi-purpose room and storage facilities and 1 science lab interconnecting the classrooms. The architect presented a number of schemes both single and multi-story buildings.

Working with the architect it was decided to have the new Junior High School virtually wrap around the new gymnasium of the High School. This would allow double use of facilities and therefore cut the cost of building within the community. The High School students could use the cafeteria, being planned for the High School, and the Junior High youngsters would have an opportunity to have ready access to the new gymnasium for their Physical Education classes. The building's top floor would be on a level with the current High School gymnasium. This floor would house a wide corridor that could double as a second lobby to the gymnasium and Administrative offices, the cafeteria-multi-purpose room, the library, study hall, toilet facilities and general classroom areas. There would be one floor under this wing that would house general purpose classrooms, toilet facilities and science lab along with storage facilities.

The architect and Superintendent have submitted these basic plans to the State Department of Education and to the Office of Health and Safety at the State Department. Currently it is felt that these plans will meet the State requirements.

To date the plans are meeting the original deadlines set up by your Superintendent of Schools. As a matter of fact, the choosing of the architect was originally planned for December and actually did take place in the latter part of November. The second target date would be the letting out of bonds to general contractors and sub-contractors for the building itself and this is to take place in March.

The third target date is completion date which should be sometime during the month of January 1968. As can be seen these target dates are close and many uncontrollable variables will possibly alter these as much as a month.

I would like, at this time, to thank the School Committee, Building Committee and the Town Officials and citizens who have been so understanding and cooperative during this period of educational crisis within the Town of Old Orchard Beach. In closing I would like to say that if this building becomes a reality the citizens of Old Orchard Beach could justly be proud of such a facility.

Sincerely,

BERNARD C. FORBUSH

Superintendent of Schools

ENTERING AGE

Six years of age on or before October 15th of the school year shall be admitted to grade one.

Five years of age on or before October 15th of the school year shall be admitted to Kindergarten.

SCHOOL STORM SIGNALS

The no-school signal will be sounded by the fire alarm signal at 6:00 A.M.

It is advisable to listen to radio stations WIDE Biddeford, W C S H and W G A N Portland, as announcements will be made.

Weather reports are not always reliable and since the School Department desires to tender maximum educational service by having school in session the greatest number of days, storm signals will not be used when there is reasonable doubt.

Safeguard health by keeping your child home when, in your estimation as a parent, conditions warrant.

MEETINGS

The School Committee holds its regular monthly meeting at the Old Orchard Beach High School on the third Friday of the month at 3:00 P.M.

NEIGHBORHOOD YOUTH CORPS

This program is designed to assist in-school enrollees from low income families complete their high school education through a work program.

The Town Hall, town garage, public library, and public schools were a few of the work sites.

The enrollees may work twelve hours a week during the school year and thirty-two hours a week during summer vacations. Hourly rate of pay is \$1.25.

Approximately \$25,902.75 was realized in the community from this program.

TITLE I - READING PROGRAM

\$30,105 was allocated to Old Orchard Beach for a Title I, E.S.E.A. Reading Program.

One hundred sixty-three students participated in the program, a director, assistant director, guidance counselor, financial director and fourteen classroom teachers. All personnel received a one-week preservice school instruction period.

The students attended school for two hours per day for six weeks.

TITLE II - LIBRARY RESOURCES

\$2,176.13 was received from Federal Funds for library materials.

This money is designed specifically to increase the number of volumes in the school libraries. Only ten percent of the money received may be expended for audio visual materials.

None of the monies can be expended for textbooks, audio visual equipment, or personnel.

TITLE IIB - BASIC ADULT EDUCATION

\$8,967.76 was received in Union #7 for this program which is designed for people over 21 years of age who have not completed the eighth grade.

HEADSTART

\$5,185.00 was received in School Union #7 for this program. This program is designed to help children from low income families get a better start for school.

Each child was given inoculations and immunization.

Each received a complete medical and dental examination. Monies for corrective work in dental and optical services was available for those who needed it.

HIGH SCHOOL

The school year of 1966 has seen the completion of the new construction at the high school. The new areas have given us an excellent physical education plant for boys and girls, a new industrial arts and home economics department, and new physics and biology laboratories.

To accommodate the junior high school students after the fire in the Federal School, high school classes were rescheduled

to start one hour earlier, at 6:55 A.M., and the daily activity period of 40 minutes was discontinued. This readjustment allowed high school students to meet their usual number of hours per week in each class, but still permitted a noon-time dismissal. While double sessions are difficult at best, I think that the cooperation shown by the faculty and students of both divisions has contributed greatly to the smooth flow of the educational processes during this difficult period.

Because double sessions in one building are equivalent to two years usage in one, maintenance and upkeep costs in the high school must be expected to rise this year, and will stay at an increased level as long as the school program remains the same.

Through the assistance of Mr. Howard Cushman, Assistant Superintendent of Schools, several new federal grants have been made available to the high school. The library has received money to purchase both reference books and books under the reading program. About 1000 new volumes were accessioned this year, bringing the total collection to about 4,100 volumes. Also under federal financing were such other projects as Youth Corps, and the Title I Reading Program. The Reading Program, started in the summer, has continued throughout the year under the direction of Mr. Paul Brady. This course in reading meets after school hours and is available both for remedial reading, and for students who wish to learn to read faster and better. Studies have shown that there is no top limit to "speed" and comprehension in reading: everyone — no matter where he starts — can read better. Because speed and comprehension in reading is so important in today's technology, hopefully this program may become a permanent one. With Youth Corps help, the school library and offices are open daily until 5:00 P.M., accommodating both high school and junior high school students.

Mr. Frank Duley, Director of Guidance, has supervised the administration of standardized tests throughout the year: Otis I.Q., the Iowa Tests of Educational Development, The Preliminary Scholastic Aptitude Tests, The Kuder Vocational Aptitude Tests, and the National Merit Examination. Working with the staff of the Maine State Employment Service, the Guidance Department administers aptitude and specialized tests for post-high school employment. The following is an account of the Guidance Department's follow-up studies of the 73 seniors who were graduated in 1966:

Work force	28
2 Year college	3
4 Year college	14
Nursing	2
Business, specialized and technical schools	11
Married (women)	2
Armed Forces	11
Post-graduates	2

May I stress again the necessity for close co-operation between the school and the home. If parents have any questions at all concerning their student's progress, problems, or vocational plans, I suggest that they call the school so that we may discuss it.

Respectfully submitted,
JEROME LEPELLETIER
Principal

FEDERAL SCHOOL

It is my pleasure to submit the annual report of the Federal School for the year beginning January 1, 1966 and ending December 31, 1966.

Grade 6—105 pupils — 3 classes
Grade 7—100 pupils — 3 classes
Grade 8— 98 pupils — 3 classes

303

110 pupils of the enrolled 303 are bus pupils. Each teacher is carrying a pupil load of not less than 30 pupils and not more than 35.

Each pupil has 40 minute classes in English, Mathematics, Social Studies, Science and Reading, plus two 40 minute study periods daily. This program works out very well.

Library books ordered through the Federal grant arrived during the latter part of May. Pupils and Teachers alike were very happy to see the start of a school library. The library was teacher supervised at all times.

All classes started work on Modern Math this year. These classes are progressing very well. The students are enthusiastic and are working hard. The Algebra division has made good progress.

The English program is divided into three main units.

1. *Elements of English Grammar* serves as a basis for those units dealing with composition and literature.

2. *Organizing and Reporting Skills*. These skills are then applied in the writing of essays and short stories.
 3. *The Literature Unit* gives instruction in the reading of literature and includes materials of different levels of difficulty.
- The Basic Keys to Spelling Series* instructs the students in techniques to use for different, new and unfamiliar words.

Sports Program

Our boys compete in the local area organized leagues. All boys have the opportunity to work out for placement on the football, basketball and baseball teams.

Guidance classes are held weekly with Mr. Duley, the Sr. High Guidance Director. These classes are very important to the students to direct and suggest the course of study best suited for the individual during his Senior High School years.

New teachers on the faculty include Mr. Paul Nichols in the English Department and Mr. Stan Keene in the Science Department.

School re-opened on the 7th of September for the Fall Term. We had five days of school when on the 13th of September our school was leveled to the ground by fire.

Superintendent Bernard Forbush, Assistant Superintendent Howard Cashman, The Superintending School Committee, Mr. Leon Jones, Town Manager, Members of the Town Council, Teachers of the Federal School and Mr. Jerome LePelletier, Principal of the Senior High School met at the high school and on the following Monday, the 19th, all arrangements had been made for the pupils to continue their studies by attending the afternoon session 12 noon to 5 P.M. at the high school.

I wish to express my sincere appreciation to Superintendent Forbush, Assistant Superintendent Cushman, the School Committee. Teachers and parents for their cooperation and interest in our school.

Sincere appreciation and thanks to Jerome LePelletier and his teachers for the many, many kindnesses shown to us during this period of re-adjustment. We are indebted to you.

Respectfully submitted,
CATHERINE G. NEILON

JAMESON SCHOOL

I herewith submit the report of the Jameson School beginning January 1, 1966 and ending December 31, 1966.

REGISTRATION

Enrollment - September, 1966 - 244

Enrollment - December, 1966 - 246

The enrollment during the first term changed little due to almost comparable transfers and withdrawals. The breakdown is as follows:

Grade 3 (2 grades)	- 47
Grade 4 (4 grades)	- 113
Grade 5 (3 grades)	- 86
	<hr/>
Total	- 246

TRANSPORTATION

The transportation of bus pupils is proceeding well. The reorganization carried on by the school committee last year continues to be effective. During the first half of the year the last bus student had left the building by 3:20 P.M. and the last half of the year he had left by 3:30. The first bus load in the morning arrives at approximately 8:00 A.M. The breakdown is as follows:

Halfway	- 51
Ocean Park	- 39
East Grand,	
Portland Ave.,	
Town Hall	- 34
	<hr/>
Total	- 123

HOT LUNCH PROGRAM

The Hot Lunch Program, under the supervision of Mrs. Eleanor Smith and Mrs. Marguerite Armstrong, is being administered well. The students (5) from the fifth grades continue to help in the serving and the running of the dishwashing machine. These alternate from grade to grade. The cafeteria supervision is conducted by two classroom teachers and our janitor, Mr. French. I am most appreciative for a job well done as approximately 240 students remain during the noon hour, either participating in the hot lunch program or a home-prepared lunch.

FIRE DRILLS

Fire drills are carried on periodically during seasonable weather. We can clear the building in about 25 seconds due to our excellent means of egress in all classrooms except one.

SCHOOL BANKING

School Banking continues to be popular with a good percentage of the student body. Participation is purely voluntary.

PHYSICAL EDUCATION

The Physical Education program is carried on wholly by the classroom teacher. The classes are conducted either on the playground or classroom. The latter when the weather is inclement.

SCHOOL DRIVES

We sponsor only two drives during the school year; the Junior Red Cross and The March of Dimes. Students' response in both drives has been excellent.

PENMANSHIP

Th Rinehart Writing System under the Supervision of Miss Kathleen Caddigan continues to be most satisfactory. During the supervisor's visits to the school she collects the writing specimens, leaves lesson instructions, and is available for any help needed by classroom teachers.

PARENT CONFERENCES

Parent Conferences at the termination of the first and third ranking periods have proved most beneficial to all concerned; parent, child, and teacher. The progress report of the student, accompanied by a consultation with the parent, have resulted in a better home and school relationship.

MUSIC

We are most fortunate in the resumption of our music program in the school, and in attaining the services of Mr. Donald Hamalainen as our instructor. This, however, does not eliminate the need of a vocal instructor. Mr. Hamalainen has tried to fill this need in part by group instruction, (choruses) but one instructor can be spread just so thin. Some program of vocal music is also carried on by the classroom teacher.

MODERN MATH

This is only the second year for grades 3 and 4, and the first year for grade 5 in Modern Math instruction. This presents a problem to both children and teacher. Considering this definite handicap, the results are excellent. Both the instructor and the student enjoy this new way of doing arithmetic as each mathematical principle is presented and illustrated in a clear and understanding manner.

SCIENCE

We have upgraded our science program to keep pace with the national trend. Our new texts provide materials for study, discussion, and experimentation. Projects, reports, film strips, etc. add interest, information, and vitality to the program.

READING

The materials acquired under Title I (Summer Reading Program) have been put to good use during the regular school year. These have served as additional tools that the teacher may use to upgrade her instruction to the ultimate benefit of the student.

In closing, my appreciation to Mr. Forbush, Mr. Cushman, the superintending school committee, Mrs. Murphy, and all personnel of Jameson School for their continued cooperation.

Respectfully submitted

HELEN MARSHALL, Principal
Jameson School

ELEMENTARY SCHOOL PRINCIPAL'S REPORT

To the Superintendent of Schools, Assistant Superintendent and the School Committee:

The following is a report of the Elementary School for the year 1966.

ENROLLMENT

Kindergarten	(4 classes)	119
Grade 1	(4 classes)	110
Grade 2	(4 classes)	99
Grade 3	(2 classes)	43
Total		371

The total figure shows a decrease of 3 pupils over the enrollment figures for 1965.

TRANSPORTATION

There were 209 pupils transported from the Elementary School during the fall term. This figure shows an increase of 17 pupils over the previous year.

Teachers were on duty for the arrival and departure of all bus pupils. The first morning bus arrived 40 minutes before the start of school. The last bus in the afternoon arrived 35 minutes after the close of school.

In the fall, 82 of the kindergarten pupils registered were bus pupils. Twenty-one were transferred to the afternoon session to even up classes.

The teachers appreciated the cooperation of Mr. York and the bus drivers for maintaining a satisfactory schedule.

HOT LUNCH AND MILK

The food for our Hot Lunch Program was prepared at the Jameson School by Mrs. Eleanor Smith and her assistants. It was delivered to us by Mr. French. Mrs. Helen Allen and Mrs. Elizabeth Regan supervised the serving of the lunch in our building. Approximately 116 children were served daily.

Our cafeteria accommodates children being served a hot lunch and also those carrying a lunch from home.

Two teachers were on lunch duty daily. Mr. Kasper, the custodian, remained in the building during the noon hour and assisted the teachers on duty.

Many children took advantage of the Milk Program. This was served at recess in the classroom to approximately 207 children.

The Maine Dairy Council, as in past years, has been most cooperative in supplying the classroom teacher with graded material available from their department.

HEALTH

Mrs. Agnes Murphy, the school nurse, visited our school weekly.

Dr. Donald Skilling, assisted by Mrs. Murphy, examined all Kindergarten pupils, new pupils, and any student where a need seemed apparent in the other three grades.

Dr. Stephen Polackwich examined all Kindergarten and first grade pupils during the fall term. In addition he checked any child in the other grades who were observed by the teacher as possibly having faulty eyesight and rechecked follow-up cases.

TESTING

Science Research Mental Ability Tests were given to all Kindergarten pupils. Kuhlmann-Anderson Intelligence Tests were administered in Grade I. All new pupils entering second and third grades took the Otis Intelligence Test.

Stanford Achievement Tests were given to each pupil of grades one through three in our spring term.

All test results were recorded in the child's cumulative folder which is passed on from grade to grade as the child progresses through school.

REPORT CARDS & PARENT TEACHER CONFERENCES

Report cards were issued four times during the school year. Parent Teacher Conferences were held at the end of two of these ranking periods. Parents visited school by appointment and picked up their child's report card. The teachers were very pleased to have this opportunity to meet with the parents and discuss the child's report card and school activities. We appreciated the large turn-out that we had for these conferences.

We welcome parents to visit school at any time during the year to confer with the teacher or to observe their child in the classroom.

FIRE DRILLS

Frequent fire drills took place during warm weather to prepare the children to make a quick and safe exit in case of an emergency. Mr. Wharff was sometimes on hand to observe the drills.

BANKING

Banking took place each Tuesday in the Elementary School with facilities provided by the Saco and Biddeford Savings Institution. Valuable habits of thrift may be started by the child participating in this program.

INSURANCE

The Gilpatrick Insurance Agency provided material which was distributed to each child by the teacher. Some of our pupils participate in one of the two insurance plans offered by this company.

FIELD TRIPS

Second grade pupils, in conjunction with their Social Studies Program took their annual field trips to the Fire Department and the Libby Memorial Library. Some classes took Nature Study walks in connection with science activities in the spring.

JUNIOR RED CROSS AND MARCH OF DIMES

In the fall term, all classes participated in the Junior Red Cross drive and during the winter term took part in the March of Dimes.

Third grade students made nut cups, which were sent to the Veterans Hospital at Togus, as a Junior Red Cross project.

WRITING

Our school was visited periodically by Miss Caddigan, a supervisor for the Rinehart Writing System, who examined a sample of each student's handwriting. These samples consisted of the unit assigned by the supervisor and studied by the pupils for a six week period. Miss Caddigan sent a diagnostic report to the teacher each period, indicating the items which were to be made the basis for remedial instruction. She awarded a star or a seal which was placed on the classroom chart, after each assignment was completed.

READING

A new basic reading system published by Houghton Mifflin Company has been introduced in Kindergarten and grades one and three. The second grades have used the Houghton Mifflin material available from the summer reading program as supplementary reading and will use it as their basic system next year.

Despite all the complexities associated with the teaching of reading, a successful reading program must have two essential aims: (1) to help pupils build the power to read well independently and (2) to help them build a strong and continuing interest in reading a wide variety of worthwhile material. As soon as the pupil has a reasonably large sight vocabulary, the stories he meets in this series come from the best and most popular of children's books.

Confidence and security go hand in hand with the acquisition of the ability to read. As long as the pupil can face printed pages with assurance, he will not be likely to suffer from a sense of inferiority in all phases of his schoolwork simply because of weakness in a skill which is essential to academic achievement.

All teachers have taken advantage of the opportunity to borrow Title I reading material which is available from our summer reading program. We all feel that every child has benefited from this extra material.

Every classroom library was increased by several books obtained under Title II funds. Our school received a total of 275 books and in audio-visual material, 8 film strips.

MUSIC, ART AND PHYSICAL EDUCATION

Music, art and physical education were taught by the classroom teacher.

Outlines containing weekly assignments set up by Mrs. Ruth Worth, a former music supervisor, were followed by each teacher.

The Old Orchard Beach Art Association sponsored an art contest in the spring. Each child had an opportunity to participate, and several drawings were chosen from each class for the contest.

Instruction in physical education was given daily in the classroom or, during warmer weather, on the playground.

GRADE TEACHER MEETINGS

Grade meetings were held monthly to discuss the curriculum. These meetings of the teachers by grades helped to keep the classes together so that they were presenting new material at approximately the same time and covering the same material in all subjects.

CLOSING

In closing, I wish to express my sincere appreciation to Mr. Forbush, Mr. Cushman, the School Committee and the parents for their full cooperation. Mr. Kasper, our custodian, is to be complimented on the neatness of our school. I would also like to take this opportunity to thank the teachers of the Elementary School for their cooperation and untiring efforts in behalf of the children of Old Orchard Beach.

Respectfully submitted,
LOIS MARTIN

REPORT OF SCHOOL PHYSICIAN

This is my report of the examinations in the schools for the past year.

During the month of March the elementary schools were visited, and the majority of the younger children were given the "Tine Test" for Tuberculosis. Also included were teachers and other personnel.

Physical examinations were given in August for the senior and junior high school students who were to participate in football.

In December, measles vaccine was administered to all those children in the lower grades who had never been subjected to measles.

School examinations totaled three hundred and fifty-four. Abnormal findings were minimal except for sporadic cases of sore throats and swollen glands. These individuals were advised to take precautions and necessary steps to enhance their recovery.

Very truly yours,
DONALD SKILLING, D.O.
School Physician

SCHOOL NURSING REPORT — 1966

Our school nursing record of January 1966 shows we were involved with the "cold infections" common during the winter months — nuisance colds, flu conditions and with a few cases of scarletina (nose and throat "strep infections.")

Our regular medical exams were completed by this time and we took up classes with the Jr. High students. Because of changes in the time schedule at Federal School we drew the class groups from the study hall and individual study classes.

Disease conditions as TB were discussed and the current health problems troubling the students. (Tine tests for detection of TB signs have been a part of our school nursing program for several years so this subject was of interest to the students.) Personal hygiene and habits of healthful living were taken up. Problems of modern day life as air and water pollution — the incidence of high tumor conditions in conjunction with cigarette smoking were part of our program of topics thru Spring term.

Our State of Maine Dairy Council, the insurance companies, the State of Maine Depts. of Health and Education all contributed excellent material for use in our classes.

During the Fall Term due to the double session necessary in the High School to accommodate the Junior High students classes were carried only with the Home Ec students in Family Life discussions. (We hope to have possibly this Spring and definitely next Fall a series of Health programs by TV. The State Dept. of Education under a Federal grant has made this possible. The School Nurse has served on the educational committee to develop this series from August 1966 to January 1967. It was a very interesting experience to be involved in the building of a program that one hopes to be of genuine worth for our teen agers. The TV broadcast for this Spring from Augusta may be limited in power range but we have been promised good reception for next Fall.)

CLINIC PROJECTS AND MEDICAL PROGRAMS

Dr. Donald Skilling again during 1966 gave us his always kind and very helpful care in medical check up work with groups in the kindergarten, the grades and the High School. A total of 354 exams were done not counting the checks ups for the athletic group completed in the late summer.

Our Sight Survey program supervised by Dr. Stephen Polackwich, also gave us valuable help during 1966. Again kindergarten, grade school and older students were carefully screened for vision problems. Written reports of any visual need were sent to the parents during the course of this program in the Fall and Winter terms. A total of 569 vision tests were done covering developmental growth and age levels.

We owe much appreciation and thanks to both of these programs for the care given our school students.

In March 1966 we gave Tine Tests to the Kindergarten and Seventh Grade groups plus the adults who were due for a TB test. State Law has required for some years that all adults in contact with the school children have a TB test or a chest Xray every two years. So teachers, hot lunch personnel, custodians, bus drivers, all are regularly checked. Two students and some few adults reacted to the Tine Test and had prompt follow-up care. We were pleased to have all checked OK medically. We gave a total of 227 Tine Tests.

A measles vaccine clinic for preschool age children was held in early December with good attendance and it was followed in late December by a clinic for school age youngsters. A total of 93 school age children received measles vaccine.

SUMMARY POINTS

We lost our excellent sight testing machine in the fire that destroyed the Federal School. This machine was one of the best of modern testing devices. Dr. Polackwich should be commended for patiently borrowing a similar machine from Saco on each visit to our grade schools, and the Saco School Nursing personnel thanked for adjusting their testing program to accommodate us. We have found on our sight survey work that taking care of the "little" vision problems lessened the number of older more serious sight defects. The loss of our equipment was a hard blow and we appreciate the help we received to cover this loss for our students.

We also wish to express our appreciation to our local service clubs and veterans organizations and their auxiliaries for a variety of help to our school youngsters. Our thanks too, to the ladies sorority of the Biddeford and Saco area. These ladies have regularly remembered our milk and lunch program.

The lunch program has been of considerable value to our school children. We have been particularly fortunate in the fine caliber of the hot lunch staff. These folks have a real interest in the children's needs over and beyond the job of preparing the meals.

The Family Guidance Service helped us again during 1966 with problems that troubled some of our youth. The State Dept. of Education with its program of aid for physically handicapped provided in cooperation with our local school system—taxi service, home tutoring and speech training, when medically recommended.

With thanks to all parents, students, teachers and other friends of our school nursing program, for help in many ways during 1966.

Yours respectfully,

AGNES V. MURPHY, R.N.

REPORT OF SCHOOL VISUAL CONSULTANT

Vision care is an important part of any school health program. In today's visually oriented world, it hardly seems necessary to point out the intimate relationship that exists between vision and school achievement, vision and social development, vision and safety, vision and adjustment, vision and recreation, vision and health.

The importance of vision care for children is attested to by the

State Law that requires vision testing in the schools. Unresolved visual problems can interfere with health and performance; most all vision problems can be corrected or compensated for with the use of available techniques and knowledge.

Vision problems change and new problems appear as the child grows and develops through the adolescent years. The pressure of vision centered activities make it imperative to discover vision problems as early as possible. The controlled School Vision Testing Program as employed in the Old Orchard Beach school system is directed toward this fulfillment.

Following is the outline of the program and its method of operation:

1. Previous year records are reviewed.
2. All Sub-Primary children are screened using the Six Point Clinical procedure.
3. Grades 1-4-7 are tested with the T/O School Vision Tester. The standards are similar to the Massachusetts Vision Test.
4. All intermediate grades, questionable cases, and those referred by teacher observation are also tested.
5. All Freshmen plus questionable cases of previous year and teacher referrals are tested with the Keystone Vision Tester, plus use of a valid color test.
6. The Driver Training Class, composed of Juniors and Seniors, are tested same as the Freshmen.
7. A conference with Mr. Stickney, head of the Industrial Arts Department, is held. Eye Safety is stressed, i.e. safety equipment on machines, and use and care of Eye Safety glasses, ventilation for removal of toxic fumes. He feels ventilation could be improved.

The program provides the Old Orchard Beach school system an excellent School Vision program; complete records are maintained and necessary notices are sent to parents, plus follow-ups, under the supervision of Mrs. Agnes Murphy, R.N.

We were at a disadvantage due to the loss of the School Vision Testing Unit in the fire, however, we were able to borrow from the Saco School System their School Vision Testing Unit, which aided us tremendously, for which I am grateful. I shall express my thanks to the Saco School Board and Saco Public Health Nurses for their kind assistance.

The cooperation of the School Board, Superintendent, Principals, Teachers, and school personnel has been excellent, and

the invaluable assistance of Mrs. Agnes Murphy, R.N. in student preparation and family contact has made the project extremely interesting.

Respectfully submitted,
STEPHEN J. POLACKWICH, O.D.
Visual Consultant

Financial Report

STATE OF MAINE DEPARTMENT OF AUDIT

Members of the Town Council
Old Orchard Beach, Maine

In accordance with Title 30, Section 5253, Maine Revised Statutes Annotated of 1964, an audit has been conducted of the financial records of the Town of Old Orchard Beach for the fiscal year ended December 31, 1966.

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

Within the scope of the examination, the financial transactions were appropriately handled, with such exception as may be noted in the accompanying commentary.

In our opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town at December 31, 1966, and the results of its operations for the year then ended.

Respectfully submitted,
ARMAND G. SANSOUCY
State Auditor

STATE DEPARTMENT OF AUDIT
STATE HOUSE, AUGUSTA
MEMORANDUM

To: Municipal officers

From: Armand G. Sansoucy, State Auditor

Subject: Additional Material for Your Convenience When
Preparing Annual Report

Title 30, Section 5253, Revised Statutes of 1964, provides that the annual report shall contain the statement that the complete postaudit report for the latest municipal year is on file at the municipal office and the following excerpts from that report:

- A. Name and address of the auditor.
- B. Auditor's comments and suggestions for improving the financial administration.
- C. Comparative balance sheet.
- D. Statement of departmental operations.

ARMAND G. SANSOUCY
State Auditor

COMMENTS

TOWN OF OLD ORCHARD BEACH

JANUARY 1, 1966 TO DECEMBER 31, 1966

An audit has been completed of the financial records of the Town of Old Orchard Beach for the year ended December 31, 1966. The audit consisted of an examination of the records maintained under the supervision of the Town Manager and municipal officials.

The fiscal year's operations showed that the net unexpended departmental balance lapsed amounted to \$16,507.65, per the following summary.

Departmental Operations:	
Unexpended Balances	\$40,458.57
Overdrafts	23,950.92
	<hr/>
Net Unexpended Balance	\$16,507.65
	<hr/>

The overlay and unexpended balances in the welfare and interest accounts were the major factors contributing to the amounts lapsed to surplus. The larger overdrafts occurred in the School Sewer - Saco Avenue and the police department accounts.

* * * *

The following comments pertain to the accompanying financial statements and to the scope of audit.

ASSETS . . . The general cash balance of \$56,003.21 was on deposit in the Canal National Bank at December 31, 1966. Petty cash of \$110.00 was on hand.

Accounts receivable of \$2,858.52 represented for the most part welfare expenditures due from the State of Maine and other municipalities. Parking fine receipts totaling \$180.00 had not been deposited with the treasurer at the close of the year. However, subsequent remittances of \$83.12 were made leaving an unremitted balance of \$96.88 at audit date.

EDITH BELLE LIBBY MEMORIAL LIBRARY

JANUARY 1, 1966 TO DECEMBER 31, 1966

The financial records of the Edith Belle Libby Memorial Library have been examined for the year ended December 31, 1966.

Cash receipts for the period totaled \$9,431.67 which were derived principally from the Town by an appropriation.

Expenditures for the year amounted to \$8,619.14 and were made for the most part for salaries, books and maintenance.

The cash balance at December 31, 1966 of \$3,057.97 was on deposit in the Canal National Bank, Old Orchard Beach Maine.

Investments totaling \$10,215.89 at the year end were represented by U.S. Savings Bonds of \$3,000.00 and time deposits of \$7,215.89.

Taxes receivable totaling \$101,755.64 consisted principally of current year accounts of \$80,499.10. The balance of \$21,256.54 was for prior year accounts dating from 1959. Tax liens and tax acquired property amounted to \$30,084.55 and \$431.48 respectively.

LIABILITIES, RESERVES AND SURPLUS . . . Accounts payable of \$37,376.23 consisted of unpaid current year charges for various operations. Withholding taxes and social security deductions due governmental agencies totaled \$5,348.30 and \$4,531.49 respectively.

Short term loans of \$20,000.00, issued on a serial basis to refund overdue tax anticipation loans, are shown as a general fund liability.

The departmental accounts showed a net unexpended balance of \$32,366.95 carried forward to the ensuing year in accordance with legal requirements and/or customary practice. Excise tax revenue of \$2,839.47 was also reserved for future allocation.

The unappropriated surplus amounted to \$51,101.79, a decrease of \$26,621.60 for the year. This change was occasioned principally by a transfer to reduce the tax levy, less the net unexpended departmental balance lapsed, the excess of actual revenue over estimated and a payment of a refunding tax note.

CONSTRUCTION FUNDS . . . The high school addition transactions for the period ended December 31, 1966 reflected a balance of \$8,100.00 which was on deposit in the Canal National Bank, Portland, Maine.

An insurance settlement of \$149,715.25 was received for a fire loss to the Federal School. With the exception of expenditures of \$8,943.48 which were mostly for supplies, the present balance is invested in U.S. Treasury bills of \$126,658.95 and a deposit of \$14,112.82 in the Canal National Bank, Portland, Maine.

DEBT FUND . . . The debt fund, incorporated in the balance sheet as a separate fund, reflects the outstanding equipment notes of \$7,112 and \$60,000 respectively. School and sewer construction bonds amounted to \$299,000 and \$400,000 respectively. These obligations mature over the ensuing nineteen years at varying rates of interest.

GENERAL . . . A review of the Town Council records revealed that authority was granted to use unappropriated surplus to reduce the tax levy and to apply excise tax revenue, license and interest income to the 1966 budget. It was also voted to transfer funds from the contingent account to finance purchase of highway equipment.

SCOPE OF AUDIT

Cash accounts were verified by reconciliation of statements furnished by the depository. The correctness of other recorded assets and liabilities was verified on a test basis.

An analysis was made of receipts and deposits as well as ex-

penditures and negotiated checks. Vouchers, payrolls and canceled checks were examined on a selective basis. Excise tax collections were checked by examination of copies of receipts retained by the collector.

The minutes of the council meetings were checked for matters of financial concern. Surety bond coverage was examined.
